RESEARCH OPPORTUNITIES ALERT
Issue 26: Volume 2

SCHOLARSHIPS, PRIZES AND FELLOWSHIPS
(Quarter: July - September, 2016)

A Compilation by the
RESEARCH SERVICES UNIT
OFFICE OF RESEARCH, INNOVATION AND DEVELOPMENT (ORID), UNIVERSITY OF GHANA

JUNE 2016
## TABLE OF CONTENT

### OPPORTUNITIES FOR JULY 2016

EDISON MEDAL ................................................................. 37
JAMES H MULLIGAN JR EDUCATION MEDAL ......................... 37
RICHARD W HAMMING MEDAL ........................................... 38
JACK S KILBY SIGNAL PROCESSING MEDAL ......................... 39
JUN-ICHI NISHIZAWA MEDAL ............................................. 39
ROBERT N NOYCE MEDAL ................................................ 40
DENNIS J PICARD MEDAL FOR RADAR TECHNOLOGIES AND APPLICATIONS 41
SIMON RAMO MEDAL .......................................................... 41
JOHN VON NEUMANN MEDAL ............................................. 42
SEYMOUR CRAY COMPUTER ENGINEERING AWARD ............. 43
SIDNEY FERNBACH AWARD ................................................ 43
PSYCHOANALYTIC RESEARCH EXCEPTIONAL CONTRIBUTION AWARDS 44
POLYMER PHYSICS PRIZE .................................................. 45
ELISE M HAYMAN AWARD FOR THE STUDY OF THE HOLOCAUST AND GENOCIDE 45
TECHNICAL ACHIEVEMENT AWARD ..................................... 46
SIEMENS HEALTHCARE DIAGNOSTICS YOUNG INVESTIGATOR AWARD ... 47
NICHOLSON MEDAL FOR HUMAN OUTREACH ......................... 47
WICHTIG RESEARCH AWARD .............................................. 48
MAX DELBRUCK PRIZE IN BIOLOGICAL PHYSICS ................... 49
KEN KENNEDY AWARD ........................................................ 50
FOUNDERS MEDAL ............................................................ 51
B RAMAKRISHNA RAU AWARD ............................................. 51
INNOVATIONS IN HEALTHCARE TECHNOLOGY MEDAL ........ 52
POWER ENGINEERING MEDAL ............................................. 53
ENVIRONMENTAL AND SAFETY TECHNOLOGIES MEDAL ...... 53
YOUNG TECHNICAL GEOTECHNICAL ENGINEER AWARD ........ 54
EXTENDED DEADLINE: EDCTP FORUM SCHOLARSHIPS ........... 55
RESEARCH GRANTS ............................................................. 56
RESEARCH FELLOWSHIPS IN HUMANITIES AND SOCIAL SCIENCE 57
RESEARCH FELLOWSHIPS ................................................... 57
SENIOR RESEARCH FELLOWSHIP ....................................... 58
RESEARCH AWARDS FOR HEALTH PROFESSIONALS ............ 59
INDUSTRY FELLOWSHIPS .................................................. 60
AREF RESEARCH DEVELOPMENT FELLOWSHIPS ..................... 61
AFRICA THESIS AWARD .................................................................................................................. 62
RESEARCH GRANTS .......................................................................................................................... 63
AFRICAN ADVANCED SCHOOL ON NEUROPSYCHIATRIC GENOMICS ....................................... 64
BRAIN PRIZE COURSE STIPENDS .................................................................................................... 65
WILLIAM HARVEY INTERNATIONAL TRANSLATIONAL RESEARCH ACADEMY FELLOWSHIPS. 66
POSTDOCTORAL FELLOWSHIP GRANTS FOR BASIC AND TRANSLATIONAL RESEARCH .......... 67
GRADUATE TRAINING IN DISPARITIES RESEARCH GRANTS ...................................................... 68
PRINCESS OF ASTURIAS AWARD FOR CONCORD ............................................................................ 68
AFRICAN ADVANCED SCHOOL ON NEUROIMAGING – UNDERSTANDING THE BRAIN IN TIME AND SPACE .................................................................................................................. 69
KLUGE FELLOWSHIPS ...................................................................................................................... 70
SHORT-TERM FELLOWSHIPS .......................................................................................................... 71
BERND TERSTEEGEN AWARD ................................................................................................ .......... 72
AOTRAUMA FELLOWSHIPS FOR SURGEONS ............................................................................... 72
VISIT THE EXPERT FELLOWSHIPS .................................................................................................. 73
FERRING INNOVATION GRANTS ....................................................................................................... 74
OTTO BAYER SCHOLARSHIPS ......................................................................................................... 75
CARL DUISBERG SCHOLARSHIPS .................................................................................................... 75
KURT HANSEN SCHOLARSHIPS ....................................................................................................... 76

GLAXOSMITHKLINE PRIZE FOR RESEARCH IN CLINICAL PHARMACOLOGY ............................... 85
EXTENDED DEADLINE: MARJORY STEPHENSON PRIZE LECTURE ............................................ 86
ANDREW W MELLON POSTDOCTORAL FELLOWSHIPS .................................................................. 87
GE AND SCIENCE PRIZE FOR YOUNG LIFE SCIENTISTS ............................................................. 87
RESEARCH TRAINING GRANT ........................................................................................................... 88
KOREAN LANGUAGE TRAINING FELLOWSHIPS ................................................................. 89

SOFIGA KOVALEVSKAJA AWARD .................................................................................. 90

YOUNG INVESTIGATOR AWARD .................................................................................... 91

ARTICULUM FELLOWSHIP IN ARTHRITIS AND PAIN .................................................. 92

ARNOLD W SIEGEL INTERNATIONAL TRANSPORTATION SAFETY AWARD ............... 92

KARL DEUTSCH AWARD ............................................................................................. 93

BARBARA S BROWN OUTSTANDING STUDENT PAPER AWARD .................................. 94

LÉOPOLD GRIFFUEL PRIZE .......................................................................................... 94

SELMIGAN APV FELLOWSHIP ...................................................................................... 95

GRADUATE AWARDS ..................................................................................................... 96

POSTDOCTORAL AWARDS ........................................................................................... 97

RESIDENTIAL AWARDS ............................................................................................... 98

JP DEN HARTOG AWARD .............................................................................................. 98

STUDENT RESEARCH GRANTS .................................................................................... 99

POSTGRADUATE ESSAY PRIZE .................................................................................... 100

MENTOR AWARDS ....................................................................................................... 100

DOCTORAL GRANTS CALMETTE AND YERSIN .......................................................... 101

RESEARCH GRANTS ...................................................................................................... 102

THIN FILMS AND SURFACES GROUP WOODRUFF THESIS PRIZE ............................. 103

MEMBERSHIP IN ORTHODONTICS CASES PRIZE AND MEDAL ................................. 104

MAURICE BERMAN PRIZE FOR CLINICAL EXCELLENCE ........................................... 104

HELMUT-SCHMIDT-PROGRAMME – MASTER’S SCHOLARSHIPS FOR PUBLIC POLICY AND GOOD GOVERNANCE ............................................................. 105

CID CLINICAL RESEARCH FELLOWSHIP PROGRAMME FOR SURGEONS – CRANIOMAXILLOFACIAL TRAUMA ................................................................................. 107

LIVES BEST PAPER AWARD FOR EARLY SCHOLARS .................................................. 108

OPPORTUNITIES FOR AUGUST 2016

FRANCIS M PIPKIN AWARD ............................................................................................ 109

REACTOR TECHNOLOGY AWARD .................................................................................. 110

ELECTRONICS AND PHOTONICS DIVISION AWARD .................................................. 110

FULBRIGHT NEW ZEALAND GENERAL GRADUATE AWARDS ..................................... 111

RESEARCH ASSOCIATESHIP PROGRAMS: FAA/CIVIL AEROSPACE MEDICAL INSTITUTE ................................................................. 112

THOMAS MARSHALL GRADUATE STUDENT AWARDS ............................................... 113
DIELECTRIC SCIENCE AND TECHNOLOGY DIVISION THOMAS D CALLINAN AWARD ..........114
EPILEPSY RESEARCH RECOGNITION AWARDS .......................................................... 114
RESEARCH ASSOCIATESHIP PROGRAMS: NATIONAL INSTITUTES OF HEALTH/NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY JOINT POSTDOCTORAL PROGRAM ..........115
MARY JANE OESTMANN PROFESSIONAL WOMEN’S ACHIEVEMENT AWARD ..........116
TRAINING FELLOWSHIPS .......................................................................................... 117
J KIFFIN PENRY EXCELLENCE IN EPILEPSY CARE AWARD ................................ 118
JANE DEMPSEY DOUGLASS PRIZE .......................................................................... 118
DOCTORAL SCHOLARSHIPS ...................................................................................... 119
PROJECT SUPPORT GRANT ...................................................................................... 120
JOHN MADDOX PRIZE ............................................................................................ 121
NORDIC PRIZE IN BASIC AND CLINICAL PHARMACOLOGY AND TOXICOLOGY .... 121
AES SERVICE AWARD .............................................................................................. 122
SCIENCE/SCILIFELAB PRIZE FOR YOUNG SCIENTISTS ....................................... 123
SCIENCE AND SCILIFELAB PRIZE FOR YOUNG SCIENTISTS ................................. 124
RESEARCH GRANTS ................................................................................................. 125
GEORGE WATT PRIZE ............................................................................................. 126
JUNIOR SHORT TERM COLLABORATION AWARD ................................................. 126
UMICORE MATERIALS TECHNOLOGY PHD AWARD ............................................. 127
BRIAN D NOVIS JUNIOR GRANT ............................................................................. 128
MENTOR-BASED POSTDOCTORAL FELLOWSHIP PROGRAMME IN REHABILITATION RESEARCH ............................................................. 129
EHA/ISTH JOINT FELLOWSHIP PROGRAMME ..................................................... 130
ADVOCACY FELLOWSHIPS ..................................................................................... 130
OUTSTANDING ABSTRACT ACHIEVEMENT AWARDS ....................................... 131
DEADLINE BROUGHT FORWARD: PHARMACOLOGY PRIZES ............................... 132
LONG-TERM FELLOWSHIPS ................................................................................... 133
HUGUENOT SCHOLARSHIP .................................................................................... 134
FELLOWSHIPS ......................................................................................................... 134
RESEARCH DISSERTATION FELLOWSHIP FOR AUD AUDILOGISTS (F32) ................. 135
JOHN TYNDALL AWARD .......................................................................................... 136
PEZCOLLER FOUNDATION/AACR INTERNATIONAL AWARD FOR CANCER RESEARCH ........ 137
SCIENCE AWARD FOR ELECTROCHEMISTRY ....................................................... 138
SPECIAL AWARD FOR APPLIED RESEARCH ......................................................... 138
SCHOLARSHIPS .................................................................................................................. 139
EVIDENCE AWARDS ........................................................................................................ 140
RESEARCH POSTDOCTORAL FELLOWSHIP AWARD .................................................. 141
JFK LIBRARY FOUNDATION KENNEDY RESEARCH GRANTS .................................... 142
SWEDISH STEEL PRIZE .................................................................................................. 143
EXPOSITORY WRITING AWARD ....................................................................................... 144
ICTP-IAEA SANDWICH TRAINING EDUCATIONAL PROGRAMME ................................ 144
THOMAS HAMPSON FUND ............................................................................................... 146
ICTP/OPEC FUND FOR INTERNATIONAL DEVELOPMENT POSTGRADUATE FELLOWSHIP .... 147
COMMONWEALTH SCHOLARSHIPS - SINGAPORE .................................................... 148
TECHNO-COLLEGE INNOVATION AWARD ................................................................ 149
PHILIP BRET Award ......................................................................................................... 149
SIR HENRY DALE FELLOWSHIPS .................................................................................... 150
H2020-HOA-01-2015 HORIZON PRIZE FOR BETTER USE OF ANTIBIOTICS ................. 151
FELLOWSHIP PROGRAMME ......................................................................................... 152
MARGARET FOTI AWARD FOR LEADERSHIP AND EXTRAORDINARY ACHIEVEMENTS IN CANCER RESEARCH ............................................................. 153
HEALTHCARE INNOVATION AWARD ........................................................................... 154
FELLOWSHIP GRANTS ..................................................................................................... 155
APA EARLY CAREER AND SENIOR SCHOLAR HEALTH SERVICES RESEARCH AWARDS .......................................................... 156
QUEEN ELIZABETH PRIZE FOR ENGINEERING ....................................................... 157
DISCOVERY AWARDS .................................................................................................... 157
ANTHROPOLOGY INTERNSHIP ...................................................................................... 158
HARRINGTON PRIZE FOR INNOVATION IN MEDICINE ............................................. 159
MEMBER-IN-TRAINING AWARD FOR OUTSTANDING ASTRO PRESENTATION IN RADIATION ONCOLOGY ................................................................. 160
MASTER'S FELLOWSHIPS IN PUBLIC HEALTH AND TROPICAL MEDICINE .................. 160
MEMBER-IN-TRAINING AWARDS FOR OUTSTANDING RSNA PRESENTATIONS IN DIAGNOSTIC RADIOLoGY AND RADIATION ONCOLOGY .................................................... 161
FLUIDS ENGINEERING AWARD ...................................................................................... 162
RESEARCH PRIZE .......................................................................................................... 163
FELLOWSHIPS .................................................................................................................. 164
WOLF PRIZES .................................................................................................................. 165
IRVING SIGAL YOUNG INVESTIGATOR AWARD ............................................................ 165
HANS NEURATH AWARD ................................................................................................. 166
FIELD RESEARCH FELLOWSHIPS ................................................................. 167
TWAS-DBT POSTGRADUATE FELLOWSHIP PROGRAMME ..................... 168
TWAS-SN BOSE POSTGRADUATE FELLOWSHIP PROGRAMME ................ 169
TWAS-DBT POSTDOCTORAL FELLOWSHIP PROGRAMME ....................... 170
TWAS-CSIR POSTGRADUATE FELLOWSHIP PROGRAMME ...................... 171
TWAS-CSIR POSTDOCTORAL FELLOWSHIP PROGRAMME ...................... 173
TWAS-ICCBS POSTDOCTORAL FELLOWSHIP PROGRAMME ..................... 174
TWAS-ICCBS POSTGRADUATE FELLOWSHIP PROGRAMME ...................... 175
TWAS-CEMB POSTDOCTORAL FELLOWSHIP PROGRAMME ...................... 176
TWAS-CEMB POSTGRADUATE FELLOWSHIP PROGRAMME ...................... 177
TWAS-ICCBS POSTDOCTORAL FELLOWSHIP PROGRAMME ...................... 178
TWAS-SN BOSE POSTDOCTORAL FELLOSHIPS ........................................ 179
ESSAY PRIZE .......................................................................................... 180
POSTGRADUATE BURSARY PROGRAMME – PHD, MSC AND MENG BURSARIES ................................................................. 180
ARTHritUS AUSTRALIA/ZIMMER ORTHOPAEDIC FELLOWSHIPS .............. 181
TWAS-ICIPE POSTDOCTORAL FELLOWSHIP PROGRAMME .................... 182
INTERNATIONAL FELLOWSHIPS ......................................................... 183
RESEARCH AND STUDY GRANTS ....................................................... 184

DAVID ADLER LECTURESHP AWARD
American Physical Society

Description:
The American Physical Society invites nominations for the David Adler lectureship award in the field of materials physics. This recognises outstanding contributions to the advancement and knowledge in the field of materials physics. The contributor should be noted for the quality of their research, review articles and lecturing.

The lectureship is ordinarily awarded to one person but a second person can be included if the work or review was jointly developed. Nominations of qualified women, members of underrepresented groups and scientists from outside the US are especially encouraged.

The lectureship includes US$5,000, honorarium for the lecturer and a certificate.

Closing date: 01 Jul 16
Deadline information: This call is repeated once a year.

Award type: Prizes

AYMAN PRIZE FOR PUBLISHED WORK PERTAINING TO TRAUMATISED CHILDREN AND ADULTS
International Psychoanalytical Association

Description:
The International Psychoanalytical Association invites submissions for the Hayman prize for published work pertaining to traumatised children and adults. This recognises the author or authors of the best
paper on the effects of the Holocaust on children published or accepted for publication in a book or recognised journal in the two years preceding the association’s biennial congress.

The study of the nature and characteristics of massive trauma to children, of the influence upon their development and functioning, and on succeeding generations of their children, should be the central theme of the work. Studies that focus on the subject population directly related to the Holocaust or apply the understanding derived from Holocaust studies to the effects of massive trauma suffered by children living under repressive regimes elsewhere are prioritised.

Submissions may be made by IPA members and candidates, as well as by non-members. Submissions are accepted in English, French, German or Spanish.

The prize is worth US$4,000.

HANS A BETHE PRIZE
American Physical Society

Description:
The American Physical Society invites nominations for the Hans A Bethe prize. This recognises one individual for work in theory, experiment or observation in the areas of astrophysics, nuclear physics, nuclear astrophysics or closely related fields.

Nominations of qualified women, members of underrepresented minority groups and scientists from outside the US are especially encouraged.

The prize is worth US$10,000.

Closing date: 01 Jul 16
Deadline information: This call is repeated every 2 years.

OM W BONNER PRIZE IN NUCLEAR PHYSICS
American Physical Society

Description:
The American Physical Society invites nominations for the Tom W Bonner prize in nuclear physics. This recognises and encourages experimental research in nuclear physics, including the development of a method, technique or device that significantly contributes in a general way to nuclear physics research.

The prize is ordinarily be awarded to one person but may be shared when all the recipients have contributed to the same accomplishment. Nominations are open to physicists whose work in nuclear physics is primarily experimental or a particularly outstanding piece of theoretical work. Nominations of qualified women, members of underrepresented minority groups and scientists from outside the US are especially encouraged.

The award includes US$10,000.

Closing date: 01 Jul 16

JAMES C MCGRODDY PRIZE FOR NEW MATERIALS
American Physical Society

Description:
The American Physical Society invites nominations for the James C McGroddy prize for new materials. This recognises and encourages achievement in the science and application of new materials. This includes:

- the discovery of new classes of materials;
- the observation of novel phenomena in known materials leading to both new applications and scientific insights;
- theoretical and experimental work contributing to the understanding of such phenomena.

Scientists of all nationalities, irrespective of where their work has been carried out, may be nominated. Nominations of qualified women, members of underrepresented minority groups and scientists from outside the US are especially encouraged. Nominations are active for three years.

The prize includes US$10,000 and an allowance for travel to the APS meeting at which the award is presented.

Closing date: 01 Jul 16

ENIOR FELLOWSHIPS
International Research Center for Cultural Studies – Internationales Forschungszentrum Kulturwissenschaften

Description:
The International Research Center for Cultural Studies (IFK) invites applications for its senior fellowships. These support excellent senior scholars, who are well advanced in their careers, to conduct research on the IFK premises at the University of Arts and Design Linz, in Vienna. Social sciences and humanities proposals may be within the scope of the institute’s current focus theme cultures of translation. The emphasis is on interdisciplinary research that has both theoretical and empirical contribution. The proposals must include:

• well-defined and innovative research question;
• clear definition of the uniqueness or the significance of the work, covering important theoretical and methodological issues in interdisciplinary culture studies and humanities;
• international understanding of the research theme;
• clear methodological provisions that guarantee an interdisciplinary research focus.
Qualified scholars of all nationalities may apply regardless of institutional and departmental affiliations. They must hold a PhD level degree or higher. Preference is given to applicants of international repute whose track record in academic publications establishes them as a leading expert in their field.

Fellowships are granted for one academic semester of four months and include a stipend worth up €2,325 per month, contribution for travel costs of a return trip to Vienna, accommodation and office facilities. Applications may be submitted either in English or German.

Closing date: 01 Jul 16
Deadline information: This call is repeated once a year.

ENID A HAUPP FELLOWSHIP IN HORTICULTURE
Smithsonian Institution

Description:
The Smithsonian Gardens of the Smithsonian Institution invites applications for the Enid A Haupt fellowship in horticulture. This enables graduate students to conduct in-residence, independent thesis and dissertation research with access to the Smithsonian’s Archives of American Gardens, the Garden Furnishings and Horticultural Artifacts Collection and the expertise of horticulturists and landscape architects who manage the Smithsonian gardens in Washington, DC.

Proposals may address, but are not limited to, the following topics:

- the cultural significance of public gardens in urban society;
- the environmental effects of urban settings on horticultural endeavours;
- art in the garden;
- vernacular gardens;
- regional garden types;
Issue 26: Volume 2: Scholarships, Prizes and Fellowships (July – September, 2016)

- the business of horticulture or floriculture;
- historic garden trends and design features;
- historic garden preservation;
- public garden administration.

Applicants must be enrolled in a graduate programme seeking, or having received, their master’s or PhD in horticulture, landscape architecture, cultural studies or a related discipline with concentrations in garden history or landscape studies. Fluency in written and spoken English is required.

The fellowship is full-time and tenable for six to 12 months.

Closing date: 01 Jul 16
Deadline information: This call is repeated once a year.

PHD STUDENTSHIPS

Breast Cancer Now

Description:
Breast Cancer Now invites applications for its PhD studentships. These are for established researchers in the UK and Ireland who have a strong track record in their field, and have previous experience in supervising PhD students.

Only applications from the proposed supervisor are accepted. They must be a permanent salaried member of staff at a recognised clinical or academic institution in the UK or the Republic of Ireland. Established independent researchers and new independent researchers with a strong track record and based within a research institution in the UK or Ireland may apply. Collaborative applications from within the UK and Ireland are welcome. In addition, named academic or clinical collaborators are permitted from outside these countries.

Studentships are worth up to £96,000, excluding conference travel costs, over three
years. Funding covers student stipends, student fees, college fees, research expenses and essential equipment.

Closing date: 01 Jul 16
Deadline information: This call is repeated once a year.
Posted date: 18 Apr 16
Award type: Equipment and materials, Studentship allocations, Financial aid for postgraduate students, Networking/collaboration, Travel to conferences, meetings etc.

JOHN VON NEUMANN MEDAL
IEEE

Description:
The IEEE invites nominations for the John von Neumann medal. This is awarded for achievements in computer-related science and technology. Achievements may be theoretical, technological, entrepreneurial and need not have been made immediately prior to the date of the award. Contributions may be in computer hardware, software or systems art. The scope of the project must be the processing of information and includes the subject areas of computer architecture, base technologies, systems, languages, algorithms and protocols, and application domains.

Any individual or team of up to three members are eligible to apply.
The award consists of a gold medal, bronze replica, certificate and honorarium.

PSYCHOANALYTIC RESEARCH EXCEPTIONAL CONTRIBUTION AWARDS
International Psychoanalytical Association

Description:
The International Psychoanalytical Association invites submissions for its psychoanalytic research exceptional contribution awards. These recognise the four best research papers or posters reporting the results of systematic investigation relevant to psychoanalysis. The competition is not restricted to empirical studies and papers may address any field where psychoanalysis is relevant, such as the history of science, law and art.

Submissions may be made by IPA members and candidates, as well as by non-members. Papers and posters may be submitted in English, French, German or Spanish.

Four awards, worth US$500 each, are available.

Thermodynamics; Hydraulic Engineering & Harbours; Thermochemistry
Description:
The American Society for Microbiology invites nominations for the Siemens healthcare diagnostics young investigator award. This award honours outstanding laboratory research in clinical microbiology or antimicrobial agents and is intended to further the career development of a young clinical scientist and promote awareness of clinical microbiology as a career.

Nominees who are conducting research in clinical microbiology, automation in clinical laboratories, development of novel antimicrobial agents, mechanisms of action of antimicrobial agents or mechanisms of resistance to antimicrobial agents are eligible. Nominees must be no more than five years beyond completion of postdoctoral research training in microbiology, infectious diseases or related disciplines at the time of the nomination deadline. Self-nominations and multiple nominations for the same candidate will not be accepted.

The award includes a cash prize of US$2,500 and travel to the ASM general meeting.

### Wichtig Research Award
**European Society for Artificial Organs**

**Description:**
The European Society for Artificial Organs invites submissions for the Wichtig research award. This recognises the best manuscript of a young scientist working in the field of artificial organs. The research may relate to experimental research, medical science, chemistry, biochemistry, physical chemistry, material and membrane science or chemical engineering but it should focus on the following aspects:

- new developments of artificial organs and regenerative medicine technologies;
- implementation of artificial and bioartificial organs in clinical practice;
- improvement of application strategies for therapies including artificial and bioartificial organs.

Researchers under the age of 40 may apply. The manuscript has to be published in the International Journal of Artificial Organs after January 1st 2015 or be submitted or accepted to the journal at the time of application.

The award is worth €2,500.

**Closing date:** 01 Jul 16

Young Technical Geotechnical Engineer Award
International Society for Soil Mechanics and Geotechnical Engineering

Description:
The International Society for Soil Mechanics and Geotechnical Engineering invites nominations for its outstanding young geotechnical engineer award. This is to recognise individuals who have made outstanding contributions to the practice or research in geotechnical engineering through contribution to one or more research or industrial projects.

Nominees must be young members of the society who are less than 36 years of age on 31 December of the year of the quadrennial conference.

A maximum of three awards will be made every four years. The prize is worth £1,000.

Closing date: 01 Jul 16
Deadline information: This call is repeated every 4 years.

**EXTENDED DEADLINE: EDCTP FORUM SCHOLARSHIPS**

*European and Developing Countries Clinical Trials Partnership*

**Description:**
*** The European and Developing Countries Clinical Trials Partnership has extended the closing date for its forum scholarships. The previous deadline of 24 June has been now extended to 4 July 2016. All other call information remains unchanged. ***

These scholarships aim to facilitate participation of those who might not otherwise be able to attend the eighth EDCTP forum taking place from 6 to 9 November 2016 in Lusaka, Zambia.

Scholarships are open to a limited number of early-career investigators and scientists actively working in the field of EDCTP. Applications for scholarships must be submitted in parallel with the abstract submission; presenting authors of oral or poster presentations may apply. Priority will be given to applicants who have few alternative sources of funding, applicants who have not previously received an EDCTP scholarship to attend the forum, as well as EDCTP grantees who have new results to present.

Scholarships cover registration to the forum, economy travel, visas and accommodation costs.

**Closing date:** 04 Jul 16

RESEARCH GRANTS
French Muscular Dystrophy Association – Association Française Contre les Myopathies

Description:
The French Muscular Dystrophy Association invites applications for its research grants. These aim to increase the understanding of the neuromuscular system including the development of therapies for neuromuscular diseases and rare genetic diseases and improve quality of life for patients with neuromuscular diseases. Grants support innovative research in the following areas:

- fundamental research and physiopathology of diseases of the neuromuscular system;
- development of therapeutic approaches for rare diseases;
- clinical and care management.

Special attention will be given to big data analysis on omics for neuromuscular diseases.

Three grant types are available: trampoline grants, worth up to €50,000 over one year, for early career investigators; research projects, worth on average €40,000 per year for up to three years, for researchers or clinical investigators with a permanent position in an academic, governmental or private institution; postdoctoral fellowships, worth between €25,500 and €39,828 over one year, for applicants enrolled in a postdoctoral training.

Closing date: 05 Jul 16

Research Fellowships in Humanities and Social Science
Wellcome Trust

Description:
The Wellcome Trust invites applications for its research fellowships in society and ethics. These enable humanities and social science scholars who are not yet established in academic posts to undertake a period of postdoctoral research in any area of human and animal health. Applicants must be have been awarded their PhD but who are not in a tenured or otherwise long-term established post. Fellowships must be held at an institution in the UK, Republic of Ireland or a low- or middle-income country. Each applicant must have a sponsor who is an established member of the department in which the award is to be held.

Fellowships provide research expenses, appropriate employers’ contributions and a salary, tenable for up to three years.

Closing date: 06 Jul 16
Deadline information: Preliminary applications due by 6 July; full applications due by 20 September 2016. This call is repeated 2 times a year.

Research Fellowships
Alzheimer’s Research UK

Description:
Alzheimer’s Research UK invites applications for its research fellowships. These support PhD qualified non-clinical investigators pursuing research on Alzheimer’s disease and related dementias.
Applicants should either be emerging from PhD training or within five years of obtaining a PhD. Prospective fellows and lead supervisors must be based in a UK academic or research institution, however the application may include researchers or institutions outside the UK. Fellows are required to have secured a supervisor who is a senior established investigator in the institution where the fellowship is to be held. Supervisors are expected to hold tenure or tenure-track appointments.

Fellowships are worth up to £20,000 per year for up to three years and support the costs of salary, research and travel.

Closing date: 06 Jul 16
Posted date: 26 Aug 15

**Senior Research Fellowship**
*Alzheimer's Research UK*

**Description:**
Alzheimer's Research UK invites applications for its senior research fellowship. This supports researchers who have the potential to become leading principal investigators within the field of Alzheimer’s disease and related dementias, but have not yet attained a tenure or tenure-track position.

Applicants must have obtained their terminal degree within the last three to 10 years. They must be based in a UK academic or research institution, however the application may include researchers or institutions outside the UK.

Prospective fellows are required to have secured the sponsorship of a senior established investigator in the institution where the fellowship is to be held. Sponsors are expected to hold tenure or tenure-track appointments.

The fellowship is worth up to £420,000 to cover salary, support staff and running costs, and is tenable for up to four years with the possibility of a one-year extension.

RESEARCH AWARDS FOR HEALTH PROFESSIONALS
Wellcome Trust

Description:
The Wellcome Trust invites applications for its research fellowships for health professionals. This scheme is intended for practising health professionals who wish to carry out research in any area within the remit of human and animal health either full time or part time, while maintaining their work commitments. This scheme can be used to enrol for a PhD for those who have little or no humanities or social science experience. It can also be used to undertake postdoctoral research.

Research fellowships must be held at a UK, Irish, or low- or middle-income country institution. Candidates should have completed general professional training and will still be working in their professional capacity at the preliminary application deadline. Candidates should be sponsored by someone, typically in a senior position, who has a contract of employment with an academic institution or, in the case of an NHS employee, an honorary academic appointment. The sponsor must also have tenure beyond the duration of the fellowship, and be in a position to guarantee space and facilities.

Fellowships are tenable for up to three years and are usually worth up to £250,000. They provide fellows with a salary plus employer contributions, essential research expenses and travel to conferences, seminars and other scholarly meetings. If enrolling for a PhD, a clinical salary will be provided, together with PhD registration fees, research expenses and a contribution to travel and general training costs.

Closing date: 06 Jul 16
Deadline information: Preliminary applications due by 6 July; full applications due by 20 September 2016. This call is repeated 2 times a year.

Industry Fellowships
Science Foundation Ireland

Description:
Science Foundation Ireland invites applications for its industry fellowships. These fund collaborative industry-academia research projects through the temporary movement of Irish academic researchers who wish to spend time in industry worldwide, and industry researchers anywhere in the world who wish to spend time at an academic institution in Ireland.

Academic applicants must be a member of an eligible Irish research body with a contract covering the period of the fellowship, hold a PhD or equivalent, and must be currently funded under a competitively awarded, internationally peer reviewed research grant. Industry applicants must have significant experience and knowledge of industry processes, including operational and business procedures, and a proven record of leadership and accomplishments appropriate to international standards of their field, industry sector and career stage.

Fellowships are worth a maximum of €100,000 for a period of up to 12 months full time, or 24 months part time.

REF RESEARCH DEVELOPMENT FELLOWSHIPS
Medical Research Foundation

Description:
The Medical Research Foundation, under the Africa Research Excellence Fund, invites applications for its research development fellowships. These enable early-career African researchers to undertake a placement in a leading research organisation in order to develop their skills and ideas, grow research relationships through collaboration and work towards a major funding proposal. Fellowships support research into infectious diseases and non-communicable diseases that are significant, or identified as neglected, in sub-Saharan Africa. Applications must address one of the following priority research methodologies and technologies applied to human health research problems:

- advanced medical statistics;
- medical bioinformatics;
- biomedical computational modelling;
- molecular biology and omics technologies for health;
- other advanced, laboratory-based biomedical sciences;
- quantitative and qualitative social sciences for health economics;
- one health with clear potential to advance human health.

Applicants must be a national of a country in sub-Saharan Africa, excluding South Africa, and have obtained a PhD within the last four years if they are non-clinicians. They should be working in an active research role and have guaranteed employment with a legally established research organisation or university in sub-Saharan Africa. Clinically-active applicants must have a relevant master’s degree and up to three years active research experience. Host organisations must be academic institutions, research-oriented
industries or policy-making organisations based in South Africa, the UK or continental Europe. Employing organisations must be a sub-Saharan non-profit organisation, excluding South Africa, and be a legal entity.

Fellowships are worth up to £43,000 each over a period of three to nine months.

Closing date: 06 Jul 16
Deadline information: Applications due by 4pm GMT.

**AFRICA THESIS AWARD**

*African Studies Centre*

**Description:**

The African Studies Centre invites nominations for its Africa thesis award. This aims to encourage student research and writing on Africa and to promote the study of African cultures and societies, by recognising a master’s thesis in the field. Any thesis thematically related to socio-geographical, economic, political, juridical or anthropological issues or focusing on the humanities such as history, religion and literature, but with the exception of language and semiotic studies, may be submitted. The geographical focus of the research should be the continent of Africa or its migrant communities elsewhere in the world. The thesis must be socially relevant.

Any final-year student who has completed a master’s thesis with distinction, 80 per cent or higher or a Dutch rating of at least an 8, at a
university in Africa or the Netherlands may apply. The thesis must have been written within the twelve months prior to the deadline for submitting manuscripts and may be submitted if it is written in English, French or Dutch. If the thesis is in Dutch, a five-page English or French summary must also be attached.

The award is worth €500 and the winning thesis will be published in the ASCL’s African studies collection.

Closing date: 10 Jul 16
Deadline information: Submissions due by 12 midnight. This call is repeated once a year.

RESEARCH GRANTS
International Education Association of Australia

Description:
The International Education Association of Australia, under the Tony Adams Fund, invites applications for its research grants. These are awarded to academic or administrative staff working in international education to pursue professional development, research or doctoral studies.

Grants are open to individuals from Australia and overseas in the following categories:

- professional development – available to academic, professional or administrative staff working in the field of international education who wish to pursue further professional development in internationalisation of education;
- research in international education – available to those undertaking research projects in internationalisation of education;
- doctoral studies in international education – available to those undertaking doctoral studies in internationalisation of education.

Only new proposed activities are considered. Applicants who have commenced or completed professional development or research are ineligible.

Up to two grants, worth AU$2,000 each, are available for professional development, one grant, worth AU$3,000, is available for a one-off research project and one grant, worth...
AU$1,500 per year for up to three years, is available for doctoral studies.

Closing date: 10 Jul 16

**African Advanced School on Neuropsychiatric Genomics**

*International Brain Research Organization*

**Description:**

The International Brain Organisation, with the support of the Stanley Center for Psychiatric Research and the Allen Institute for Brain Science, invites applications for the African advanced school on neuropsychiatric genomics. This enables students and researchers based in Africa to attend a two-week training on neuropsychiatric disorders, organised between 1 and 14 December 2016 in Cape Town, South Africa. Training includes lectures and practical sessions on the ethics, projects design, logistical considerations and statistical analysis of large scale genomic studies of neuropsychiatric disorders.

PhD students, postdoctoral fellows, registrars and junior faculty members engaged in clinical or basic research on neuropsychiatric genomics may apply. They must be currently residing in Africa.

Funding covers accommodation and meals. Assistance for travel costs may be provided by request.

**Closing date: 10 Jul 16**

Description:
The William Harvey Research Institute at Queen Mary, University of London invites proposals for its fellowships under the William Harvey International Translational Research Academy programme. This is supports international mobility and career development of researchers in healthcare and life sciences by funding multidisciplinary projects abroad. The research can consider one or several of the following research areas:

- molecular and structural biology and biochemistry;
- physiology and pathophysiology, including cardiovascular diseases and endocrinology;
- genetics, genomics, bioinformatics and systems biology;
- cellular and developmental biology;
- neurosciences and neural disorders;
- immunity and infection;
- diagnostic tools, therapies and public health.

Two types of fellowships are offered this round, incoming for non-residents of the host country and reintegration for only EU member state or associated country nationals who have carried out research in a third country at least three years.

Applicants must have a doctoral degree or a university diploma qualifying them for PhD studies and at least four years of research experience in remunerated postgraduate research activities. They must not have resided or carried out their main activity in the chosen host country for more than 12 months in the three years prior to the proposal submission.

Fellowships are worth €37,250 each per fellow-year over 12 to 24 months, covering up to 40 per cent of the annual fellowship costs. They consist of living allowance, mobility allowance and contribution to the research costs.

WILLIAM HARVEY INTERNATIONAL TRANSLATIONAL RESEARCH ACADEMY FELLOWSHIPS
University of London
POSTDOCTORAL FELLOWSHIP GRANTS FOR BASIC AND TRANSLATIONAL RESEARCH
Susan G Komen for the Cure

Description:
Susan G Komen for the Cure invites pre-applications for its postdoctoral fellowship grants for basic and translational research. These support hypothesis-driven research projects in the field of breast cancer that are laboratory- or field-based. The aim is to advance the understanding of breast cancer and lead to reductions in breast cancer incidence or mortality. Clinical research is not supported, however clinical trial samples may be included, provided the applicant does not have direct patient interaction.

Applicants must be fellows holding a doctoral degree and be without a faculty appointment. They must be no more than three years post-completion of their most recent clinical fellowship, four years post-completion of their most recent medical residency or four years post-completion the their most recent PhD. A lead mentor who holds a full-time faculty appointment with a non-profit institution or organisation anywhere in the world must be identified. The research must be conducted at the lead mentor’s institution. There are no citizenship requirements.

Each grant is worth up to US$60,000 per year for a duration of two to three years. Funding may be used to cover salary, equipment costs, travel costs, publication costs, meeting-related poster printing costs, and reasonable coursework and training expenses. Indirect costs are not covered.

Closing date: 14 Jul 16
Deadline information: Pre-applications due by 1pm EST.

Description:
Susan G Komen for the Cure invites pre-applications for its graduate training in disparities research grants. These aim to establish or sustain a training programme for graduate students who are seeking careers dedicated to understanding and eliminating disparities in breast cancer outcomes across population groups. The programme should empower the students with the skills and knowledge necessary to effectively explore the causes of differential breast cancer outcomes and interventions to reduce and eliminate such disparities.

The principal applicant must have a doctoral degree and a full-time faculty appointment with an accredited non-profit institution or organisation. A minimum of three trainees, each of which must be enrolled in a master’s or doctoral degree programme, must be identified for the grant. Trainees from populations affected by disparities in breast cancer outcomes are strongly preferred. There are no citizenship requirements.

Each grant is worth up to US$135,000 per year for up to three years. Funding may be used to cover direct costs only.

African Advanced School on Neuroimaging - Understanding the Brain in Time and Space
International Brain Research Organization

Description:
The International Brain Organisation, with the support of the University of Cape Town and the Neuroelectrics Barcelona, invites applications for the African advanced school on neuroimaging - understanding the brain in time and space. This enables senior PhD students and researchers based in Africa to attend training on the use of additional neuroimaging techniques, organised between 1 and 15 December 2016 in Cape Town, South Africa. The intensive training includes lectures, demonstration and practical experiments on techniques such as fMRI, DTI, TMS, TES and EEG in researching fields such as crown cognition, face perception, substance abuse, psychiatric disorders, paediatric neurology and HIV.

Senior PhD students, postdoctoral fellows, registrars and junior faculty members engaged in clinical or basic research on cognition and neuroimaging may apply. They must be currently residing in Africa. Students from different parts of Africa are encouraged to participate.

Funding covers accommodation and meals. Assistance for travel costs may be provided by request.

The Smithsonian Tropical Research Institute invites applications for its short-term fellowships. These enable graduate students to carry out short-term research projects in the topic areas of the STRI research under the supervision of staff scientists. Smaller projects that are part of a larger thesis or dissertation are encouraged and exceptional exploratory projects or pilot studies with well-defined goals and methods may also be considered.

Eligible candidates are graduate students. Occasionally awards are made to undergraduate students.

Fellowships provide a stipend to cover living expenses, worth US$800 per month, a research allowance worth up to US$2,000 and round-trip coach airfare. Projects have a maximum duration of three months.

**BERND TERSTEEGEN AWARD**

Verband Deutsche Nierenzentren – Association of German Nephrology Centres

**Description:**
The Association of German Nephrology Centres invites nominations for the Bernd Tersteegen award. This recognises basic and clinical research related to chronic renal insufficiency and to advances in treatment of end-stage renal disease.

Physicians, researchers and engineers who are involved in research in the area of renal failure and renal replacement therapy may apply. Research papers may be unpublished or have been published in 2015 or 2016. They should be written in German or English. Review articles, dissertations, university habilitation works and manuscripts already entered in other competitions may not be submitted.

The award is worth €8,000.

**Closing date:** 15 Jul 16  
**Deadline information:** This call is repeated once a year.

**OTRAUMA FELLOWSHIPS FOR SURGEONS**

AO Foundation

**Description:**
The AO Foundation invites applications for its AOTrauma fellowships for surgeons. These provide fully trained orthopaedic and general surgeons with additional experience in surgical techniques. The purpose is to familiarise fellows with indications, planning, techniques and pitfalls of osteosynthesis.

Applicants must be AOTrauma members under 45 years of age, who have completed their basic principles and advanced principles courses before applying. Orthopaedic trauma should be the main part of their practice. It is recommended that they are employed by a teaching hospital.
Over 250 fellowships, lasting between four and 12 weeks, are available and include a contribution towards expenses between around CHF250 and CHF764 per week depending on the host country.

Closing date: 15 Jul 16
Deadline information: This call is repeated once a year.
Posted date: 26 Apr 16

FERRING INNOVATION GRANTS
Ferring Pharmaceuticals

Description:
Ferring Pharmaceuticals invites proposals for its innovation grants. These support exploratory, discovery and preclinical research into novel extracellular drug targets that are addressable with peptides or proteins in the fields of reproductive health, urology, gastroenterology and endocrinology. The programme funds a number of research grants in the following categories:

- exploratory grants - which support feasibility studies that will confirm the target’s role in the proposed indication;
- discovery grants - which support further research on targets with existing in vitro data validating its utility in the proposed indication and should provide data to support transferring the target to a drug discovery programme;
- competitive postdoctoral and graduate student fellowships in one of the Ferring Research Institute’s areas of interest.

Grants are worth between US$50,000 and US$100,000.

Closing date: 15 Jul 16
Deadline information: Pre-applications open on 13 June and are due by 15 July; full proposals due by 6 September 2016. This call is repeated once a year.

EFF SCHELL SCHOLARSHIP
Bayer

Description:
The Bayer Foundations invite applications for the Jeff Schell scholarship. This enables students and young professionals with up to two years’ work experience to attend special study courses, summer classes and conduct research projects in the field of agro sciences, agronomy, crop sciences, green biotechnology, environmental sciences or sustainability.

The scholarships might also cover the costs for individual laboratory assignments, internships and master’s or PhD programmes.

Applicants must have an academic background in agro sciences, agronomy, crop sciences, green biotechnology, environmental sciences or sustainability. Students and researchers from German-speaking countries may apply to study abroad, whereas international investigators may apply to study in Germany.

Projects should have a duration between two and 12 months.

Closing date: 18 Jul 16
Description:
The European Space Agency invites applications for the Copernicus masters competition. This supports projects and business ideas that make use of Earth observation data primarily generated under the Copernicus programme. ESA is awarding a prize to the best application idea that uses Earth observation data on mobile devices. Proposals must address one or more of the main thematic areas of the European Earth observation programme Copernicus, such as land monitoring, marine monitoring, atmospheric monitoring, climate change, and emergency management.

Enterprises, scientific institutions, and individuals of legal adult age from anywhere in the world may participate in the competition.

The winner of this challenge will be awarded a support package tailored to the winning app, which can include technical support, design support, application marketing, and other services valued at €10,000 in total. The winner will also have the chance to develop his idea further at one of the 16 ESA business incubation centres across Europe, these incubation packages are worth up to €50,000. In addition, the winner also will benefit from a substantial satellite data quota worth up to €10,000 made available with financial support by the European Commission.

The overall winner of the competition – the Copernicus master – will be selected from the winners of all challenges will receive an additional grant of €10,000.

RA HEALD FELLOWSHIP
Arthritis Australia

Description:
Arthritis Australia and the Australian Rheumatology Association invite applications for the Heald fellowship. This enables researchers to undertake a postdoctoral research programme relevant to arthritis both overseas and in Australia.

Clinical, scientific and allied health professionals who are Australian citizens or permanent residents in Australia may apply. Scholarships may only be held in universities, hospitals or recognised research institutes. Preference is given to members of the Australian Rheumatology Association or applicants working with a member of the ARA. Preference is also given for research overseas, but Australian-based research is considered. Fellowships may be held in universities, hospitals or recognised research institutes.

Fellowships are available for a period of one year with no renewals.

USH PRIZE
Lush

Description:
Lush and the Ethical Consumer Research Organisation invite nominations for the Lush prize. This rewards the most effective projects and individuals who have been working towards the goal of replacing animals in product or ingredient safety testing across in the areas of lobbying, public awareness, science, training and young research.

Projects should focus on toxicity testing for consumer products and ingredients, complementing other projects already addressing the use of animals in medical testing.

The prize is open to projects, organisations and individuals anywhere in the world.

In most years, several prizes worth £50,000 each are awarded. However, in any year where this is a major breakthrough in 21st century toxicology, a black box prize of £250,000 will be awarded to the responsible team or individual.
Digital Preservation Awards
Digital Preservation Coalition

Description:
The Digital Preservation Coalition invites nominations for its digital preservation awards. These recognise significant and innovative contributions to maintaining a digital legacy. Nominations are invited for the following awards:

- award for research and innovation, worth £1,000, recognising excellence in practical research and innovation activities;
- award for teaching and communications, worth £1,000, recognising excellence in outreach, training and advocacy;
- award for most distinguished student work in digital preservation, encouraging and recognising student work in digital preservation and includes attendance at an international conference;
- award for the most outstanding digital preservation initiative in industry, worth £1,000, recognising and encouraging the adoption of digital preservation tools and approaches in a commercial environment;
- award for safeguarding the digital legacy, worth £1,000, recognising the practical application of preservation tools to protect at-risk digital objects;
- digital preservation coalition fellowship, recognising a sustained and impactful contribution to the digital preservation community and includes honorary personal membership of the DPC.

Initiatives or projects must have been completed between 1 August 2014 and 31 July 2016. There is no restriction on public or private sector and entries are sought from all around the world. The awards are open to all and are international in scope.
GRANTS

**Manuel Rivera-Ortiz Foundation**

**Description:**
The Manuel Rivera-Ortiz Foundation invites applications for its grants. The foundation is seeking to award a grant to one social documentary photographic project produced in the journalistic tradition of Manuel Rivera-Ortiz. The project should be based on pressing social issues in the developing world. Photographers of all nationalities who are 18 years of age or older are eligible to apply. The grant is worth $5,000 to be used for the production or completion of a pre-approved project.

COMMONWEALTH SCHOLARSHIPS – NEW ZEALAND
Commonwealth Scholarship Commission in the UK

Description:
The Commonwealth Scholarship Commission in the UK, on behalf of Universities New Zealand – Te Pōkai Tara, invites applications for its commonwealth scholarships in New Zealand. These enable UK citizens to pursue doctoral study in New Zealand starting in early 2017. The following universities in are participants in this call:

- Auckland University of Technology;
- Lincoln University;
- Massey University;
- University of Auckland;
- University of Canterbury;
- University of Otago;
- University of Waikato;
- Victoria University of Wellington.

They may specify eligible subjects and supervisors at their own discretion.

UK citizens with at least an upper second class honours undergraduate degree are eligible to apply. They must have researched the research programmes of their preferred universities, have made contact with a potential doctoral supervisor and obtained some degree of support from them. An offer of a place is not mandatory.

The eight universities will fund one commonwealth scholarship each at varying values, with stipends usually between NZD23,000 and NZD27,000. Scholarships may also cover some or all of: return travel to New Zealand; visa administration costs; insurance; tuition and compulsory fees; a one-off establishment payment; baggage allowance; thesis binding costs.

CAREER DEVELOPMENT AWARDS

Juvenile Diabetes Research Foundation International

Description:
The Juvenile Diabetes Research Foundation International invites applications for its career development awards. These support qualified and promising scientists early in their faculty careers to establish themselves in the field of type 1 diabetes research. The awards may emphasise either basic or clinical topics.

Scientific collaboration with scientific members of the DDA is required. Awardees will be designated as members of the academy faculty and participate in academy projects that provide training in diabetes for young investigators.

Applications may be submitted by public or private non-profit or for-profit organisations throughout the world. Applicants must have between three and seven years between their degree, which may be an MD, PhD, DMD, DVM or equivalent, and the award application; and must hold an academic faculty-level position.

Awards support periods of up to five years and are worth up to US$150,000 per year, including indirect costs.

Closing date: 30 Jul 16

Deadline information: This call is repeated once a year.

KOREAN LANGUAGE TRAINING FELLOWSHIPS
Korea Foundation

Description:
The Korea Foundation invites applications for its Korean language training fellowship. The programme supports Korean studies researchers, academics, professionals and graduate students who wish to undertake a language immersion programme and learn Korean in a systematic manner. Eligible candidates are:

- graduate students studying Korea-related subjects for master’s or doctoral degrees;
- faculty members and researchers engaged in teaching or research activities related to Korea or Korean language;
- professionals in a cultural or artistic profession related to Korea or Korean studies.

Applicants must have a basic understanding of the Korean language. Persons already resident in Korea or planning to enrol in a degree programme at a Korean institution are not eligible to apply. The fellowships have a tenure of six months. The award includes a monthly stipend, which is ₩1 million for master’s candidates and lower and ₩1.2m for doctoral candidates and above, a settling-in allowance of ₩300,000, tuition fees and travel insurance.

Closing date: 31 Jul 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

Description:
The Alexander von Humboldt Foundation invites applications for the Sofja Kovalevskaja award. This enables young researchers from abroad to establish their own research groups at research institutions in Germany.

Researchers from all countries and disciplines who have completed their doctorates with distinction no more than six years ago may apply. Applicants must not have been living in Germany for more than 12 months in total in the 18-month period prior to the closing date for applications. German citizens may only apply, if they have been resident outside of Germany for more than 10 years, or for more than five years, but their strong connections to their current country of residence is proven by being either tenured or being in possession of a permanent residence or they or their partner are a national of this country.

Scholars in the humanities or social sciences and physicians must have a good knowledge of German if it is necessary to carry out the project successfully; scientists and engineers must have a good knowledge of German or English.

The award is worth up to €1.65 million for a period of five years and may be used to cover all expenses relevant to their projects including living costs of the applicant. Up to six awards are available.

YOUNG INVESTIGATOR AWARD
National Ataxia Foundation

Description:
The National Ataxia Foundation invites applications for its young investigator award. The purpose of this grant is to encourage young clinical and scientific investigators to pursue a career in the field of ataxia research. Each recipient will receive a one-year award of between US$35,000 and US$50,000. The award will be made to the sponsoring institution and will be used as salary support or for direct research expenses. Clinical investigators must be free to allocate a minimum of 50 per cent of their time on the project. Non-clinician investigators must allocate a minimum of 75 per cent of their time.

Candidates must have attained an MD or PhD degree, and have an appointment as a junior faculty member. Individuals at the associated professor level are not eligible. Clinicians must have finished their residency no more than five years prior to applying.

Closing date: 31 Jul 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. Deadline: letters of intent August 1; full application September 1, annually. This call is repeated once a year.

ARTICULUM FELLOWSHIP IN ARTHRITIS AND PAIN

Pfizer UK

Description:
ARTICULUM, via Pfizer UK, invites applications for its fellowship in arthritis and pain. This enables young scientists from any country to conduct research on arthritis and pain. The project will be undertaken at the facility of an ARTICULUM member.

The award is open to scientists working in rheumatology and orthopaedic centres worldwide. Applicants must have a degree in medicine and have some specialty training in rheumatology, musculoskeletal medicine, orthopaedic surgery or acute or chronic pain management. Applicants must be no more than 40 years of age.

Fellowships provide up to €30,000 per fellow, which is primarily intended for salary support, but will also cover travel costs.

Closing date: 31 Jul 16
Deadline information: This call is repeated once a year.

ÉOPOLD GRIFFUEL PRIZE
ARC Foundation for Cancer Research – Fondation ARC pour la Recherche sur le Cancer

Description:
The ARC Foundation for Cancer Research invites nominations for the Léopold Griffuel prize. This recognises researchers whose work has led to a major breakthrough in fundamental or applied research in oncology.
The award is divided into two categories of basic research and translational and clinical.

Up to six researchers may be put forward in one nomination. Each candidate must be under the age of 65 in the nomination year and they must still be involved in research. All candidates must be sponsored by at least two internationally renowned scientists.

Each prize is worth a total of €150,000 to be dedicated to further scientific research, including €25,000 remitted to the recipients during the award ceremony.

Closing date: 31 Jul 16
Deadline information:
Posted date: 06 Jun 16

MENTOR AWARDS
American Association for the Advancement of Science

Description:
The American Association for the Advancement of Science invites applications for its mentor awards. These honour individuals who during their careers demonstrate leadership to increase the participation of underrepresented groups in science and engineering fields and careers.

The awards are open to all regardless of nationality or citizenship. Two awards are available: the lifetime mentor award, for an individual who has served in the role of a mentor for 25 years or longer; and the mentor award, for an individual who has served as a mentor for less than 25 years. Both awards recognise an individual who has mentored and guided significant numbers of students from underrepresented groups to the completion of doctoral studies, or who has impacted the climate of a department, college, or institution to significantly increase the
diversity of students pursuing and completing doctoral studies.

Both awards include a monetary prize of US$5,000, and complimentary registration, reimbursement of hotel and travel expenses to attend the AAAS annual meeting.

ELMUT-SCHMIDT-PROGRAMME - MASTER’S SCHOLARSHIPS FOR PUBLIC POLICY AND GOOD GOVERNANCE
Deutscher Akademischer Austauschdienst – German Academic Exchange Service

Description:
The German Academic Exchange Service (DAAD) invites applications for the Helmut-Schmidt-programme – master’s scholarships for public policy and good governance. These enable graduates from selected countries in Africa, Latin America, South Asia, South-east Asia and the Middle East to obtain a master’s degree in a good governance-related subject in Germany. The following master’s courses can be undertaken at selected universities:

- master of public policy at Hertie School of Governance, Berlin;
- master of development and governance at University Duisburg-Essen;
- master of public policy at Willy Brandt School of Public Policy at University Erfurt;
- public economics, law and politics at Leuphania University Lüneburg;
- management in non-profit organisations at Hochschule Osnabrück;
- master of democratic governance and civil society at the University of Osnabrück;
- master of governance and public policy at University Passau;
- master of public management at University Potsdam.

Additionally scholarship holders will be placed on German courses for normally six months at selected institutes in Germany before taking up their master’s studies.
Each applicant must hold a good first degree obtained no more than six years prior to applying. The proposed master’s degree must have special relevance for the social, political and economic development of their home country. Applicants may not have lived in Germany for more than 15 months.

The scholarship is worth €750 per month. It also includes contributions to health insurance, travel allowance, study and research costs, rent subsidies and family allowances where applicable. Scholarship holders are exempt from tuition fees.

Closing date: 31 Jul 16
Deadline information: Applications are invited between 1 June and 31 July 2016. This call is repeated once a year.

CID CLINICAL RESEARCH FELLOWSHIP PROGRAMME FOR SURGEONS – CRANIOMAXILLOFACIAL TRAUMA

AO Foundation

Description:
The AO Foundation invites applications for the CID clinical research fellowship programme for surgeons – craniomaxillofacial trauma. This enables surgeons to gain training and experience in all phases of clinical research, including study planning, monitoring, data analysis and publication, by spending three months at the foundation’s Clinical Investigation and Documentation branch office in Switzerland.

Applicants must meet the following criteria:

- hold a medical doctorate with minimum orthopaedic training;
- have published at least one clinical investigation;
- be willing to dedicate at least 10 per cent of their time to clinical research;
- be supported by an AOTrauma or AOCMF member at their home clinic.

Up to two fellowships are available. They cover accommodation and travel expenses to and from Switzerland, and travel costs for public transport within Zurich.

Closing date: 31 Jul 16
Deadline information:
Posted date: 11 Apr 16
Award type: Early-Career fellowships, Mid-Career fellowships, Postdoctoral training fellowships, Networking/collaboration,
Senior fellowships, Personal development,
Travel for research purposes

IVES BEST PAPER AWARD FOR EARLY SCHOLARS
Swiss National Science Foundation

Description:
The Swiss National Science Foundation, through the Swiss National Centre of Competence in Research LIVES, invites applications for its best paper award for early scholars. This recognises the best paper in the areas of vulnerability and life course studies written by scholars at the beginning of their career. The award will be delivered during the Society for Longitudinal and Life Course Studies conference from 5 to 8 October 2016 in Bamberg, Germany.

Applicants have to be the main contributor of the paper and have received their PhD after 1 January 2009. The paper must have been published in English in a peer-reviewed journal in the year 2015, be empirical, and make an important contribution to the field and preferably be longitudinal and interdisciplinary.

The award includes €2,000, travel expenses, as well as conference and hotel fees for up to three nights to attend the conference.

Closing date: 31 Jul 16
Deadline information:

FRANCIS M PIPKIN AWARD
American Physical Society

Description:
The American Physical Society invites nominations for the Francis M Pipkin award. The purpose of this award is to honour exceptional research accomplishments by a young scientist in the interdisciplinary area of precision measurement and fundamental constants and to encourage the wide dissemination of the results of that research. The award is given biennially every odd-number year and consists of US$2,000 plus support of travel expenses to the APS meeting at which the award is conferred.

Scientists who have held the PhD degree for not more than 15 years prior to the nomination deadline are eligible for the award. The award recipient will be selected on the basis of outstanding work in the area of precision measurement and fundamental constants, as represented by his or her publications and three nominating letters. Any APS member, not a member of the award selection committee, may submit a nomination.

Closing date: 01 Aug 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated every 2 years.

**REACTOR TECHNOLOGY AWARD**
American Nuclear Society

**Description:**
The American Nuclear Society invites nominations for its reactor technology award. This recognizes original contributions in the areas of design and safety in reactor technology.

The candidate should be the author of one or more peer-reviewed original technical papers or patents contributing to the advancement of reactor technologies. Any member of the ANS can nominate a candidate, who does not have to be an ANS member.

The award is worth US$2,000.

**Closing date: 01 Aug 16**
**Deadline information: This call is repeated once a year.**

**ELECTRONICS AND PHOTONICS DIVISION AWARD**
Electrochemical Society

**Description:**
The Electrochemical Society invites nominations for the electronics and photonics division award. The purpose of the award is to encourage excellence in electronics research and outstanding technical contribution to the field of electronics science. For the purpose of this award, electronics science is defined as that area of knowledge which encompasses the physics, chemistry and metallurgy of electronic materials and devices. Nominees must be currently active members of the society.

The award is worth US$1,500. In addition, a maximum of US$1,000 may be granted for expenses incurred to receive the award or the payment of life membership in the society.

**Closing date: 01 Aug 16 (Forecast)**
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

FULBRIGHT NEW ZEALAND GENERAL GRADUATE AWARDS
Fulbright New Zealand

Description:
Fulbright New Zealand invites applications for the Fulbright general graduate awards. These support New Zealand graduate students to undertake one-year study or research in the US. Applications are welcomed from graduate students in any field of study not covered by other Fulbright graduate awards. Candidates may not pursue study or research activities that involve direct clinical patient contact. Medical students may receive awards for advanced academic study, but not for internships or residencies.

Applicants must be New Zealand citizens and must not be citizens of or currently living in the US. They must have at least a four-year degree at tertiary level, but not yet hold a doctoral degree, and they must plan to undertake full-time postgraduate study or research for at least six months.

Awards include participation in a pre-departure programme, return airfare, health and accident insurance, and a one-off payment worth US$31,000, reduced to US$21,000 for visits of less than nine months’ duration. Approximately eight awards, worth up to US$33,000 each for visits between six and 12 months, are available.

Closing date: 01 Aug 16
Deadline information: If the application deadline falls on a weekend or public holiday, the deadline is extended to 5pm on the next business day. This call is repeated once a year.

Posted date: 26 Apr 16
Award type: Financial aid for postgraduate students, Travel for research purposes, Personal development
Award amount max: $33,000
Award budget total: -
Research Associateship Programs: FAA/CIVIL AEROSPACE MEDICAL INSTITUTE
National Research Council

Description:
The National Research Council invites applications for its research associateship programs at the FAA/Civil Aerospace Medical Institute. The objectives of the programs are to provide postdoctoral scientists and engineers of unusual promise and ability with opportunities for research on problems, largely of their own choice, that are compatible with the interests of the sponsoring laboratories.

Awardees must hold a PhD, ScD, or other earned research doctoral degree recognized in US academic circles as equivalent to a PhD. Postdoctoral associates must have held the doctorate for under five years. Senior associates must have held the doctorate for five years or more or have equivalent research experience. Tenure ranges from three months to one year.

Opportunities are open to all US citizens and to citizens of other countries who have full command of the English language. The current annual stipend for a postdoctoral research associate is $42,000 plus a travel allotment of $2,000.

Closing date: 01 Aug 16
Deadline information: Deadlines on: 1 August 2016, 1 November 2016, 1 February 2017, 1 May 2017, and repeated annually.

DIELECTRIC SCIENCE AND TECHNOLOGY DIVISION THOMAS D CALLINAN AWARD
Electrochemical Society

Description:
The Electrochemical Society invites nominations for the Thomas D Callinan award of the dielectric science and technology division. The purpose of this award is to promote interest and activity in the field of dielectric science and technology among scientists in their early careers. The granting of the award is based upon some outstanding achievement in dielectric science and technology. The award will be given to the author of a paper, or patent, reporting this new advance in dielectrics. For the purpose of the award, dielectric science and technology is defined as that area of knowledge which deals with the physics and chemistry of dielectric materials, as well as the mechanisms and operation of devices in which electrical energy can be stored or insulated in electrical or electronic equipment. The award consists of a scroll and a prize of US$1,500.

Closing date: 01 Aug 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated every 2 years.

PILEPSY RESEARCH RECOGNITION AWARDS
International League Against Epilepsy

Description:
The American Epilepsy Society invites nominations for its epilepsy research recognition awards. The aim is to encourage and reward clinical and basic science investigators whose research contributes importantly to understanding and conquering epilepsy. These awards will be made to active scientists and clinicians. The programme is open to investigators working in all aspects of epilepsy.
Any individual holding a professional degree and whose research impacts on any aspect of epilepsy is eligible. There is no geographic restriction. Nominations of women and members of minority groups are especially encouraged. Preference is given to AES members. Two awards, worth US$10,000 each, are available.

Closing date: 01 Aug 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

EVALUE ASSOCIATESHIP PROGRAMS: NATIONAL INSTITUTES OF HEALTH/NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY JOINT POSTDOCTORAL PROGRAM
National Research Council

Description:
The National Research Council invites applications for the joint postdoctoral program for the National Institutes of Health and the National Institute of Standards and Technology. The goal is to cultivate a scientific work force competent in both the biological and the physical sciences. The research opportunities will emphasize interdisciplinary research at the interface of the biological and physical sciences including: structural and computational biology, medical and bioinformatics, genomics and proteomics, tissue engineering, single molecule detection, nanotechnology, and imaging techniques.

PhD recipients within five years of the doctorate at the time of application are eligible to apply. The program is open to all nationalities.

The award offers an annual stipend of $55,000 for a period of two years and includes relocation expenses, health insurance coverage, and limited professional travel.

Closing date: 01 Aug 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

RAINING FELLOWSHIPS
European Society for Paediatric Infectious Diseases

Description:
The European Society for Paediatric Infectious Diseases invites applications for its training fellowships. These fund visits by ESPID members to other centres to obtain experience or training in techniques or areas not otherwise available to them. Clear and specific training objectives, which could involve clinical, laboratory, public health or other academic areas, are essential.

The applicant must be a trainee paediatrician or in medical, allied health professional or scientific training in a clinical or academic centre involved in paediatrics or child health under the age of 40. Applications from those in career posts may also be funded if there is a clear case that the relevant experience to be gained is of strategic importance and not available locally. The host must be in a different country from the applicant’s home country, and provide written confirmation in advance that they can provide the type of training being specifically requested. Both applicants and host staff must be ESPID members.

The awards will cover round-trip travel costs and a maximum of €412 per week towards subsistence while away. The host centre is offered fixed funding towards its costs; €82 for administration expenses, plus a maximum of €185 per week to cover infrastructure costs. Visits are usually for around one to two months, and the maximum is ten weeks.

Closing date: 01 Aug 16
Deadline information: Deadlines on: 1 August 2016, 1 November 2016, 1 February 2017, 1 May 2017, and repeated annually.

Doctoral Scholarships

Leibniz-Institut für Europäische Geschichte – Leibniz Institute of European History

Description:

The Leibniz Institute of European History invites applications for its doctoral scholarships. These enable doctoral researchers to conduct research into the religious, political, social or cultural history of Europe between about 1450 and about 1970 at the Leibniz Institute in Mainz, Germany. Comparative, transnational and transfer-historical research projects as well as projects that deal with topics of intellectual, church or theological history are particularly welcome.

Applicants must have a master’s level degree in history, theology or any other historical subject and they should not have pursued their PhD work for more than three years when taking up the scholarship. Fellows may be of any nationality, but they must have a sufficient command of German to follow discussions at the institute.

Each scholarship is worth €1,200 per month for a period of six to 12 months. Additional family allowance may be available.

Closing date: 01 Aug 16
Deadline information: This call is repeated 2 times a year.

PROJECT SUPPORT GRANT
British Society for Neuroendocrinology

Description:
The British Society for Neuroendocrinology invites applications for its project support grants. These provide support for consumables and other research costs to enable postdoctoral scientists or students to carry out neuroendocrine research projects.

The scheme is primarily intended to support PhD studentships, although it will also provide resources for MRes. Applicants must be postdoctoral researchers within 10 years of their doctoral award, or academic or faculty staff applying on behalf of a student.

Each applicant must have been a full member of the society for at least six months. Previous recipients of funding are eligible to apply. Non-UK based members are also eligible to apply. Students must also be members of the society. A total of 12 awards, worth a maximum of £5,000 each, are available every year.

Closing date: 01 Aug 16
Deadline information: Deadlines on: 1 August 2016, 1 November 2016, 1 February 2017, 1 May 2017, and repeated annually.

JOHN MADDOX PRIZE
Sense About Science

Description:
Sense About Science, in collaboration with Nature and the Kohn Foundation, invites nominations for the John Maddox prize. This recognises an individual who has promoted sound science and evidence on a matter of public interest.

Nominations may be any kind of public activity, including writing, speaking and public engagement. The nominees should:

- communicate good science clearly, despite challenge, difficulties or adversity;
- take responsibility in a public debate, going above and beyond their job requirements;
- place the evidence in the wider debate and engage others effectively.

Researchers in any area of science or engineering, or those working to address misleading information and bring evidence to light, may be nominated. Nominees may be based anywhere in the world. Nominators should normally be individuals who are familiar with the candidate’s work and they must seek permission from the candidate for the nomination. Self-nominations may be considered in exceptional circumstances. Priority is given to active researchers who have yet to receive recognition for their public-interest work.

The prize is worth £2,000.

Closing date: 01 Aug 16
Deadline information: This call is repeated once a year.

ORDIC PRIZE IN BASIC AND CLINICAL PHARMACOLOGY AND TOXICOLOGY
Basic and Clinical Pharmacology and Toxicology Journal

Description:
The Basic and Clinical Pharmacology and Toxicology Journal invites nominations for its Nordic prize in basic and clinical pharmacology and toxicology. This is awarded to a scientist in honour of a lifelong effort to develop and promote clinical
pharmacology or toxicology in a Nordic country as well as internationally. The prize can also be awarded for a single major discovery.

Active researchers who have carried out basic or clinical research at a high international level at a public or private research institution in a Nordic country are eligible. The candidate may have been born or have received their undergraduate training outside the Nordic countries. Nominations may be submitted by members of the Danish Society for Pharmacology; the Norwegian Society of Pharmacology and Toxicology; the Norwegian Society of Clinical Pharmacology; the Swedish Society for Pharmacology, Clinical Pharmacology and Therapeutics; the Swedish Society for Toxicology; the Finnish Pharmacological Society; the Finnish Society for Clinical Pharmacology and Therapeutics; the Finnish Toxicological Society and the Icelandic Pharmacological Society.

The prize is worth €10,000.

SCIENCE/SCIILIFELAB PRIZE FOR YOUNG SCIENTISTS
American Association for the Advancement of Science

Description:
The American Association for the Advancement of Science and SciLifeLab invite applications for the Science/SciLifeLab prize for young scientists. This recognises a young scientist for life science research.

Eligible entrants must have been awarded their PhD between 1 January two years previously and 31 December in the year prior to the deadline. The topic of their thesis research must be in one of the following categories:

- cell and molecular biology;
- genomics and proteomics;
- ecology and environment;
- translational medicine.

The prize only recognises work that was performed while the applicant was a graduate student.

The grand prize winner receives US$30,000 and their winning essay is published in Science magazine. Each of the category winners receives US$10,000 and their essays are published online.

Closing date: 01 Aug 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

1200 New York Avenue NW
Washington DC 20005
Email: scilifelabprize@aas.org
Description:
The Science for Life Laboratory, the Science magazine and the American Association for the Advancement of Science invite entries for their prize for young scientists. This recognises the best research thesis related to life science for which the candidate was awarded a doctoral degree. Research must relate to one of the following subjects:

- cell and development biology, including cellular and molecular processes at levels ranging from single molecule to single cell tissue and organ systems;
- genomics and proteomics, with a focus on analyses of gene- and protein-related events, at the scale of gene or protein networks to the complete set of genes or proteins in an organism;
- ecology and environment, including interactions between organisms and their environment, and how these processes are influenced by human activity;
- translational medicine, including in vitro or animal model studies of biological processes to develop potential therapies or medical procedures.

Eligible entrants are young scientists who received a PhD between 1 January 2013 and 31 December 2014. The work must have been conducted while the applicant was a graduate student.

A total of five prizes are available. Category prizes are worth up to US$10,000 each, and the grand prize is worth US$30,000. Winning essays may be published in the Science magazine and online.

Closing date: 01 Aug 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.
Posted date: 18 Mar 15

**Research Grants**

European Hematology Association

**Description:**
The European Hematology Association invites applications for its research grants. These support any aspect of the study of haematology in its broadest sense, including molecular biology and biochemistry, virology, immunology, cell biology, epidemiology and diagnostic and therapeutic strategies. The following awards are available:

- **Clinical fellowships** – applicants must be medical doctors who have research experience and a medical PhD, or medical doctors who have obtained their medical degree less than 12 months prior to the application;
- **Non-clinical advanced fellowships** – applicants must be non-medical scientists within eight years of receiving their PhD, or medical doctors who have obtained their medical degree less than 12 months prior to the application;
- **Non-clinical junior fellowships** – applicants must be non-medical scientists within four years of receiving their PhD.

Applicants must be members or guests of the society at the time of application. They must be based in an academic institution, either their home or host institute must be located in Europe and they may be of any nationality.

Each grant is for a two year period, and is worth €80,000 per year for clinical fellowships and non-clinical advanced fellowships or €50,000 per year for non-clinical junior fellowships. Grants cover salary and other expenses directly necessary for pursuit of the research project such as consumables, travel, and equipment.

**Closing date:** 01 Aug 16
**Deadline information:** This call is repeated once a year.
**Posted date:** 14 Apr 16
**Award type:** Travel for research purposes, Postdoctoral training fellowships, Early-Career fellowships, Directed grants for individual investigators, Clinical trials, Equipment and materials
**Award amount max:** €160,000
**Award amount min:** €50,000
**Award budget total:**

GEORGE WATT PRIZE
Abraham Lincoln Brigade Archives

Description:
The Abraham Lincoln Brigade Archives invites applications for the George Watt prize. This recognises an essay or thesis chapter on any aspect of the Spanish Civil War, the global political or cultural struggles against fascism in 1920s and 1930s, or the lifetime histories and contributions of the Americans who fought in support of the Spanish Republic from 1936 to 1938.

Applications are open to undergraduate or graduate students from any country. Submissions must be between 3,500 and 7,500 words, produced to fulfil an undergraduate or graduate course or degree requirement, and may be written in Spanish or English.

Two prizes, worth US$250 each, will be awarded.

Closing date: 01 Aug 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

UNIOR SHORT TERM COLLABORATION AWARD
European Hematology Association

Description:
The European Hematology Association invites applications for its junior short term collaboration award as a part of EHA’s career development programme. This supports the career development of young scientists who are involved in basic or clinical haematology research. The aim of the programme is to facilitate the collaboration between research groups that have techniques or facilities that are unavailable in the applicant's home institute.

Fellowships are open to EHA members of any nationality. Applicants should hold an MD or PhD degree or be PhD students with at least one year of research experience. MD graduation may not be more than 12 years ago or the applicant should not have more
than 8 years of post-doc experience after PhD graduation. Applicants holding both an MD and a PhD must be within 12 years of MD graduation. Home and host institutes must be academic research or clinical haematology centres in different countries, of which at least one is located in Europe.

Awards of up to €7,500 are granted if home and host institutes are both within Europe, €10,000 in case of intercontinental visits. Visits may last up to three months.

Closing date: 01 Aug 16
Deadline information: This call is repeated once a year.

BRIAN D NOVIS JUNIOR GRANT
International Myeloma Foundation

Description:
The International Myeloma Foundation invites applications for the Brian D Novis junior grant. This supports doctors and researchers conducting research in the field of multiple myeloma and related disorders.

Candidates must have completed their postdoctoral studies or clinical fellowships no later than 1 August of the application year, and must be able to devote a minimum of 50 per cent of their time to the research project during the award year.

The award is worth US$50,000. Institutional overheads must not exceed 10 per cent of the total grant amount.

Closing date: 03 Aug 16 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

Description:
The National Multiple Sclerosis Society invites applications for its mentor-based postdoctoral fellowship programme in rehabilitation research. This supports mentor-institution combinations responsible for the recruitment, selection and training of postdoctoral fellows who are pursuing a career in rehabilitation research applied to multiple sclerosis and similar disorders.

Mentors and fellows may be of any nationality. Mentors and institutions from outside the US are requested to submit dual applications to governmental granting agencies or non-profit funding agencies in their own country.

Mentors must hold a faculty appointment at an accredited institution. Fellows may have up to three years’ previous postdoctoral training and must hold, or be candidates for, a PhD, MD or equivalent degree.

The fellowship is tenable for five years and may be used to support a given postdoctoral fellow for up to three years, with a second fellow possible for the remaining two years, and to cover salary, relocation and travel expenses, training and supervision costs.

DVOCACY FELLOWSHIPS
Aids Vaccine Advocacy Coalition

Description:
The Aids Vaccine Advocacy Coalition invites applications for its advocacy fellowships. These enable individual emerging and mid-career advocates to design and implement advocacy projects focused on biomedical HIV prevention research activities. Advocacy fellows carry out their projects while based at
host organisations that are active partners in the fellowship process.

Applicants may be community leaders or advocates with an interest in this field, or individuals with experience or education in the areas of HIV and Aids, public health, medicine, international development, women’s rights, communications or advocacy. Applicants must be based in low- and middle-income countries and they must be able to communicate in English.

Fellowships include training, full-time financial support and technical assistance to plan and implement a targeted one-year project.

Closing date: 04 Aug 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

OUTSTANDING ABSTRACT ACHIEVEMENT AWARDS
American Society of Hematology

Description:
The American Society of Hematology invites applications for the outstanding abstract achievement awards. These are intended for the abstract presenters with the highest scoring abstracts of which they are the first author in each of the following categories: medical student, graduate student, resident physician and postdoctoral fellows who hold either a medical degree or a PhD.
Each award is worth US$500, and awardees also receive travel reimbursement for coach airfare to the annual meeting and two nights’ hotel accommodation.

Closing date: 05 Aug 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect.
Applications are due by 11.59 pm (PDT).
This call is repeated once a year.

DEADLINE BROUGHT FORWARD: PHARMACOLOGY PRIZES
British Pharmacological Society
Description:
The British Pharmacological Society has brought forward the deadline for nominations for its pharmacology prizes. The previous deadline of 30 August has been brought forward to 7 August 2016. All other information remains unchanged. ***

These prizes recognise MSci students who have completed a final year experimental project in pharmacology.

Applicants’ final year modules must be at least 50 per cent in pharmacology. Intercalated medical students are not eligible. Nominations are only accepted from the department and not individuals; each university pharmacology department may nominate one student.

Prizes are worth £500 each.

Closing date: 07 Aug 16
Deadline information: This call is repeated once a year.

ONG-TERM FELLOWSHIPS

European Molecular Biology Organisation

Description:
The European Molecular Biology Organisation invites applications for its long-term fellowships. These enable postdoctoral researchers to visit laboratories throughout Europe and the world. International exchange is a key feature in the application process and all fellowships must involve movement between countries.

Applicants must have gained a doctoral degree or equivalent within the two years prior to applying, and must have at least one first-author publication accepted in press or published in an international peer-reviewed journal. Candidates may only submit one application for one project at one host laboratory in each round. Various mobility schemes are offered with specific eligibilities, depending on whether the research stay is in an EMBC member state, an associate member state or a non-member state.

Each fellowship lasts between one and two years. Funding includes a subsistence stipend with a value dependent on the host country, as well as travel up to £5,000 plus half a month’s stipend for relocation costs and child care allowances of up to €2,500 per year and child.

Closing date: 08 Aug 16
Deadline information: Applications must be started before 2pm CEST, 8 August; complete applications due by 2pm CEST, 12 August 2016. This call is repeated 2 times a year.
Posted date: 06 Jun 16

**HUGUENOT SCHOLARSHIP**
Institute of Historical Research

**Description:**
The Institute of Historical Research invites applications for the Huguenot scholarship. This is awarded to a student working towards a higher degree on a Huguenot subject, for example, any activity of the French, the Dutch, the Flemish or the Walloon Protestants from the 16th century to the present day, in any geographical area.

Applicants may be of any nationality or academic affiliation, but they must be registered for a postgraduate degree in history or a closely related subject.

The scholarship is worth £2,500.

**Closing date:** 08 Aug 16

**Deadline information:** This call is repeated once a year.

**Posted date:** 13 Jun 16

**Award type:** Financial aid for postgraduate students, Directed grants for individual investigators, Student awards

**Award amount max:** £2,500

**FELLOWSHIPS**
African Women in Agricultural Research and Development

**Description:**
The African Women in Agricultural Research and Development invites applications for its fellowships. These equip top women agricultural scientists across sub-Saharan Africa to accelerate agricultural gains by strengthening their research and leadership skills.

Applications are welcome from women agricultural scientists who are citizens of Ethiopia, Ghana, Kenya, Liberia, Malawi, Mozambique, Nigeria, Rwanda, Tanzania, Uganda or Zambia, and who have completed a bachelor’s, master’s or doctoral degree in one of the following disciplines:

- agricultural economics;
- agricultural engineering;
- agronomy;
- animal and livestock sciences;
- aquatic resources and fisheries;
- biodiversity conservation;
• crop sciences;
• ecology;
• entomology;
• extension education;
• food sciences and nutrition
• forestry and agroforestry;
• horticulture;
• molecular biology - plant or animal breeding;
• natural resources management;
• plant or animal virology;
• soil sciences;
• veterinary sciences;
• water and irrigation management.

Applicants must be resident in Africa throughout the fellowship period.

Fellowships last for two years and provide mentoring partnerships and some costs towards attending training courses across Africa. Successful candidates must be available to attend one of the three five-day AWARD mentoring orientation workshops to be held in February or March 2015 in Kenya. Up to 70 awards are available.

Closing date: 08 Aug 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

Research Dissertation Fellowship for AUD Audiologists (F32)
NIH: National Institute on Deafness and other Communication Disorders

Description:
The National Institute on Deafness and Other Communication Disorders invites applications for its research dissertation fellowship for AuD audiologists (F32). This enables scientists to undertake comprehensive and rigorous biomedical research training
and dissertation research leading to a research doctorate in the biomedical, behavioural, or clinical sciences. The overall goal of the NIH Ruth L. Kirschstein national research service award programme is to help ensure that a diverse pool of highly trained scientists is available in appropriate scientific disciplines to address the Nation’s biomedical, behavioural, and clinical research needs. NRSA fellowships support the training of pre- and postdoctoral scientists, dual-degree investigators, and senior researchers. The training plan should facilitate the fellow’s transition to the next stage of his or her career.

Eligible applicants include US and foreign for-profit or non-profit organisations and public or private institutions.

Applicants may receive up to five years of support at the pre-doctoral level and up to six years for dual degree training; three years of support at the postdoctoral level including any combination of support from institutional training grants and an individual fellowship award.

Ref: PAR-16-210.

Closing date: 08 Aug 16

**JOHN TYNDBALL AWARD**

**IEEE**

**Description:**
The IEEE and the Optical Society of America invite applications for the John Tyndall award. This award recognises an individual who has made an outstanding contribution in any area of optical-fibre technology, including optical fibres, the optical components employed in fibre systems, as well as the transmission systems employing fibres.

Contributions must have proven benefit to science, technology, or society and may be experimental or theoretical. Nominees need not be members of the sponsoring societies.

The award consists of an honorarium, a Steuben crystal sculpture and a scroll.

**Closing date: 10 Aug 16 (Forecast)**

**Deadline information:** If Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

PEZCOLLER FOUNDATION/AACR INTERNATIONAL AWARD FOR CANCER RESEARCH
Pezcoller Foundation

Description:
The American Association for Cancer Research and the Pezcoller Foundation invite nominations for their international award for cancer research. This recognises a scientist who has made a major scientific discovery in basic cancer research or has made significant contributions to translational cancer research, whose ongoing work hold promise for continued substantive contributions to progress in the field of cancer.

Nominees should be cancer researchers affiliated with institutions in academia, industry or government that are involved in cancer research, cancer medicine or cancer-related biomedical science anywhere in the world. Nominees must be active in cancer research and have a record of recent publications. Any scientist who has been affiliated with an institution involved in cancer research may make a nomination.

The award includes an unrestricted grant of €75,000 and full support for the recipient and a guest to attend the AACR annual meeting in Washington DC from 1 to 5 April 2017.

Closing date: 10 Aug 16
Deadline information: Nominations due by 4pm US ET. This call is repeated once a year.

Description:
Volkswagen AG and BASF SE invite applications for their science award in electrochemistry. This funds scientific research in electrochemistry in the areas of chemistry, physics and engineering. The focus of this contest round is on battery materials, cells, battery systems, production and operations as well as recycling. The goal is to give the impetus for a new generation of researchers and support activities such as postdoctoral fellows establishing new institutes or chairs.

Individual researchers under 40 years of age all around the world may apply. They must hold a PhD degree or show excellent research contribution from the field of chemistry, physics or engineering and be based at a university, scientific institution or corporate research laboratory. Groups are excluded from the call. Applications must be submitted in English.

The total budget for the award is worth €85,000, of which €50,000 is allocated to the winner and the rest is shared between the finalists. The winner and the finalists may use the prize money freely. Applicants may submit only one application.

Closing date: 12 Aug 16
Deadline information: Applications due by 12 midnight CET. This call is repeated once a year.

SCHOLARSHIPS
Ministry of Foreign Affairs

Description:
The Ministry of Foreign Affairs in Mexico invites applications for its international scholarships. The following opportunities are included in this call:

- visiting professors;
- high-level conferences;
- Genaro Estrada scholarship for specialists in Mexican studies;
- artist residencies;
- media residencies;
- improving the quality of Mexican secondary and higher education institutions.

International academics from countries included in the scholarship programme are eligible. Applicants cannot be living in Mexico at the time of application. All documents and forms must be in Spanish or with Spanish translations.

Closing date: 14 Aug 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. The complete application and accompanying documentation, as indicated by each programme, must be received by the Academic Exchange Office at least one month before the start date of the activity. EVIDENCE AWARDS
Royal College of Veterinary Surgeons Trust

Description:
The Royal College of Veterinary Surgeons Trust invite submissions for its evidence awards. These recognise outstanding contributions in the theory and practice of evidence-based veterinary medicine. The following awards are available:

- the dame Olga Uvarov award for best article published in veterinary evidence - the price consists of a full access-all-areas ticket to veterinary evidence today plus £200 towards travel and subsistence;
- the Graham-White award for the best knowledge summary produced by primary care practitioner published in veterinary evidence - the price consists of a full access-all-areas ticket to veterinary evidence today plus £200 towards travel and subsistence;
- the Reginald Snelling student essay competition aimed at international students currently studying a veterinary-based undergraduate degree – the prize consists of a one day ticket to veterinary evidence today 2016 on 2 November, including tickets to the evidence awards including £200 towards travel and subsistence.

Research Postdoctoral Fellowship Award
National Ataxia Foundation

Description:
The National Ataxia Foundation invites applications for its research postdoctoral fellowship award. This award will support research in the field of ataxia. Applicants should have completed at least one year of postdoctoral training, but not more than two. Awards are for one year only. Grants are worth up to US$35,000.

Closing date: 15 Aug 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. Letters of intent 15 August; full applications 15 September, annually. This call is repeated once a year.

Description:
The National Archives and Records Administration's John F Kennedy Library Foundation provides funds for a number of grants for research on any topic relating to the Kennedy period. The purpose of these grants is to help defray living, travel, and related costs incurred while doing research in the textual and non-textual holdings of the library. Scholars and students are eligible to apply. Preference is given to PhD dissertation research, research in recently opened or relatively unused collections, and the preparation of recent dissertations for publication. Grants range from $500 to $2,500 each.

Closing date: 15 Aug 16 (Forecast)

The Swedish Steel Prize

**SSAB**

**Description:**
SSAB invites nominations for the Swedish steel prize.

This is an annual international prize, worth SEK100,000, which can be awarded to any company, institution, organisation or individual for a product in which high-strength structural steel, wear plate or tool steel has contributed to an innovative design with clear benefits.

This may relate, for example, to new design features, lighter products, simplified production, longer life time, improved performance and beneficial environmental effects.

The materials used must be within the range of materials made by SSAB but need not necessarily be produced by SSAB. The prize also covers methods and tools, which simplifies the use of such steels or could contribute towards expanded use of these steels.

There are no time limits within which the product or method must be evolved or developed.

**Closing date:** 15 Aug 16 (Forecast)

**Deadline information:** !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

EXPOSITORY WRITING AWARD
Institute for Operations Research and the Management Sciences

Description:
The Institute for Operations Research and the Management Sciences invites nominations for its expository writing award. The award recognises an author whose publications in operations research and management science have set an exemplary standard of exposition. The awardee's written work, published over a period of at least 10 years, should indicate an influence and accessibility enhanced by expository excellence. The publications nominated for the award can be books or papers in any combination. Teams of authors are also eligible for nomination. The award consists of US$2,000 and a framed certificate.

Closing date: 15 Aug 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

CTP-IAEA SANDWICH TRAINING EDUCATIONAL PROGRAMME
Abdus Salam International Centre for Theoretical Physics

Description:
The Abdus Salam International Centre for Theoretical Physics, in partnership with the International Atomic Energy Agency, invites applications for its sandwich training educational programme. This programme offers fellowship opportunities to PhD students from developing IAEA countries in the fields of physics and mathematics. The programme supports research in the following fields:

- atomic and nuclear physics;
- nuclear, isotope and laser techniques applied to human health, agriculture,
biotechnology and biophotonics, water resources and environmental studies;
- synchrotron radiation and applications;
- medical radiation physics;
- condensed matter and statistical physics;
- high energy physics;
- mathematics;
- earth system physics;
- applied physics, including micro- and nanoelectronics, fluid dynamics and dense plasma source physics.

Students from developing countries who are enrolled in a PhD programme at their home university may apply. Women scientists are particularly encouraged to apply.

Fellows will spend at least three months at the host institute during the first year. Fellowships are renewable for up to two additional successive years. Fellowships include a monthly stipend of €1,400 during each stay at the host institute, as well as travel expenses and medical insurance.

Closing date: 15 Aug 16
Deadline information: Deadlines on: 15 August 2016, 15 February 2017, and repeated annually.
Posted date: 23 Oct 14
Award type: Predoctoral training fellowships, Predoctoral fellowships, Personal development, Directed grants for individual investigators

THOMAS HAMPSON FUND
American Musicological Society

Description:
The American Musicological Society invites applications for the Thomas Hampson fund. These foster editions and scholarship on classic song in all contexts, as well as new and innovative technologies for promoting and understanding classic song via interactive media and the internet.

Applicants may submit proposals at any stage of their research. Graduate students, independent scholars and faculty are all eligible.

Funding is worth up to US$1,100.

Closing date: 15 Aug 16
Deadline information: This call is repeated once a year.
Posted date: 15 Jun 16

CTP/OPEC FUND FOR INTERNATIONAL DEVELOPMENT POSTGRADUATE FELLOWSHIP
Abdus Salam International Centre for Theoretical Physics

Description:
The Abdus Salam International Centre for Theoretical Physics, in collaboration with the OPEC Fund for International Development, invites applications for the ICTP/OPEC Fund for International Development postgraduate fellowship. This enables doctoral students from developing countries to access ICTP and partner research and training facilities relevant to any field of ICTP research. These include high energy, cosmology and astroparticle physics, condensed matter and statistical physics, mathematics, Earth system physics, applied physics, quantitative life sciences and new research areas.

Fellows will carry out research and training towards their PhD within the sandwich training educational programme scheme at ICTP, mentored by co-supervisors at the host institutes in coordination with their supervisors at their home institutes. Each applicant must be a student enrolled in a PhD course at their home university in a developing country, with the exception of OPEC and OFID member countries. Priority is given to young researchers from least developed countries.

Each award includes €1,400 per month for up to six months per year over three consecutive years, as well as travel and medical insurance.

Closing date: 15 Aug 16
Deadline information: Deadlines on: 15 August 2016, 15 February 2017, and repeated annually.
Posted date: 07 Jul 15

COMMONWEALTH SCHOLARSHIPS – SINGAPORE
Commonwealth Scholarship Commission in the UK

Description:
The Commonwealth Scholarship Commission in the UK, in partnership with the National University of Singapore, invites applications for its Commonwealth scholarships – Singapore. These support PhD study at the National University of Singapore’s Graduate School of Integrative Sciences and Engineering.

Citizens of any Commonwealth country other than Singapore who have at least an upper second class honours degree or equivalent are eligible to apply.

Each award covers full tuition fees, a monthly stipend and a computer, book or conference allowance.

Closing date: 15 Aug 16

**TECHNO-COLLEGE INNOVATION AWARD**  
European Association for Cardio-Thoracic Surgery

**Description:**  
The European Association for Cardio-Thoracic Surgery invites applications for its techno-college innovation award. This recognises technological breakthroughs in all areas related to thoracic and cardiovascular research, particularly for new surgical methods or devices. Innovations can be in the form of patents, inventions, new products, ideas or services.

Surgeons, engineers, innovators, researchers and scientists in the field of thoracic and cardiovascular surgery may apply.

The award is worth €5,000.

**Closing date:** 16 Aug 16  
**Deadline information:** Applications due by 11.59pm GMT. This call is repeated once a year.  
**Posted date:** 26 Feb 16

**PHILIP BRETT AWARD**  
American Musicological Society

**Description:**  
The American Musicological Society’s LGBTQ study group invites nominations for the Philip Brett award. This honours exceptional musicological work in the field of gay, lesbian, bisexual, transgender or transsexual studies.

The work must be completed during the previous two academic years in any country and in any language. Works that will be considered for the award include a published article, book, edition, annotated translation, a paper read at a conference, teaching materials and other scholarly work. The award consists of US$500 and a certificate.

**Closing date:** 17 Aug 16  
**Deadline information:** This call is repeated once a year.

SIR HENRY DALE FELLOWSHIPS
Wellcome Trust

Description:
The Wellcome Trust and the Royal Society invite applications for the Sir Henry Dale fellowships. These enable postdoctoral scientists who wish to build their own UK-based independent research career to address an important biomedical question. Research may range from the molecules and cells vital to life and their role in the global spread of disease, to clinical and public-health research seeking to improve the quality of healthcare. It can be based in the laboratory, clinic or field, and may involve experimental or theoretical approaches.

Applicants are expected to have relevant scientific or mathematical qualifications and be no more than seven years from the date of receiving their PhD. They must be:

- a UK or EEA national;
- a non-EEA national who either has a relevant degree from a UK university, or has worked in the UK for at least a continuous three-year period;
- an exceptional biomedical scientist who does not fall within the categories above and whose recruitment to the host organisation would be advantageous to both the applicant and the organisation.

Applicants must also have an eligible sponsoring host organisation in the UK that can guarantee support and adequate space and resources for the duration of the award.

Fellowships are tenable for five years in the first instance, with the potential to apply for competitive renewal for an additional three years. Funding covers a basic salary plus an enhancement of £7,500 per year, research expenses, travel and subsistence, and overseas allowances. In addition, the funders provide an inflation and flexible funding allowance, as well as a contribution towards indirect and estate costs of £11,000 per year.

Closing date: 17 Aug 16
Deadline information: First round preliminary applications due by 5pm, 12 April; invited full applications due by 5pm, 21 June; second round preliminary applications due by 5pm, 17 August; invited full applications due by 5pm, 24 October 2016. Deadlines on: 12 April 2016, 17 August 2016.
2020-HOA-01-2015 HORIZON PRIZE FOR BETTER USE OF ANTIBIOTICS
Horizon 2020: Societal Challenges

Description:
The European Commission Horizon 2020: Societal Challenges invites applications for the Horizon prize for better use of antibiotics.

This will be awarded for a rapid test to identify, at the point of care, patients with upper respiratory tract infections that can be treated safely without antibiotics. The test should fulfil the following criteria:

- potential to reduce the use of antibiotics and magnitude of antibiotic reduction;
- provide high accuracy and safety;
- minimal or non-invasive sampling requirements;
- low cost and affordable;
- rapid – ideally the total turn-around time of the test should be less than 30 minutes;
- easy to use.

The test may be part of an approach that includes clinical parameters or algorithms but it cannot be limited to such clinical parameters or algorithms. Solutions that apply only on limited target populations are also eligible. Any legal entity or group of legal entities established in a EU member state or in a Horizon 2020 associated country may apply.

The prize is worth €1 million.

Closing date: 17 Aug 16
Deadline information: Applications due by 5pm Brussels local time.
Posted date: 26 Feb 15
Award type: Prizes
Award amount max: €1,000,000
Award budget total: -
Fellowship Programme
International Tropical Timber Organization

Description:
The International Tropical Timber Organization invites applications for its fellowship programme. This seeks to promote human resource development and to strengthen professional expertise in member countries in tropical forestry, tropical timber industries and related disciplines.

Priority areas include:

- promoting good governance and enabling policy frameworks for strengthening sustainable forest management and related trade, and enhancing SFM financing and investment;
- increasing the contribution of tropical forests to national and local economies, including through international trade;
- enhancing the conservation and sustainable use of biodiversity in tropical timber producing forests;
- reducing tropical deforestation and forest degradation and enhancing the provision of environmental services;
- improving the quality and availability of information on tropical forests, forest product markets and trade;
- building and developing human resource capacity to implement SFM and increase trade in forest goods and services from sustainably managed forests.

The fellowship programme is open to individuals who are nationals of ITTO member countries. Eligible activities include participation in conferences, short-term training courses, training internships at industries, study tours, small grants for postgraduate studies, lecture or demonstration tours, help with manuals and monographs and small grants for post graduate studies. Preference will be given to short-term activities.

Fellowship awards are worth up to US$10,000.

Closing date: 22 Aug 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated 2 times a year.
Posted date: 26 Jan 16
Award type: Financial aid for postgraduate students, Travel to conferences, meetings etc., Travel for research purposes, Directed grants for individual investigators, Equipment and materials
Award amount max: $10,000
ARGARET FOTI AWARD FOR LEADERSHIP AND EXTRAORDINARY ACHIEVEMENTS IN CANCER RESEARCH
American Association for Cancer Research

Description:
The American Association for Cancer Research invites nominations for the Margaret Foti award for leadership and extraordinary achievements in cancer research. This recognises an individual whose leadership and achievements in cancer research or in support of cancer research have made a major impact on the field. Such achievements include contributions to the acceleration of progress in cancer research, raising national or international awareness of cancer research, or other demonstrations of a sustained commitment to the conquest of cancer.

Candidacy is open to all cancer researchers who are affiliated with any organisation involved in cancer research, cancer medicine or cancer-related biomedical science anywhere in the world. Self-nominations are not accepted.

The award includes an honorarium worth US$10,000, and full support for the winner and a guest to attend the AACR annual meeting.

Closing date: 24 Aug 16
Deadline information: Nominations due by 4pm EST. This call is repeated once a year.
Posted date: 10 Jun 16
Award type: Prizes, Travel to conferences, meetings etc.
HEALTHCARE INNOVATION AWARD
GlaxoSmithKline

Description:
GlaxoSmithKline, in partnership with Save the Children, invites applications for its healthcare innovation awards. These are awarded to organisations practising innovative approaches to reduction of under-five child mortality. These approaches must have resulted in tangible improvements to under-five child survival rates, be sustainable and have the potential to be scaled-up and replicated.

Organisations from across the developing world are welcome to apply. Countries in the EU are not eligible to apply.

The total budget for this call is US$1 million.

Closing date: 25 Aug 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect.
Applications due by 11.59pm, GMT. This call is repeated once a year.

FELLOWSHIP GRANTS
European CanCer Organisation (formerly the Federation of European Cancer Societies)

Description:
The European CanCer Organisation invites applications for its fellowships grants. These enable young oncology professionals from eastern European and lower-middle income countries to participate in ECCO2017 European cancer congress to be held from 27 to 30 January 2017 in Amsterdam, the Netherlands. The congress aims to define indicators of optimal multidisciplinary cancer care and develop policy initiatives to encourage their adoption across Europe. The programme will focus on:

- ways to integrate today’s innovations into patient care, prioritise and pay for the most effective approaches and organise cancer care delivery amid increasing complexity;
- how previous innovations have worked in real life.

Oncology professionals from eastern European and lower-middle income countries who are under the age of 40 may apply.

Each fellowship include registration to the congress, accommodation and a travel grant worth €500 for eastern European candidates and up to €1,200 for candidates from lower-middle income economies. 40 grants are offered.

Closing date: 25 Aug 16
Deadline information: Abstracts due by 9pm CET, 25 August; full applications due by 30th August 2016. This call is repeated every 2 years.

PA EARLY CAREER AND SENIOR SCHOLAR HEALTH SERVICES RESEARCH AWARDS
American Psychiatric Association

Description:
The American Psychiatric Association invites nominations for its early career and senior scholar health services research awards. These awards promote health services research, support young investigators in their research efforts, and recognize significant contributions to the field.

The early career award recognizes the best nominated paper published during the past year by an early career psychiatrist, less than 40 years of age or within five years of training. This award is worth $500.

The senior scholar award recognizes singular or sustained research accomplishments by a researcher beyond early career status which have made an important contribution to the field of mental health services research. This award is worth $1000.

Nominations for both awards can be either from the individual or a colleague in the field. The proposed applicant must be an APA member.

Closing date: 26 Aug 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

QUEEN ELIZABETH PRIZE FOR ENGINEERING
Royal Academy of Engineering

Description:
The Royal Academy of Engineering invites nominations for the Queen Elizabeth prize for engineering. This recognises groundbreaking innovations in engineering that have been of global benefit to humanity. The prize celebrates engineering as a discipline and a career choice.

Nominees may individuals or teams of no more than three individuals of any nationality. Self-nominations and posthumous nominations are not accepted.

The prize is worth £1 million in addition to appropriate memorabilia to be decided by the trustees.

Closing date: 26 Aug 16
Deadline information: Nominations due by 5pm BST. This call is repeated every 2 years.

DISCOVERY AWARDS
Nesta

Description:
Nesta invites applications for its discovery awards. These aim to maximise the number and diversity of entrants to the Longitude prize, which aims to find innovative solutions to global antibiotic resistance.

Applicants must be registered as individual or team entrants on the Longitude prize website. Applications are encouraged from those who are unable to access other sources of funding, are from countries where access to seed funding is limited or unavailable, or are working on a novel idea and have reached a barrier in progressing the development of their idea.

The awards are small seed grants to help teams and individuals develop ideas for the longitudinal prize.
ANTHROPOLOGY INTERNSHIP
American Museum of Natural History

Description:
The American Museum of Natural History invites applications under its anthropology internship programme. This programme offers internships for undergraduate and graduate students interested in careers in anthropology, museums or related fields. Anthropology interns work on projects relating to the collections or to the ongoing research interests of the curatorial staff in the museum or in the field. The department's collections and research are focused on North American, Mexican/Central American, and South American archaeology and ethnology; Asian, African, and Pacific ethnology; and biological anthropology. Applicants should be enrolled in or have recently graduated from an academic institution.

Applicants must specify whether they are applying for a paid, academic credit or unpaid internship. For paid internships, monthly stipends will be awarded for up to two session’s worth of work.

Closing date: 27 Aug 16
Deadline information: Deadlines on: 27 August 2016, 1 December 2016, 1 April 2017, and repeated annually.

HARRINGTON PRIZE FOR INNOVATION IN MEDICINE
University Hospitals

Description:
The Harrington Discovery Institute at University Hospitals Case Medical Center invites nominations for the Harrington prize for innovation in medicine. The prize honours a physician-scientist for notable achievements for innovation, creativity and potential for clinical application.

Each nominee must hold an MD or equivalent degree. There are no age, citizenship or membership requirements. Self-nominations are not permitted.

The prize includes an unrestricted honorarium of US$20,000.

Closing date: 28 Aug 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

MASTER’S FELLOWSHIPS IN PUBLIC HEALTH AND TROPICAL MEDICINE
Wellcome Trust

Description:
The Wellcome Trust invites applications for its master’s fellowships in public health and tropical medicine. These strengthen scientific research capacity in low and middle-income countries by enabling junior researchers to gain research experience and training at master’s degree level. Research should be aimed at understanding and improving public health and tropical medicine of local, national and global relevance. This may include laboratory-based molecular analysis of field or clinical samples, but projects focused solely on studies in vitro or using animal models will not normally be considered. Social sciences, demography, health economics, medical statistics and vector biology are of a particular interest.

Applicants should be nationals or legal residents of a low or middle-income country and hold a first degree in a relevant subject.
They should be at an early stage of their career with limited research experience.

Fellowships normally provide up to 30 months’ support and have two stages:

- master’s training at a recognised centre of excellence in any location, generally for a period of 12 months, with support provided for a yearly stipend, travel costs and tuition fees;
- undertaking a research project at a non-profit institution in a low or middle-income country for up to 18 months, with funding available for salary, research expenses, overseas allowances and overseas costs.

Fellowships include a stipend worth £17,000 for master’s courses undertaken in London and £15,000 for master’s undertaken outside of London but in the UK. For master’s courses undertaken outside UK, the application must be discussed with the relevant institute.

Closing date: 30 Aug 16
Posted date: 11 Mar 16
Award type: Directed grants for individual investigators, Predoctoral fellowships, Financial aid for postgraduate students, Travel for research purposes, Equipment and materials, Travel to conferences, meetings etc.

The Matsumae International Foundation invites applications for its fellowships. These support research projects conducted in Japan, with preference of studies in the fields of natural science, engineering and medicine.

Applicants must be of non-Japanese nationality, hold a doctorate degree or equivalent qualifications, be under 49 years of age and have sufficient conversational ability in English or Japanese. They should not have been in Japan previously and are expected to return to their home country at the end of the fellowship.

Fellowships are intended to cover necessary living expenses and research activities in Japan. A monthly stipend of ¥220,000 will be granted, as well as travel and health insurance, a round-trip air ticket and a lump sum of ¥120,000 on arrival. Approximately 20 fellowships are available for three to six months.

FIELD RESEARCH FELLOWSHIPS
Korea Foundation

Description:
The Korea Foundation invites applications for its field research fellowships. These provide overseas Korean studies scholars and experts with the opportunity to conduct onsite field research in Korea and access resource materials. The aim is to promote overseas research in Korean studies.

The foundation invites applications from:

- doctoral candidates who have completed all academic requirements except their dissertation, receiving a monthly stipend of ₩2 million;
- lecturers or researchers with over five years of career experience, receiving a monthly stipend of ₩2.3m;
- assistant professors or an individual with doctoral degrees currently in research with 10 to 20 years of career experience, receiving ₩2.6m per month;
- full and associate professors or individuals with more than 20 years of experience, receiving ₩3m per month.

In addition, each successful applicant is entitled to a return airfare and travel insurance. Candidates may not currently reside in Korea.

Fellowships may have a duration between one month and 12 months.

WAS-DBT POSTGRADUATE FELLOWSHIP PROGRAMME

TWAS

Description:
The World Academy of Sciences and the Department of Biotechnology of the Ministry of Science and Technology in India will shortly be inviting applications for their postgraduate fellowship programme. This enables scholars from developing countries other than India to pursue research towards a PhD in biotechnology. There are two types of fellowships:

- full-time fellowships for candidates willing to register at a university in India;
- SANDWICH fellowships for PhD students registered at a university in their home country.

Nationals of a developing country other than India who are no more than 35 years of age on 31 December of the application year, may apply. Applicants should have a letter of
acceptance from the host university and must not hold a visa for temporary or permanent residency in India or any developed country. Applicants must hold a master’s or equivalent degree and be proficient in English. They also need to provide evidence of returning home after the fellowship.

Fellowships include a monthly stipend to cover living costs, subsistence and health insurance, and are tenable at key biotechnology research institutions in India for a period of up to five years.

Closing date: 31 Aug 16
Deadline information: This call is repeated once a year.

TWAS

Description:
The World Academy of Sciences and the National Centre of Excellence in Molecular Biology in Pakistan invites applications for their postgraduate fellowship programme. This enables young scientists from developing countries other than Pakistan to pursue studies leading towards a PhD degree in molecular biology and molecular genetics. Sandwich fellowships are for applicants registered for a PhD degree in their home country and full-time fellowships are for those willing to register for a PhD at CEMB.

Applicants must be 35 years of age or under on 31 December of the application year, hold a master’s degree in the natural sciences, be nationals of a developing country other than Pakistan and be able to provide evidence of proficiency in English. Applicants must be able to provide an acceptance letter from CEMB.

Fellowships are tenable for up to four years and provide a monthly stipend to cover living costs, health insurance, and one return journey. If awarded, applicants must sit a compulsory entrance examination.

Closing date: 31 Aug 16
Deadline information: This call is repeated once a year.
Posted date: 19 Apr 16
Award type: Financial aid for postgraduate students, Young investigator awards, Directed grants for individual investigators, Predoctoral fellowships, Travel for research purposes

TWAS-IACS POSTDOCTORAL FELLOWSHIP PROGRAMME
TWAS

Description:
The World Academy of Sciences and the Indian Association for the Cultivation of Science invite applications for their postdoctoral fellowship programme. This enables young scientists to pursue full-time postdoctoral research in the natural sciences at the IACS in Kolkata, India. Research should address the following fields:

- biological chemistry;
- condensed matter physics;
- inorganic chemistry;
- materials science;
- non-conventional energy;
- organic chemistry;
- physical chemistry;
- polymer science;
- spectroscopy;
- theoretical physics.

Nationals of a developing country other than India may apply. Applicants must be less than 40 years old on 31 December of the application year and hold a PhD degree in physics, chemistry or biology. They must be regularly employed in a developing country other than India and hold a research assignment there and provide an official acceptance letter from IACS.

Fellowships are tenable for six to 12 months and provide a monthly stipend to cover living costs, food and health insurance.

Closing date: 31 Aug 16
Deadline information: This call is repeated once a year.
Posted date: 19 Apr 16
Award type: Early-Career fellowships, Young investigator awards, Directed grants for individual investigators

TWAS-SN BOSE POSTDOCTORAL FELLOWSHIPS

TWAS

Description:
The World Academy of Sciences and the SN Bose National Centre for Basic Sciences in Kolkata, India, will shortly be inviting applications to their postdoctoral fellowship programme. This enables foreign scientists to pursue postdoctoral research in the physical sciences at the SN Bose National Centre for Basic Sciences.

Nationals of a developing country other than India who are no more than 45 old on 31 December of the application year, may apply. Applicants must hold a PhD in physics, mathematics or physical chemistry and must demonstrate proficiency in English. Applicants must be regularly employed and hold a research assignment in a developing country and provide an official acceptance letter from SN-Bose.

Fellowships are tenable for six to 12 months and include a monthly stipend which covers living costs such as food and health insurance. Free on-campus accommodation is provided.

POSTGRADUATE BURSARY PROGRAMME – PHD, MSC AND MENG BURSARIES
South African National Research Foundation

Description:
The South African National Research Foundation invites applications for its PhD, MSc and MEng bursaries through the square kilometre array postgraduate bursary programme. This supports students who wish to pursue postgraduate research relevant to the scientific and technical goals of the SKA and MeerKAT radio telescopes.

Applicants must be in one of the following categories:

- South African citizens and permanent residents;
- citizens of Botswana, Ghana, Kenya, Madagascar, Mauritius, Mozambique, Namibia or Zambia who wish to complete an MSc, MEng or PhD at a South African university;
- South African citizens and citizens of Botswana, Ghana, Kenya, Madagascar, Mauritius, Mozambique, Namibia or Zambia who wish to complete an MSc or PhD at a university in a SKA partner countries.

Closing date: 31 Aug 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

Arthritis Australia/Zimmer Orthopaedic Fellowships
Arthritis Australia

Description:
Arthritis Australia invites applications for the Arthritis Australia/Zimmer orthopaedic fellowships. These promote best practice treatment for arthritis patients by enabling supervisors to improve their instructional skills and enhance the international exchange of orthopaedic knowledge and skills, as well as helping institutions to achieve their own educational goals and objectives.

The fellowship programme must contain at least 50 per cent arthroplasty in the specified activity to be eligible. Preference is given to Australian and New Zealand institutions and fellows. The programme is only open to overseas institutions if supporting an Australian or New Zealand fellow. Only one fellowship application can be submitted per institution per funding year.

Fellowships are worth AU$27,500 for a six-month period or AU$55,000 for one year.

Closing date: 31 Aug 16
Deadline information: Applications due by 5pm AEST. This call is repeated 2 times a year.
Posted date: 16 Mar 16
Award type: Senior fellowships, Early-Career fellowships, Mid-Career fellowships, Directed grants for individual investigators, Postdoctoral training fellowships, Directed grants to institutions, research groups etc, Networking/collaboration, Personal development, Equipment and materials

**TWAS-ICIPE POSTDOCTORAL FELLOWSHIP PROGRAMME**

**TWAS**

**Description:**
The Academy of Sciences for the Developing World and the International Centre of Insect Physiology and Ecology in Nairobi, Kenya invite applications for the TWAS-icipe postdoctoral fellowship programme. This enables young scientists from developing countries other than Kenya to undertake postdoctoral studies in Kenya. The fellowship supports research in natural sciences in one of the following areas:

- agricultural sciences;
- structural, cell and molecular biology;
- biological systems and organisms;
- medical and health sciences including neuroscience;
- chemical sciences.

Nationals of a developing country other than Kenya, who hold a PhD in a natural sciences field, may apply. Applicants must not hold a visa for temporary or permanent residency in Kenya or any developed country. Applicants must be regularly employed and hold a research assignment in a developing country and provide an official acceptance letter from icipe. Proficiency in English is a requirement for this programme.

Fellowships are tenable for six to 12 months and include a monthly stipend which covers living costs such as accommodation, food and health insurance.

**Closing date:** 31 Aug 16

**Deadline information:** This call is repeated once a year.

INTERNATIONAL FELLOWSHIPS
Bundesministerium für Bildung und Forschung – German Federal Ministry of Education and Research

Description:
The Federal Ministry of Education and Research, in association with the International Research Center of Work and Human Lifecycle in Global History at Humboldt University, invites applications for its international fellowships for the academic year 2016-2017. These support researchers wishing to conduct a project within the area of work and labour in relation to life course.

Possible topics include the household, loss of work, the relationship between work and non-work, work and gender and free and unfree labour. Projects should employ a historical and transregional perspective. Proposals about all regions of the world are welcome and especially those that look at comparisons, conflicts or relations between different regions.

Applicants must be postdoctoral candidates or senior scholars.

Fellows receive a monthly stipend, office space and organisational help. They are obliged to work at the research centre in Berlin. Up to 10 fellowships are available.

Closing date: 31 Aug 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

RESTABLISHMENT OF PROFESSORSHIPS

Korea Foundation

Description:
The Korea Foundation invites applications for the establishment of professorships. All universities outside Korea that plan to create a new professorship in Korean language or Korean studies under their humanities or social sciences programmes are eligible to apply for support.

The period of support is three to five years.
Tenure track applicants will receive funding
for a portion of the new professor’s salary and employee benefits, and endowed chair applicants will receive an endowment provided that the host institution matches the fund on a one-to-one basis.

Closing date: 31 Aug 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

ESSAY PRIZE
Katherine Mansfield Society

Description:
The Katherine Mansfield Society invites entries for its essay prize. This recognises an essay on the subject of Katherine Mansfield and Russia. Essays that address all aspects of Katherine Mansfield and Russia, whether literary, cultural, historical, or biographical, are welcomed. Topics might include:

- KM and Chekhov;
- KM and Tolstoy;
- KM and Dostoevsky;
- KM and Russian literature;
- KM and Marie Bashkirtseff;
- the Hogarth Press and Russia;
- translating with Koteliansky;
- KM and Constance Garnett;
- KM and the Russian revolution of 1917;
- KM, Gurdjieff and his institute;
- KM and Russian ballet or theatre.

Anyone may apply.

The winner will receive a cash prize of £200 and the winning essay will be considered for publication in Katherine Mansfield Studies yearbook.

TWAS-CIIT POSTGRADUATE FELLOWSHIPS
TWAS

Description:
The World Academy of Sciences and the COMSATS Institute of Information and Technology invites applications for the TWAS-CIIT postgraduate fellowship programme. This enables young scientists from developing countries other than Pakistan to obtain their PhD in natural or social and economic sciences. Fellowships are tenable in the departments and laboratories of the seven campuses of CIIT.

The programme offers two categories of fellowships:

- sandwich fellowships – for those registered for a PhD in their home country and tenable for six up to 18 months;
- full-time fellowships – for those not registered for a PhD in their home country and tenable for up to three years.

Nationals from a developing country other than Pakistan, who are no more than 35 years of age on 31 December of the year of application, may apply. Applicants must not hold a visa for temporary or permanent residency in Pakistan or any developed country. Applicants should hold a master’s degree in a field of the natural or social and economic sciences and provide evidence of proficiency in English. Applicants must be able to provide an acceptance letter from CIIT.

Fellowships include a monthly stipend to cover living costs, such as accommodation, food and health insurance.

Closing date: 31 Aug 16
Deadline information: This call is repeated once a year.

**KIBBUTZ FUND PRIZE**
*University of Haifa*

**Description:**
The Institute for the Research on the Kibbutz and the Cooperative Idea at the University of Haifa invite applications for their Kibbutz Fund prize. This recognises a completed research paper or publication related to the kibbutz movement.

In particular, the research will contribute to new knowledge or expertise in the following areas:

- promoting the economic productivity of the kibbutz today and in the future;
- improving the kibbutz work and income structure;
- strengthening community life, based on fundamental kibbutz values.

The prize is worth US$2,000.

**Closing date: 31 Aug 16 (Forecast)**
**Deadline information:** !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.
**Posted date:** 06 Feb 14
**Award type:** Prizes
**Award amount max:** $2,000
**Award budget total:** -

BEL VISITING SCHOLAR PROGRAMME

International Mathematical Union

Description:
The International Mathematical Union and the Niels Henrik Abel Board invite applications for the Abel visiting scholar programme. This enables mathematicians professionally based in developing countries to visit an international research collaborator for a period of one month.

Applicants must hold a PhD in mathematics, be based in a developing country at the time of application, hold a position in a university or research institution and be in the early stages of their professional careers. Applicants should not yet be of full professorial rank but have a working contract in a university or college, and they must be under 40 years of age on the application deadline. The maximum age may be increased by up to three years in the case of an individual with a broken career pattern. Applications from women mathematicians are strongly encouraged. The applicant must already have initiated contact with the proposed international research partner. The collaboration should take place at the international partner’s home institution.

The grant is worth up to US$5,000, and will cover health insurance, visa cost, all travel and living expenses, including accommodation for one month.

Closing date: 31 Aug 16
Deadline information: Applications must be received at least four months before the desired starting date. Deadlines on: 30 April 2016, 31 August 2016, 8 January 2017.
Posted date: 14 Jan 16
Award type: Personal development, Travel for research purposes, Young investigator awards, Directed grants for individual investigators, Networking/collaboration

Description:
The Royal College of Physicians and Surgeons of Glasgow invites applications for its travelling fellowships. These enable younger members of the college to travel to centres of excellence in order to gain further experience in any area of surgery, or for members from overseas to visit centres in the UK. In addition, the fellowships support a variety of other learning opportunities, including taster weeks for junior doctors.

Members and fellows of the college, including introductory postgraduate, associate or affiliate members, as well as members of the faculties of travel medicine and podiatric medicine, may apply.

Up to 16 fellowships, worth up to £2,000 each, are available every year. Four of these are allocated to overseas members. Funding covers travel and subsistence expenses, but does not support attendance at year-long salaried post, courses or conferences.

BE FELLOWSHIP
Social Science Research Council

Description:
The Social Science Research Council and the Japan Foundation Center for Global Partnership invite applications for the Abe fellowship. This encourages international multidisciplinary research on topics of pressing global concern and promotes intellectual cooperation between the Japanese and American academic and professional communities. Research proposals may address one or more of the following themes:

- threats to personal, societal and international security, including food, water and energy insecurity, pandemics, climate change, disaster preparedness, prevention and recovery, conflict, terrorism and cybersecurity;
- growth and sustainable development, including global financial stability, trade imbalances and agreements, adjustment to globalisation, climate change and adaptation, and poverty and inequality;
- social, scientific and cultural trends and transformations, including ageing and other demographic change, benefits and dangers of reproductive genetics, gender and social exclusion, expansion of STEM education among women and underrepresented populations, migration, rural depopulation and urbanisation, impacts of automation on jobs, poverty and inequality and community resilience;
- governance, empowerment and participation, including challenges to democratic institutions, participatory governance, human rights, the changing role of non-governmental organisations and non-profits, the rise of new media and government roles in fostering innovation.

Applications are open to citizens of the US and Japan, as well as to nationals of other countries who can demonstrate strong and long-term affiliations with research communities in Japan or the US. Applicants must hold a PhD or the terminal degree in their field, or have attained an equivalent level of professional experience. Applications from researchers in professions other than academia are encouraged.

The fellowship provides three to 12 months of full-time support over a two-year period. Tenure must begin between 1 April and 31 December of a given year.

Closing date: 01 Sep 16
Deadline information: This call is repeated once a year.

WARD FOR SCIENCE DIPLOMACY  
American Association for the Advancement of Science

Description:
The American Association for the Advancement of Science invites nominations for its award for science diplomacy. This recognises an individual or small group in the scientific or engineering community for their contribution to furthering science diplomacy.

This award is open to all, regardless of nationality or citizenship.

The winner receives US$5,000, complimentary registration and reimbursement for reasonable travel and hotel expenses to attend the association’s annual meeting.

Closing date: 01 Sep 16 (Forecast)  
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.  
Posted date: 26 Feb 15

SCIENTIFIC FREEDOM AND RESPONSIBILITY AWARD  
American Association for the Advancement of Science

Description:  
The American Association for the Advancement of Science invites nominations for its scientific freedom and responsibility award. This recognises scientists and engineers who have:

- acted to protect the public's health, safety, or welfare;
- focused public attention on important potential impacts of science and technology on society by their responsible participation in public policy debates;
- established important new precedents in carrying out the social responsibilities or in defending the
professional freedom of scientists and engineers.

Nominations are open to all, regardless of nationality or citizenship.

The award includes US$5,000 and reimbursement for travel and hotel expenses to attend the association’s annual meeting.

Closing date: 01 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

**ENERGY TECHNOLOGY DIVISION RESEARCH AWARD**
Electrochemical Society

Description:
The Electrochemical Society invites applications for the research award of the energy technology division. The award recognises outstanding and original contributions to the science and technology of energy related research areas that include scientific and technological aspects of fossil fuels and alternative energy sources, energy management and environmental consequences of energy utilization. Although the award is not limited to any particular age group, its primary purpose is to develop interest in energy related science and technology among younger electrochemists. Only currently active members of the Electrochemical Society may be considered. The award is worth US$1,500.

Closing date: 01 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

BE FELLOWSHIP
Japan Foundation Center for Global Partnership

Description:
The Japan Foundation Center for Global Partnership invites applications under the Abe fellowship program. The fellowship aims to encourage international multidisciplinary research on topics of pressing global concern. The program seeks to foster the development of a new generation of researchers who are interested in policy-relevant topics of long-range importance.

Applications are accepted from scholars and non-academic research professionals in the social sciences and related disciplines to conduct research in the following subject areas: traditional and non-traditional approaches to security and diplomacy; global and regional economic issues; and the role of civil society. Citizens of the US and Japan as well as to nationals of other countries who can demonstrate strong and serious long-term affiliations with research communities in Japan or the United States are eligible. Applicants must hold a PhD or the terminal degree in their field, or have attained an equivalent level of professional experience.

Closing date: 01 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

RIZE LECTURE
Experimental Psychology Society

Description:
The Experimental Psychology Society invites nominations for its prize lecture. This recognises distinguished research achievement by experimental psychologists at an early stage in their career.

Nominees should normally have obtained their PhD no more than 10 years previously. Any ordinary member of the society may make a nomination, and there are no nationality or membership restrictions for nominees.

The winner will be invited to deliver a lecture at one of the society meetings. The award includes an honorarium.

Closing date: 01 Sep 16

IDEA GRANTS
Barth Syndrome Foundation

Description:
The Barth Syndrome Foundation invites proposals for its idea grants. These support basic science and clinical research on the natural history, biochemical basis and treatment of Barth syndrome.

Funding is available as seed grants for testing initial hypotheses and the collection of preliminary data that may lead to successful long-term funding by major granting institutions. Young, non-tenured investigators are allowed to include up to 75 per cent of the direct costs as principal investigator salary while experienced investigators may only include up to 10 per cent for this purpose.

Idea grants are worth up to US$50,000 over one to two years. Indirect costs are limited to 10 per cent of the direct costs. An additional US$20,000 may be available for clinically-oriented applications to support the travel of research volunteers to specific clinical research sites.

Closing date: 01 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

Award type: Directed grants for individual investigators, Travel for research purposes,

DINA FEITELSON RESEARCH AWARD
International Reading Association

Description:
The International Reading Association invites nominations for the Dina Feitelson research award. This recognises an outstanding empirical study published in English in a refereed journal and that reports on one or more aspects of literacy acquisition, such as phonemic awareness, the alphabetic principle, bilingualism, home influences on literacy development or cross-cultural studies of beginning reading. The results of the study should have clear implications for instruction.

Works published between January and December 2012 may be nominated. Nomination is open to all literacy professionals. The award is worth US$500.

Closing date: 01 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

ECCO FELLOWSHIP
European Crohn's and Colitis Organisation

Description:
The European Crohn's and Colitis Organisation invites applications for its fellowship. This aims to encourage young individuals in their career and to promote innovative scientific research in inflammatory bowel diseases in Europe.

In order to be eligible, the following criteria must be met:

- applicants must not be older than 40 years or still in training at the time of application;
- they must have a hosting laboratory or department outside their own country which has accepted to host and supervise them;
- applicants and their hosts must be ECCO members, however applicants are not limited to the ECCO member countries and can apply from non-European countries.

Two awards worth €60,000 each over one year are available.

Closing date: 01 Sep 16
Deadline information: This call is repeated once a year.

Y
C FUNG YOUNG INVESTIGATOR AWARD
American Society of Mechanical Engineers

Description:
The American Society of Mechanical Engineers invites nominations for the YC Fung young investigator award. This recognises a young investigator who is committed to pursuing research in the field of bioengineering and has demonstrated potential to contribute to the field. These may include the design or development of new methods, equipment or instrumentation in bioengineering, or research publications in peer-reviewed journals.

Nominees must be under 36 years of age. They should have received a PhD or equivalent bioengineering degree within seven years of their nomination, and must be active members of the society’s bioengineering division.

The award consists of US$1,000, a bronze medal, a certificate and a travel supplement.

Closing date: 01 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

HR LISSNER MEDAL
American Society of Mechanical Engineers

Description:
The American Society of Mechanical Engineers invites nominations for the HR Lissner medal. This recognises active members of the bioengineering division for accomplishments in the area of bioengineering. Eligible achievements may include the following:

- significant research contributions;
- development of new methods of measuring;
- design of new equipment and instrumentation;
- educational impact in the training of bioengineers;
- service to the bioengineering community in general and to the ASME bioengineering division in particular.

The award includes US$1,000 and a travel supplement to attend the award presentation.

RETURN HOME FELLOWSHIPS

International Brain Research Organization

Description:
The International Brain Research Organization invites applications for its return home fellowships. These aim to improve the opportunities for productive neuroscience research within the less advantaged regions of the world and to provide more aid to those researchers trained overseas who wish to return to their home countries. Applicants may be:

- postdoctoral fellows who have finished training in neuroscience in a centre of excellence in a developed country;
- research students who have been trained in a centre of excellence in brain research;
- scientists who are developing a successful basic or clinical research career in a developed country and wish to return to their country of origin, or to a less developed country, for personal or cultural reasons.

Fellowships are worth up to €20,000 each.

Closing date: 01 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect.
Applications invited between August and 12 midnight CET, 1 September 2015. This call is repeated once a year.

STUDENT RESEARCH GRANTS
American Hemerocallis Society

Description:
The American Hemerocallis Society invites applications for its student research grants. The grants support graduate or undergraduate students or faculty/staff using daylilies (plant genus Hemerocallis) as experimental organisms in original research projects. Fundamental areas of investigation are encouraged, such as:

- banded chromosome preparations;
- gene mapping;
- fine structural studies of vegetative or reproductive parts;
- microscopic analysis of the ontogeny of flower scapes in the crown;
- effect of various hormones on plant growth and formation of proliferations on scapes.

Practical areas of study are encouraged, such as:

- hardiness of various cultivars in different climatic zones;
- use of microtubule degradants (eg, trifluralin, oryzalin, amiprophosmethyl) to produce polyploids;
- seed dormancy factors;
- pests and diseases (eg, crown rot, spring sickness, bulb mites, gall midge, daylily rust).

The grants are up to $3,000 per year. Grants are renewable for a total of three years.

Closing date: 01 Sep 16

Deadline information: Deadlines on: 1 September 2016, 1 April 2017, and repeated annually.

EMLOW PRIZE
McGill University

Description:
The Burney Society invites applications for the Hemlow prize. This recognises the best essay written by a graduate student on any aspect of the life or writings of Frances Burney or the Burney family. The essay, which can be up to 6,000 words, should make a substantial contribution to Burney scholarship.

Applicants must have been registered as a graduate student within the last year.

The award includes US$250 and a year's membership in the Burney Society.

Description:
The National Research Fund Luxembourg invites applications for its AFR public private partnerships programme. This aims to foster cooperation between Luxembourg based companies and public research institutions in Luxembourg and abroad by funding PhD and postdoctoral research projects. Projects should not be pure engineering projects, and should stimulate discovery oriented, industry led research.

PhD applicants should hold a relevant degree from a recognised institution prior to the start of the research project, and must have been enrolled in their PhD for no more than one year. Postdoctoral applicants can apply for up to eight years after their PhD.

The maximum annual salary awarded for PhD grants is €44,030 for up to two years. The maximum annual salary awarded for postdoctoral grants is €62,191 for up to four years. Awardees may also receive a one off travel grant for between €250 and €2,000, and a training allowance of up to €6,000 for PhD researchers, and €4,000 for postdoctoral researchers.

Description:
Utrecht University’s Descartes Centre invites applications for its fellowships. These aim to promote intellectual exchange and strengthen international collaboration in history and philosophy of science. There are two types of fellowships:

- junior fellowships, which support independent doctoral research and
research at Dutch museums and archives – worth €1,500 per month;
• senior fellowships, which allow senior researchers to contribute to the Descartes Centre by means of public lectures, research seminars and teaching – worth €2,500 per month.

Both fellowships are available for up to three months.

Applicants must demonstrate an existing or potential collaboration with one or more members of the Descartes Centre by a corresponding letter of recommendation. Fellows must have a permanent home address outside of the Netherlands.

FULLERENES, NANOTUBES AND CARBON NANOSTRUCTURES DIVISION SES RESEARCH YOUNG INVESTIGATOR AWARD

Electrochemical Society

Description:
The Electrochemical Society invites nominations for the SES Research young investigator award. The award is given to an outstanding young researcher in the field of fullerenes, carbon nanotubes and nanostructures, and carries a reward of US$500. Nominees must be under the age of 35 as of January 1 of the nominating year. The
successful candidate is expected to present a lecture on his or her research work at one of the FNCN Division symposia at the spring meeting of ECS when the award is given. The prize is worth US$500 plus free meeting registration.

ASTRIK L GABRIEL POSTDOCTORAL FELLOWSHIP IN THE HISTORY OF MEDIEVAL EDUCATION
University of Notre Dame

Description:
The University of Notre Dame’s Medieval Institute invites applications for the Astrik L Gabriel postdoctoral fellowship in the history of medieval education. This supports one semester of research into the history of medieval education.

All scholars holding a PhD may apply.

The fellowship is worth US$20,000.

Closing date: 01 Sep 16
Deadline information: This call is repeated once a year.
TRUCTURAL CONDENSED MATTER PHYSICS GROUP BURSARIES
Institute of Physics

Description:
The Institute of Physics’ structural condensed matter physics group, formerly known as the physical crystallography group, invites entries for its bursaries. These enable young members of the group to attend meetings, conferences and training schools relevant to the group’s areas of interest.

Applications are welcome from members of the Institute of Physics affiliated to the PCG-SCMP group.

Bursaries are worth £250.

Closing date: 01 Sep 16
Deadline information: Deadlines on: 1 September 2016, 1 December 2016, 1 March 2017, 1 June 2017, and repeated annually.
Posted date: 08 May 14

Award type: Travel to conferences, meetings etc., Young investigator awards
Award amount max: £250
Award budget total: -

DEVELOPMENT GRANTS
Barth Syndrome Foundation

Description:
The Barth Syndrome Foundation invites proposals for its development grants. These support basic science and clinical research on the natural history, biochemical basis and treatment of Barth syndrome.

Funding is available as seed grants for testing initial hypotheses and the collection of preliminary data that may lead to successful long-term funding by major granting institutions. Young, non-tenured investigators are allowed to include up to 75 per cent of the direct costs as principal investigator salary while experienced investigators may only include up to 10 per cent for this purpose.

Development grants are worth up to US$100,000 over two to three years. Indirect costs are limited to 10 per cent of the direct costs. An additional US$20,000 may be available for clinically-oriented applications to support the travel of research volunteers to specific clinical research sites.

Closing date: 01 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.
Posted date: 02 Jul 13

INNOVATION AWARDS
International Union of Railways – Union Internationale des Chemins de Fer

Description:
The International Union of Railways invites nominations for its innovation awards. These support and promote the development of theoretical, experimental and applied research in the railway sector. Awards are available in the following six categories: safety and security, sustainable development, rail system technology, rail freight services, passenger services, and cost reduction.

Applicants may fall within one of the following categories: representatives of rail transport operators, infrastructure managers, rail research institutes, academia specialised in rail research, rail supply industry, passenger transport or user organisations, public transport authorities, individual researchers or other relevant organisations.

Awards are worth €5,000 each.

Closing date: 01 Sep 16
Deadline information: This call is repeated every 2 years.
Posted date: 02 Jul 15

Award type: Directed grants for individual investigators, Innovation grants, Directed grants to institutions, research groups etc, Prizes

YOUNG RESEARCHERS AWARDS
International Union of Railways – Union Internationale des Chemins de Fer

Description:
The International Union of Railways invites nominations for its young researchers awards. These recognise young engineers and researchers for their contributions to rail research and innovation.

Nominees must meet the following eligibility criteria:

- be involved in at least one successfully realised railway research project;
- be no more than 30 years old;
- be currently involved in research activities;
- have publications in scientific literature;
- have participated in scientific conferences, exhibitions and seminars.

Three awards are available and each consist of a certificate, a material prize and the reimbursement of travel costs and accommodation for the UIC innovation awards 2016 ceremony.

Closing date: 01 Sep 16
Deadline information: This call is repeated every 2 years.

Research Fellowship Grants

TREE Fund

Description:
The TREE Fund invites applications for its research fellowship grants. These support scientists who are pursuing research projects in the fields of arboriculture and urban forestry. The overall research priority for this call is the discovery and dissemination of new knowledge in the fields of arboriculture and urban forestry, however proposals should aim to focus on the following issues:

- nursery production practices that enhance survival, structural soundness and post-installation performance;
- young tree care to enhance longevity;
- soil biology and soil amelioration;
- sustainable pest and disease management alternatives;
- species diversity to mitigate loss and enhance benefits of urban forests;
- mitigating tree damage and loss following construction.

Ideal candidates are early career, pre-tenure assistant or tenured associate rank professor, supervising a PhD student. Applicants at assistant professor or pre-tenure level are strongly encouraged to partner with a tenured professor as co-principal investigator. Applicants may be of any national origin.

Grants are worth up to US$100,000 over three to five years. Applicants may include institutional overhead costs in the project budget worth 10 per cent of total grant value.
Matching funds of at least 10 per cent of requested grant amount are required.

Closing date: 01 Sep 16
Deadline information:
Posted date: 01 Jun 16
Award type: Networking/collaboration, Mid-Career fellowships, Early-Career fellowships, Directed grants for individual investigators
Award amount max: $100,000

**CCO-IOIBD FELLOWSHIP**

*International Organisation For the Study of Inflammatory Bowel Disease*

**Description:**

The International Organisation for the Study of Inflammatory Bowel Disease and the European Crohn’s and Colitis Organisation invite applications for their fellowship programme. This aims to encourage young basic and clinical scientists in their career and promote scientific exchange in inflammatory bowel disease between Europe and other continents.

Applicants must not be older than 40 years or still in training at the time of application, and must have a hosting laboratory or department outside their own country which has accepted to host and supervise them. Either the applicant or the host must be an ECCO member at the time of application.

The award is worth €60,000 over one year, with the possibility of an extension for up to two years.

Closing date: 01 Sep 16
Deadline information: This call is repeated once a year.

YOUNG TRIALIST GRANT
European CanCer Organisation (formerly the Federation of European Cancer Societies)

Description:
European CanCer Organisation invites applications for its young trialist grant. This enables three young clinical oncologists to participate and present their novel trial concepts in the art of designing clinical trials – the latest methods in clinical cancer research workshop, to be held on 30 January 2017 at the ECCO2017 congress.

Junior physicians specialising in oncology, junior clinical professionals managing cancer patients and junior radiologists or pathologists involved in cancer care may apply. Applicants must be within five years of completion of residency or fellowship training.

Each grant includes free registration to the congress, the opportunity to present in a congress session and a networking possibility with oncology experts.

Closing date: 01 Sep 16

VISITING FELLOWSHIPS
University of Oxford

Description:
The University of Oxford’s All Souls College invites applications for its visiting fellowships. These enable scholars to engage in study and research in Oxford and to participate in the academic life of the college for a period of one to three terms within the academic year. There is no limitation upon the field of study.

Applications are open to holders of university posts and others who wish to carry out scholarly work in Oxford, including those in public life. Persons holding posts in Oxford or who are already resident in or near Oxford are not considered.

Fellows are provided with lunches and dinners, a study in college and furnished residential accommodation in Oxford, which may also accommodate partners and young children. Fellows are expected to cover their visa and medical insurance costs, though limited financial assistance may be offered in exceptional circumstances.

Closing date: 02 Sep 16

Deadline information: Applications due by 4 pm UK time. This call is repeated once a year.

HONORARY FELLOWSHIP
Royal College of Paediatrics and Child Health

Description:
The Royal College of Paediatrics and Child Health invites nominations for its honorary fellowship. This recognises an individual who has demonstrated, through research or clinical commitment, major contributions to paediatrics during their career.

Nominations are accepted in the following categories:
The fellowship includes invitations to special events, college publications, and reduced fees at the society’s annual conference, among other things.

Closing date: 04 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect.
Nominations due by 5pm. This call is repeated once a year.
Posted date: 02 Jun 15
Award type: Early-Career fellowships, Publish, edit, translate, disseminate, Travel to conferences, meetings etc., Senior fellowships, Mid-Career fellowships

CERN (European Organisation for Nuclear Research)

Description:
CERN invites applications for its senior fellowships. These enable researchers working in experimental and theoretical physics, or conducting advanced development work and related research in applied science, computing and engineering, to spend time working in a research group at CERN. An integrated graduate engineering training scheme is available for engineering graduates looking for professional experience in a wide range of engineering and technical fields.

Applicants must hold a PhD, or have at least four years of experience after the degree which gives access to doctoral programmes, up to a maximum of ten years experience. Nationals of CERN member or associate states may apply. A limited number of fellowships are also available for nationals of non-member states.

Stipends are worth between CHF5165 and CHF8043 per month, for between six and 24 months, with a possible extension of up to 36 months.
Ref: AFC-2016-2/FELL.

Closing date: 05 Sep 16
Deadline information: Applications due by 11.59pm CET. This call is repeated 2 times a year.

LONG-TERM INVITATION FELLOWSHIP PROGRAMME FOR RESEARCH IN JAPAN
Japan Society for the Promotion of Science

Description:
The Japan Society for the Promotion of Science invites applications for its long-term invitation fellowship programme for research in Japan. This enables researchers employed at Japanese research institutions to invite fellow researchers from other countries to Japan to participate in cooperative activities at their research institutions. All fields of the humanities, social sciences and natural sciences are included under this programme.

Invited researchers must be university professors, associate or assistant professors, research associates or of equivalent status. Other researchers may be eligible if they have held a doctoral degree for a period of more than six years. They must be citizens of a country that has diplomatic relations with Japan. If the candidate is of Japanese nationality, they must have lived abroad and been activity engaged in research for a period of over 10 years.

Applications must be submitted to JSPS by a host scientist in Japan through the head of their university or institution or by an overseas nominating authority. Foreign scientists wishing to participate in this programme are advised to establish contact with a Japanese researcher in their field and to ask them to submit an application.

Fellowships last two to 10 months and include a round-trip air ticket, a monthly maintenance allowance of ¥369,000, a domestic research travel allowance of ¥100,000, research expenses of ¥40,000 and travel insurance.

Closing date: 05 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect.
Applications invited between 1 September and 5pm, 5 September. This call is repeated once a year.

Tokyo 102-0083
Tel: +81 3 3263 2480
Email: invitation@jsps.go.jp
Description:
The European Molecular Biology Laboratory invites applications, under its EMBL interdisciplinary postdocs (EIPOD) initiative, for the EI3POD postdoctoral fellowship programme. This enables researchers to take part in international and interinstitutional collaborations, or an intersectional experience, whilst carrying out interdisciplinary research.

Applicants should propose their own research projects, and choose one of the three available specialisation pathways:

- **interdisciplinary EIPOD**, aimed at an academic career path and involving an interdisciplinary research project which includes one coordinating group leader and one partner laboratory both from EMBL faculty;
- **international or inter-institutional EIPOD**, including an interdisciplinary research project that should involve EMBL supervisors, and one external academic partner;
- **intersectorial EIPOD**, involving an interdisciplinary research project that is designed to foster exposure to the applied or commercial side of science, and involves EMBL supervisors and either one industry partner from a group from the EMBL network of institutionalised partnerships or collaborations, or an active involvement of an EIPOD in intellectual property generation, out-licensing and, if applicable, in the first steps towards a spin-off activity.

The programme includes mandatory training modules in intellectual property, entrepreneurship in life sciences, research ethics, career development, gender dimension in science and outreach, public management and dissemination of knowledge on scientific progress.

Applicants of any nationality who hold a PhD or have four years of full-time equivalent research experience may apply. Scientists who are currently doing postdoctoral research at other institutions may apply, as well as postdoctoral researchers at EMBL, provided that the previous affiliation does not exceed 12 months in the last three years.

Approximately 20 three-year fellowships are available, with funding for cross-disciplinary projects, and healthcare benefits and pension access.

**Closing date: 05 Sep 16**
**Deadline information:** Applications are invited between 15 June and 5 September 2016. This call is repeated once a year.

CAREER DEVELOPMENT PROGRAMME
Leukemia and Lymphoma Society

Description:
The Leukemia and Lymphoma Society invites applications for its career development programme. This enables researchers to undertake basic, clinical or translational research related to leukaemia, lymphoma and myeloma.

Applicants must have received a PhD, MD or DVM degree at the time of review.

The following award categories are available:

- **scholar award**, available for a period of five years and worth US$110,000 per year, for scholars conducting original investigation in the field of hematologic malignancies who hold an independent faculty-level or equivalent position and have obtained substantial support from a national agency;
- **scholar in clinical research award**, available for a period of five years and worth US$110,000 per year, for scholars who hold an independent faculty-level appointment and are conducting original, independent, applied research often involving early-stage clinical trials that will advance the prevention, diagnosis or treatment of hematologic malignancies;
- **special fellow award**, available for a period of two to three years and worth US$65,000 per year, for an investigator with at least two and a maximum of four and a half years of postdoctoral research training;

PRING MEETING COMPETITIONS
Academy of Medical Sciences

Description:
The Academy of Medical Sciences invites abstracts for three competitions at their annual spring meeting, to be held on 23 February 2017 at the Royal College of Physicians in London. These enable clinical academic trainees together to present their work, meet one another and network with senior scientists. The following competitions are open:

- poster competition – clinical academic trainees at all career stages may apply for the Lord Leonard and Lady Estelle Wolfson Prize worth £2,500, and four runner-up prizes of £500 each;
- oral plenary competition – foundation year doctors, academic clinical fellows and PhD students may apply for the Medical Research Society prize worth £2,500 and runner-up prize of £500;
- young investigator competition – postdoctoral clinical academic trainees including clinical lecturers, clinician scientist fellows and equivalent posts, may apply for the Lancet prize worth £2,500 and runner-up prize of £750.

Applicants must have completed or be in the process of completing a medical, dental, veterinary, nursing or other allied health professional qualification and be undertaking a period of genuine research. All abstracts accepted for the oral and poster competitions will be published in a special edition of The Lancet.

Closing date: 09 Sep 16
Deadline information: Abstracts are accepted between 27 June and 5pm GMT, 9 September 2016. This call is repeated once a year.

DOCTORAL THESIS IN HUMANITIES AND SOCIAL SCIENCES
Swiss National Science Foundation

Description:
The Swiss National Science Foundation invites proposals for its Doc.CH programme in humanities and social sciences.

This supports promising researchers who wish to write a dissertation on a topic of their own choice in the humanities and social sciences in Switzerland.

Applicants must have a master's degree or equivalent from a Swiss higher education institution, obtained no more than two years ago. Researchers should have had at least one change of higher education institution between their bachelor and the start of the doctoral studies. Swiss Nationals with foreign degrees may also apply.

Funding covers salary and a contribution towards project costs, such as material of enduring value, consumables, travel and conference costs and additional funding for the digital publication of the doctoral thesis and articles. Grants last for two years with the possibility for extension for another two years.

Closing date: 10 Sep 16
Deadline information: If the deadline falls on a weekend or public holiday, the deadline is automatically extended to the next working day. Deadlines on: 10 September 2016, 10 March 2017, and repeated annually.
Posted date: 20 Apr 16
Award type: Thesis/Dissertation funding, Financial aid for postgraduate students, Travel to conferences, meetings etc., Publish, edit, translate, disseminate, Equipment and materials, Travel for research purposes
Award amount max: -

TYLER PRIZE FOR ENVIRONMENTAL ACHIEVEMENT
University of Southern California

Description:
The University of Southern California invites nominations for the Tyler prize for environmental achievement. The prize is awarded for environmental science, health and energy conferring great benefit upon humanity. Prizes are awarded for any one of the following:

- the protection, maintenance, improvement or understanding of an ecological or an environmental condition anywhere in the world;
- the discovery, further development, improvement, or understanding of known or new sources of energy;
- medical discoveries or achievements with such worldwide implications that they significantly benefit environmental aspects of human health.

Individuals or public or private institutions of any nation are eligible for nomination. Self-nominations are not accepted.

The prize is worth US$200,000.

Closing date: 11 Sep 16 (Forecast)

Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

EASDALE-CORTI HUMANITARIAN AWARD
Royal College of Physicians and Surgeons of Canada – Collège Royal des Médecins et Chirurgiens du Canada

Description:
The Royal College of Physicians and Surgeons of Canada invites nominations for the Teasdale-Corti humanitarian award. This recognises Canadian physicians who, while providing healthcare or emergency services, go beyond the accepted norms of routine practice that may include exposure to personal risk.
Nominees should be Canadian physicians based anywhere in the world. Nominations may be submitted by any fellow of the college.

One award is available. The recipient will receive a memento plus coverage of travel and accommodation expenses to receive the award. A donation to the affiliated relief organisation may also be awarded.

Closing date: 11 Sep 16 (Forecast)  
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect.  
Nominations due by 4pm EST. This call is repeated once a year.

PULP BIOLOGY AND REGENERATION AWARD  
International Association for Dental Research

Description:  
The International Association for Dental Research invites nominations for its pulp biology and regeneration award. This award is part of the association's distinguished scientist awards programme that honours IADR members. The award recognises, encourages, and stimulates outstanding research contributions in the field of pulp biology. In order to be eligible, the nominee must have contributed significantly to the body of knowledge in the field of pulp biology through basic or clinical research.

Only IADR members may be nominated.

The award consists of a US$3,500 cash prize.

Closing date: 12 Sep 16 (Forecast)  
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

ASIC RESEARCH IN PERIODONTAL DISEASE AWARD
International Association for Dental Research

Description:
The International Association for Dental Research invites nominations for its basic research in periodontal disease award. The award is part of the association's distinguished scientist awards programme that honours IADR members. This award recognises outstanding research achievements in basic research in periodontal disease. Clinical investigation alone is not considered basic research for this award. However, clinical investigation in support of basic research may be considered a part of the contribution in determining the recipient of the award.

Nominees must be IADR members actively engaged in the line of research for which the award is made.

The award consists of a US$3,500 cash prize.

PHARMACOLOGY, THERAPEUTICS AND TOXICOLOGY RESEARCH AWARD
International Association for Dental Research

Description:
The International Association for Dental Research invites nominations for its pharmacology, therapeutics and toxicology research award. This award recognises contributions to the understanding of the mechanisms, efficacy and safety of drugs used to treat dental disease and associated symptoms such as pain and peri-operative apprehension. In practice, this encompasses basic and clinical
pharmacology studies of analgesics, anaesthetics, sedatives, fluorides and other drug classes used by dentists.

Only IADR members may be nominated.

The award consists of a US$3,500 cash prize.

**SCHOLARSHIPS**

**Africa London Nagasaki Scholarship Fund**

**Description:**
The Africa London Nagasaki Scholarship Fund invites applications for its scholarships. These enable African scientists to undertake an MSc in a subject relevant to the control of infectious diseases in Africa, either at the Institute of Tropical Medicine in Nagasaki or at the London School of Hygiene and Tropical Medicine.

Applicants must be of African nationality and normally resident in sub-Saharan Africa. Applicants to LSHTM must have a first or upper-second-class BSc or equivalent, usually combined with at least two years’ prior research experience in an area relevant to the study of infectious diseases. Applicants to NEKKEN should have obtained an MB ChB or equivalent medical qualification, with at least two years’ clinical experience following graduation. Fluency in English is a requirement for all applicants.

Scholarships are worth up to US$50,000 each, to cover tuition fees, travel and living expenses.

Closing date: 12 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

MERIT SCHOLARSHIPS
Asia-Pacific Society for Computers in Education

Description:
The Asia-Pacific Society for Computers in Education invites applications for its merit scholarships. These scholarships provide financial aid for students to attend the annual international conference on computers in education, to be held 30 November to 4 December 2014 in Nora, Japan.

Applicants must be first-authors or presenters of accepted papers or have received overall favourable ratings from the reviewers. Graduate students who are in need of financial support may apply, as well as those who have graduated with a master’s degree within the past 12 months and who wait to be enrolled in a PhD programme.

Preference is given to those who have contributed as an individual to the research community. Added advantage is given to applicants whose papers have been recommended for awards and who are self-financed. Priority is also given to those students whose papers have been accepted for the theme-based conference as well as those who have not received support for attending past ICCEs.

Up to eight scholarships, worth US$500 each, are available.

Closing date: 12 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

H2020-MSCA-IF-2016 MARIE SKLODOWSKA-CURIE INDIVIDUAL FELLOWSHIPS
Horizon 2020: Excellent Science

Description:
The European Commission Horizon 2020: Excellent Science invites proposals for its H2020-MSCA-IF-2016 Marie Sklodowska-Curie individual fellowships call. This supports individual, transnational fellowships for promising researchers seeking employment in member states or associated countries, based on an application made jointly by the researcher and host organisation.

Fellowships must take the form of European fellowships or global fellowships. Applications may be submitted for the following topics:

- MSCA-IF-EF-CAR: career restart panel;
- MSCA-IF-EF-RI: reintegration panel;
- MSCA-IF-EF-SE: society and enterprise panel;
- MSCA-IF-EF-ST: standard European fellowships;
- MSCA-IF-GF: global fellowships.

The beneficiary must be a legal entity located in an EU member state or associated country, including Switzerland, and employing the researcher during the project.

Funding for European fellowships will support eligible researchers for a period of 12 to 24 months and funding for global fellowships includes support for a period of 24 to 36 months. The living allowance reference rate for experienced researchers is €55,800 per year. The allowances are subject to country correction. Researchers in some categories will also receive a mobility allowance of €600 and a family allowance of €500. The total indicative budget for this call is €218.5 million.

Ref: OJ C6776.

Closing date: 14 Sep 16
Deadline information: Proposals invited between 12 April and 5pm Brussels time, 14 September 2016.
Posted date: 14 Oct 15

DALAND FELLOWSHIPS IN CLINICAL INVESTIGATION
American Philosophical Society

Description:
The American Philosophical Society invites nominations for the Daland fellowships in clinical investigation. These support research in the several branches of clinical medicine including internal medicine, neurology, paediatrics, psychiatry and surgery. Patient-oriented research may be prioritised.

Nominees must have held an MD or PhD degree for less than eight years. Applicants may be US citizens or foreign nationals, however they are expected to conduct their research in the US. Preference may be given to candidates who have less than two years of postdoctoral training and research.

Fellowship are worth US$40,000 each per year for a maximum period of two years.

HARMACIA - ASPET AWARD FOR EXPERIMENTAL THERAPEUTICS
American Society for Pharmacology and Experimental Therapeutics

Description:
The American Society of Pharmacology and Experimental Therapeutics invites nominations for its Pharmacia-ASPET award for experimental therapeutics. This recognises and stimulates outstanding research in pharmacology and experimental therapeutics, including basic laboratory or clinical research that has had, or potentially will have, a major impact on the pharmacological treatment of disease.

There are no restrictions on the nominees for the award. Nominations must, however, be made by members of the society, and no member may nominate more than one candidate per year.

The award consists of an honorarium of US$2,500, a plaque, and complimentary registration and travel support for the winner and their spouse to attend the award ceremony.

Nominations due by 5pm EDT. This call is repeated once a year.

TORALD SOLLMANN AWARD IN PHARMACOLOGY
American Society for Pharmacology and Experimental Therapeutics

Description:
The American Society of Pharmacology and Experimental Therapeutics invites applications for its Torald Sollmann award in pharmacology. The award of US$3,500 is presented for significant contributions over many years to the advancement and extension of knowledge in the field of pharmacology. The recipient will be invited to deliver a lecture to the membership that may be published in an appropriate ASPET journal.

There are no restrictions on nominees for this award; however, a nomination must be made by a member of ASPET.

Closing date: 15 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated every 2 years.

DE DUVE INSTITUTE POSTDOCTORAL FELLOWSHIPS
De Duve Institute

Description:
The de Duve Institute invites applications for its postdoctoral fellowships. These enable young scientists to pursue postdoctoral research within one of the research groups in the institute.

Candidates must hold a PhD, MD or equivalent degree, not obtained at a Belgian university. It is mandatory to contact the group leader of the laboratory of choice before any application.

The one-year fellowships are renewable once, and provide a tax-free monthly allowance of approximately €2,200. Health insurance, insurance against accidents, and registration fee for the university are also included.
INDUSTRIAL ELECTROCHEMISTRY AND ELECTROCHEMICAL ENGINEERING DIVISION HH DOW MEMORIAL STUDENT ACHIEVEMENT AWARD

Electrochemical Society

Description:
The Electrochemical Society invites nominations for the HH Dow memorial student achievement award of the industrial electrolysis and electrochemical division. The award, which includes a cash prize of US$1,000, is intended to recognise promising young engineers and scientists in the field of electrochemical engineering and applied electrochemistry.

Nominees should be enrolled in a college or university as a graduate student, or have been accepted for enrolment. The award may be used for expenses associated with the recipient’s education or research project, including tuition, books, equipment or supplies.

Closing date: 15 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

NEW RESEARCH WORKERS’ AWARDS
Quaternary Research Association

Description:
The Quaternary Research Association invites applications for its new research workers’ awards. These recognise younger researchers studying for higher degrees in Quaternary science and typically support such activities as field expeditions, geological surveys, coring activities, laboratory visits, purchase of field equipment and laboratory analyses.

Postgraduates who have been members of the association for at least six months may apply. Applicants must not hold a doctoral degree or tenured academic position. Preference will be given to those who have no source of fieldwork funding or whose access to such funds is limited.

Awards are normally worth up to £1,000.

Closing date: 15 Sep 16
Posted date: 13 Jan 16
Award type: Travel for research purposes, Equipment and materials, Directed grants for individual investigators, Student awards

Award amount max: £1,000

POSTGRADUATE MEETINGS AWARDS
Quaternary Research Association

Description:
The Quaternary Research Association invites applications for its postgraduate meetings awards. These enable postgraduates to attend association meetings, namely field meetings and annual discussion meetings.

Registered postgraduates who are current members of the association may apply. Applications are particularly encouraged from students in their first year of postgraduate study. The main criteria for the
distribution of awards will be relevance to research topic and financial need.

Awards normally cover 50 per cent of the costs of the meeting, excluding travel to the venue.

**BEL PRIZE**

*Norske Videnskaps-Akademi – Norwegian Academy of Science and Letters*

**Description:**
The Norwegian Academy of Science and Letters invites nominations for the Abel prize. This recognises outstanding scientific work in the field of mathematics, including mathematical aspects of computer science, mathematical physics, probability, numerical analysis and scientific computing, statistics and applications of mathematics in the sciences.

The prize can be awarded to a single person or shared for closely related fundamental contributions. The right to nominate is open to anyone. Self-nominations are not accepted.

The prize is worth NOK6 million.

**Closing date:** 15 Sep 16
**Deadline information:** This call is repeated once a year.

ERNON YOUNG INTERNATIONAL AWARD FOR AMINO ACID RESEARCH
American Society for Nutrition

Description:
The American Society for Nutrition, supported by the Ajinomoto Co Inc, invites nominations for the Vernon Young international award for amino acid research. This recognises an investigator for a single piece of research or for a series of papers in a related area of amino acid metabolism completed early in their career, usually interpreted as within 10 years of postgraduate training.

The award is worth US$2,500.

Closing date: 15 Sep 16 (Forecast)

DIVISION FOR DRUG METABOLISM EARLY CAREER ACHIEVEMENT AWARD
American Society for Pharmacology and Experimental Therapeutics

Description:
The American Society for Pharmacology and Experimental Therapeutics invites nominations for its division for drug metabolism early-career achievement award. This recognises excellent original research by early-career investigators in the area of drug metabolism and disposition. Research contributions in any sector of the drug metabolism community may be nominated.

Nominees must have a doctoral degree and must be within 15 years of receiving their final degree as of December 31 of the year of the award. The nominee must have two nominators who are ASPET members.

The award consists of US$1,000, a plaque, complimentary registration plus travel expenses of up to US$1,000 to attend the awards ceremony at the ASPET’s annual meeting. The awardee will deliver a lecture at the meeting describing relevant research accomplishments, and will be invited to publish a review article on the subject matter of the award lecture.

Closing date: 15 Sep 16 (Forecast)

ASSOCIATION FOR LIBRARY AND INFORMATION SCIENCE EDUCATION/PROQUEST METHODOLOGY PAPER COMPETITION

Association for Library and Information Science Education

Description:
The Association for Library and Information Science Education invites proposals for its methodology paper competition, sponsored by ProQuest. This competition aims to stimulate communication on research methodologies at ALISE annual conferences. Papers must be limited to the description and discussion of a research method or a technique associated with a particular research method. These include sampling, grounded theory, historical methods and statistical methods.

At least one author in each group must be a personal member of ALISE at the deadline date.

An honorarium of US$500 will be awarded.

ASSOCIATION FOR LIBRARY AND INFORMATION SCIENCE EDUCATION/LIBRARY MEDIA CONNECTION PAPER AWARD

Association for Library and Information Science Education

Description:
The Association for Library and Information Science Education, in collaboration with Linworth Publishing, invites papers for their youth services paper award. This award recognises an outstanding paper reporting innovative research into youth services in public libraries or school library media centres. Possible topics include:

- resources specially developed for youth;
- history of youth services in libraries;
- information seeking behaviour of youth;
• service and programme evaluation;
• policy research;
• technology innovation;
• the relationship between libraries and other organisations;
• collection development.

Papers must include a section on the applicability of research to practice, and should not have been previously published. Authors must be personal members of ALISE or the ALISE youth services special interest group or the school library media special interest group. The award is worth US$1,000.

Closing date: 15 Sep 16 (Forecast)

TWAS-USM POSTGRADUATE FELLOWSHIP PROGRAMME

TWAS

Description:
The World Academy of Sciences and the Universiti Sains Malaysia in Penang invite applications for the TWAS-USM postgraduate fellowship programme. This enables young scientists from developing countries other than Malaysia to pursue studies leading to a PhD in the natural sciences. Fellowships are tenable for up to three years in the departments, institutions and laboratories of USM.

Nationals of a developing country other than Malaysia, who are no more than 35 years of age on 31 December of the application year, may apply. Applicants must not hold a visa for temporary or permanent residency in Malaysia or any developed country. Applicants should hold a master’s degree in a field of the natural sciences and provide evidence of proficiency in English. They must also provide an official acceptance letter from SN Bose.

Fellowships include a standard monthly allowance to cover living costs such as accommodation and subsistence.

Closing date: 15 Sep 16

TWAS-BIOTEC POSTDOCTORAL FELLOWSHIP PROGRAMME
TWAS

Description:
The World Academy of Sciences, together with the National Center for Genetic Engineering and Biotechnology, invites applications for the TWAS-BIOTEC postdoctoral fellowship programme. This enables young scientists from developing countries other than Thailand to pursue advanced research in biotechnology at the National Centre for Genetic Engineering and Biotechnology in Thailand.

Nationals of developing countries, other than Thailand, who have obtained their PhD in the past five years and are not more than 40 years old on 31 December of the application year may apply. Applicants must not hold a visa for temporary or permanent residency in Thailand or any developed country. Applicants should have obtained their PhD in molecular biology, molecular genetics, microbiology, biochemistry, biotechnology or bioinformatics. Applicants should be regularly employed and hold a research assignment in a developing country, and must be proficient in English. Applicants should be able to provide an acceptance letter from BIOTEC.
Fellowships cover living expenses such as accommodation and food and are tenable for one to two years.

EXTENDED DEADLINE: AWARDS FOR EARLY-CAREER WOMEN SCIENTISTS IN THE DEVELOPING WORLD

Organization for Women in Science for the Developing World

Description:
The Organization for Women in Science for the Developing World, in association with the Academy of Sciences for the Developing World and the Elsevier Foundation, has extended the closing date for the women scientists in developing countries awards. The previous deadline of 1 September 2015 has now been extended to 15 September 2015. All other call information remains unchanged.

These recognise early-career women scientists from Africa, the Middle East, Asia, Latin
America and the Caribbean. The 2016 awards are in the biological sciences.

Nominees must be within 10 years of receiving their PhD and have lived and worked for at least three years in a listed country within one of the regions. Self-nominations are not accepted.

One winner from each of the five regions will receive a prize of US$5,000, as well as full expenses to attend the American Association for the Advancement of Science annual meeting in 2016, which will be held in Washington DC.

**Closing date:** 15 Sep 16 (Forecast)
**Deadline information:** Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.
**Posted date:** 28 Aug 15
**Award type:** Directed grants for individual investigators, Prizes, Travel to conferences, meetings etc.

**Award budget total:**

**USANNE KLEIN-VOGELBACH PRIZE FOR THE RESEARCH OF HUMAN MOVEMENT**
*Georg and Susanne Klein Vogelbach Foundation*

**Description:**
The Georg and Susanne Klein-Vogelbach Foundation invites applications for the Susanne Klein-Vogelbach prize for the research of human movement. This recognises work in neuroscience, orthopaedics and associated sciences which is oriented to establish a better understanding of the underlying principles of human movement and its rehabilitation.

Movement in this context covers all kinds of muscular-induced human movement, including mime and music.

Authors who have published a scientific paper in this area within the last two years, or whose paper has been accepted for publication, are eligible to apply. Papers which have already been submitted for a prize will not be taken into account.

The prize is worth CHF10,000. Additionally, outstanding publications in physical therapy
may be submitted for a further CHF2,000 award.

Closing date: 15 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect.

AMUEL J FOMON YOUNG PHYSICIAN AWARD
American Society for Nutrition

Description:
The American Society for Nutrition and the Nestlé Nutrition Institute invite nominations for the Samuel J Fomon young physician award. This recognises a physician within 10 years of completing their medical postdoctoral training for outstanding work in the general area of paediatric nutrition. Infant nutrition, infant growth or body composition are of particular interest. Preclinical or clinical research that contributes to medical applications or produces impacts upon the practice of infant feeding will be recognised.

The award is worth US$5,000.

Closing date: 15 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

GILBERT A LEVEILLE LECTURESHIP AND AWARD
American Society for Nutrition

Description:
The American Society for Nutrition, in cooperation with the Institute of Food Technologies, invites applications for the Gilbert A Leveille lectureship and award. This recognises outstanding research and public service within the disciplines of nutrition and food science, over a period of five years or more, which has contributed to improved health and well-being. The award is worth US$3,000 and includes an engraved plaque.

Closing date: 15 Sep 16 (Forecast)

TWAS-ICIPE POSTGRADUATE FELLOWSHIP PROGRAMME

Description:
The World Academy of Sciences and the International Centre of Insect Physiology and Ecology in Nairobi, Kenya invite applications for their postgraduate fellowship programme. This enables young scientists from developing countries other than Kenya to undertake PhD studies in Kenya. The research should be conducted in the fields of agricultural sciences, structural, cell or molecular biology, biological systems and organisms, medical and health sciences, including neurosciences or chemical sciences. There are two types of fellowships:

- full-time fellowships, granted for a period of six to 12 months, for students registered for a PhD in a developing country;
- SANDWICH fellowships, granted for three years, for candidates not registered for a PhD in their home country.

Permanent residents of a developing country other than Kenya may apply. Applicants should hold a master’s degree or higher and have an official acceptance letter from the host institution. For full-time fellowships candidates should be maximum 40 years of age by 31 December in the year of application. There is no age limit for sandwich fellowships. Candidates must provide evidence of proficiency in English and proof that they will return to their home country after the fellowship.

Three fellowships per year are available, each providing a standard monthly allowance, which may be used to cover living costs such as accommodation, subsistence and health insurance.

Closing date: 15 Sep 16
Deadline information: This call is repeated once a year.

FRANZ WERFEL FELLOWSHIP
Austrian Exchange Service

Description:
The Austrian Exchange Service (OEAD) invites applications for the Franz Werfel fellowship. This enables young university teachers whose work focuses on Austrian literature, to be visiting researchers at university departments and carry out specialist studies in libraries, archives or at research institutions. Follow-up funding is also available, covering:

- a yearly invitation to a professionally relevant symposium;
- book allowance on the occasion of the symposium;
- a one-month research grant every three years;
- a habilitation grant;
- a publication allowance.

University teachers from all countries except Austria, who are no more than 35 years of age and who focus on Austrian literature may apply.

Up to seven grants are available for a duration of four to nine months, renewable for up to 18 months. Grants consist of €1,040 monthly, as well as a €93 book allowance, accident and health insurance, accommodation, tuition fee exemption, and for applicants from non-European developing countries a travel grant of up to €730.

Closing date: 15 Sep 16
Deadline information: This call is repeated 2 times a year.
Posted date: 02 Jun 16

**ROLAND L WEINSIER AWARD FOR EXCELLENCE IN MEDICAL OR DENTAL NUTRITION EDUCATION**

*American Society for Nutrition*

**Description:**
The American Society for Nutrition, supported by the Dannon Institute, invites nominations for the Roland L. Weinsier award for excellence in medical or dental nutrition education. This recognizes an outstanding career in medical or dental nutrition education.

Nomination depends on acknowledged excellence in nutrition teaching or nutrition education research that extends beyond the local institution and that includes innovations in medical or dental education.

The award is worth US$2,500.

**Closing date:** 15 Sep 16 (Forecast)

**MASTER’S THESIS GRANTS**

*Zeno Karl Schindler Foundation*

**Description:**
The Zeno Karl Schindler Foundation invites applications for its master’s thesis grants. These support collaborative inter-university research in the fields of engineering, environmental sciences and medieval studies, including digital humanities. The grant aims to encourage research collaboration between the home university of the master’s thesis candidate and a hosting university or research institute, one of the two preferably being situated in Switzerland.

Grants include a monthly stipend worth CHF1,900 to cover travel and local living costs, plus limited research expenses for a duration of three to six months.

**Closing date:** 15 Sep 16

ROBERT R RUFFOLO CAREER ACHIEVEMENT AWARD IN PHARMACOLOGY
American Society for Pharmacology and Experimental Therapeutics

Description:
The American Society of Pharmacology and Experimental Therapeutics invites nominations for the Robert R Ruffolo career achievement award in pharmacology. This recognises significant scientific contributions to the field of pharmacology by scientists at the height of their careers.

There are no restrictions on nominees for the award. Nominations must, however, be made by members of the society, and no more than one candidate may be nominated per year by any member.

The award includes a US$2,500 honourarium, a medal, and registration and travel support for the winner and spouse to the annual meeting.

Closing date: 15 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect.

Application due by 5pm EDT. This call is repeated once a year.

Description:
The AO Foundation invites applications for the CID clinical research fellowship programme for surgeons - trauma. This enables surgeons to gain training and experience in all phases of clinical research, including study planning, monitoring, data analysis and publication, by spending three months at the foundation’s Clinical Investigation and Documentation branch office in Switzerland.

Applicants must meet the following criteria:

- hold a medical doctorate with minimum orthopaedic training;
- have published at least one clinical investigation;
- be willing to dedicate at least 10 per cent of their time to clinical research;
- be supported by an AOTrauma or AOCMF member at their home clinic.

Up to two fellowships are available. They cover accommodation and travel expenses to and from Switzerland, and travel costs for public transport within Zurich.

Clinical Medicine; Traumatology, Accidents & Injury
Description:
The Australian Government Department of Immigration and Border Protection invites applications for its irregular migration research programme. This aims to develop an evidence base on the drivers, determinants and decision-making of irregular migration. Proposals should address the following research topics:

- transit migration;
- citizenship-specific insights;
- intricacies of decision-making;
- irregular and regular migrant decision-making.

Research proposals which fall outside these categories will be considered provided they relate to irregular migration and migrant decision-making.

Applicants must apply through an administering institution or organisation, either within the public or private sector. Organisations must be either incorporated or not-for-profit or an accredited university.

Funding is worth up to AU$500,000 per project.

Closing date: 15 Sep 16 (Forecast)

TWAS-NCP POSTDOCTORAL FELLOWSHIP PROGRAMME

Description:
The World Academy of Sciences and the National Centre for Physics in Islamabad invite applications for the TWAS-NCP postdoctoral fellowship programme. This enables young scientists from developing countries other than Pakistan to pursue postdoctoral research in physical sciences. Fellowships are tenable in the following fields of physics:

- plasma physics;
- high energy physics;
- quantum information;
- applications of ion beam techniques using tandem accelerator;
- earthquake studies;
- atomic physics and spectroscopy;
- laser induced breakdown spectroscopy;
- modelling;
- simulation and computing;
- astrophysics and cosmology;
- nano sciences;
- vacuum science and technology.

 Nationals of developing countries other than Pakistan, who are within five years of obtaining their PhD in any field of natural sciences, may apply. Applicants must not hold a visa for temporary or permanent residency in Pakistan or any developed country. Applicants must be regularly employed and hold a research assignment in a developing country and provide an official acceptance letter from NCP. Proficiency in English is a requirement for this programme.

Fellowships are tenable for six to 12 months and include a monthly stipend which covers living costs such as accommodation, food and health insurance.

WZB/ISSC GLOBAL FELLOWSHIP PROGRAMME
Wissenschaftszentrum Berlin für Sozialforschung – Social Science Research Center Berlin

Description:
The Social Science Research Center Berlin (WZB) and the International Social Science Council invite applications for their global fellowship programme. This enables one early-career scientist residing and working in a developing country to conduct research for up to six months at the WZB in Berlin, Germany. The research project of the fellow should focus on global societal problems with particular relevance to developing country contexts. Moreover, it should be linked to both research conducted at the WZB and to the topic of the ISSC's World Social Science Forum 2015: transforming global relations for a just world.

While at the centre, the fellow may focus entirely on a dedicated research project and is invited to participate in the intellectual life at the WZB. They are required to:

- conduct a public lecture or an academic seminar;
- write a report outlining a vision of their research field with relevance to developing countries in the next five to 10 years;
- write or contribute to a paper for the World Social Science Forum 2015, to take place from 13 to 16 September 2015 in Durban, South Africa.

Application is open to postdoctoral researchers with no more than five years' work experience after their PhD, or scientists without a PhD but with an equivalent level of research experience and output.

The WZB offers a grant for up to six months at a level commensurate with a German postdoctoral researcher, as well as a contribution to local accommodation up to €500 per month. Economy travel costs to and from Berlin will be reimbursed. The centre also offers a workplace as well as full library privileges and additional technical services. The fellow will also receive support to participate in the World Social Science Forum 2015.

Closing date: 15 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

INDIVIDUAL FELLOWSHIPS
Freiburg Institute for Advanced Studies

Description:
The Freiburg Institute for Advanced Studies invites applications for its individual fellowships. These support junior and senior researchers in any disciplines that can be supported at the University of Freiburg. These include humanities, social sciences, natural and life sciences, engineering

Applicants for junior fellowships must have a PhD and one to six years of postdoctoral experience. Applicants for senior fellowships must have a minimum of six years’ postdoctoral experience, or a tenured professorship or equivalent position. There are no restrictions on researcher nationality. Applicants may not have had their main residence in Germany for more than one year.
Each fellow receives a monthly allowance of up to €450 in theoretical disciplines and €1,050 in experimental disciplines. Fellows without a work contract with their home institute will receive an attractive salary of approximately €54,000 for junior fellows, or €80,000 for senior fellows. A mentoring programme is available for junior fellows, as well as office space and assistance with accommodation. A senior fellowship lasts for three to 10 months and a junior fellowship lasts 12 months. There are approximately 25 fellowships available.

Closing date: 15 Sep 16
Deadline information: Applications are due by 12 midnight CET. This call is repeated once a year.

MEDIEVAL STUDIES SCHOLARSHIPS
Zeno Karl Schindler Foundation

Description:
The Zeno Karl Schindler Foundation invites applications for its medieval studies scholarships. This aims to support scientific research in the field of medieval studies or connected medieval research branches by enabling researchers each year to go abroad for their research work. Two scholarships are available:

- the Walter Haug scholarship, for PhD students in the field of German medieval studies or connected branches;
- the Claudio Leonardi scholarship, for PhD or postdoctoral students in the field of medieval Latin studies or connected branches.
Researchers of any nationality may apply.

Funding is worth CHF2,500 per month for three to six months. Candidates may also apply for an additional amount of CHF3,000 to cover the publication of their thesis.

Closing date: 15 Sep 16
Deadline information: This call is repeated once a year.

ECTURE PRIZE
Commonwealth Association of Surveying and Land Economy

Description:
The Commonwealth Association of Surveying and Land Economy invites submissions for its lecture prize. This is awarded for the best paper on any topic of surveying or land economy. The paper must have been presented at a CASLE conference or continuing professional development meeting by a member association or other CPD seminar by arrangement.

The competition is open to undergraduates, graduates, postgraduates and young professionals. Applicants must be under 32 years of age. The paper must be in English and not more than 4,000 words.

The prize is worth £500.

Closing date: 16 Sep 16 (Forecast)

Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

VALUE OF MEDICINES AWARD
Medicines New Zealand

Description:
Medicines New Zealand invites nominations for its value of medicines award. This recognises those who have developed and implemented innovative projects that are sustainable examples of improving health through the use of medicines and vaccines.

Nominations are open to all areas of the health sector, including health providers and associated groups. Candidates must be either New Zealand citizens, including non-resident citizens, or permanent residents. The eligible piece of original research may deal with any health-related field which includes the development and use of medicines or vaccines, and must either have been completed and published within the last two years, or planned to commence within 12 months.

The winning individual or research team will receive NZ$20,000. The nominee is also entitled to have their travel within New Zealand covered, to receive the award in Wellington on 16 September 2015.

Closing date: 16 Sep 16 (Forecast)

Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect.
Nominations due by 9am. This call is repeated once a year.

POSTDOCTORAL RESEARCH FELLOWSHIP GRANT
Alpha-1 Foundation

Description:
The Alpha-1 Foundation invites applications for its postdoctoral research fellowship grant. This supports postdoctoral research fellows who are starting their research careers and are working in the laboratories of established researchers or conducting research with the mentorship of established researchers. In addition, this grant category provides support for postdoctoral research fellows who intend to pursue a career in alpha-1 antitrypsin research. Applications are open to candidates holding an MD, PhD or equivalent degrees who are interested in conducting basic science, clinical research, or ethic, legal, social issues studies related to AAT deficiency. Applicants must indicate a commitment to AAT-related research by focusing 50 per cent of their time to AAT deficiency research or clinical practice.

Fellowship grants are worth up to US$50,000 per year for a maximum period of two years.

Closing date: 18 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. Letters of intent due by 11.59pm EDT. This call is repeated once a year.

EXTENDED DEADLINE: RESEARCH IN DENTAL CARIES AWARD
International Association for Dental Research

Description:
The International Association for Dental Research has extended the closing date for its research in dental caries award. The deadline has been extended from 12 September to 19 September 2014. All other call details remain unchanged.

This is part of the association's distinguished scientist awards programme. The award
recognises outstanding and innovative achievements that have contributed to the basic understanding of caries aetiology or to the prevention of dental caries.

Evidence must be presented that the nominee has conducted original and important investigations in any of the biological or chemical disciplines involved in caries research. Clinical investigations may also be considered if they have contributed significantly to the prevention and control of dental caries.

At the time of nomination, the nominee must be a IADR member and be actively engaged in the area of research for which the award is presented. Work considered for the award should be fully tested and accepted by the scientific community and must have been published not fewer than ten years prior to the time of the nomination.

The award consists of a US$3,500 cash prize.

Closing date: 19 Sep 16 (Forecast)

ENIOR RESEARCH FELLOWSHIPS IN BASIC BIOMEDICAL SCIENCE
Wellcome Trust

Description:
The Wellcome Trust invites applications for its senior research fellowships in basic biomedical science. These support outstanding postdoctoral scientists based in academic institutions in the UK and the Republic of Ireland. Candidates are expected to have an excellent track record in their scientific field and be able to demonstrate their ability to carry out independent research.

Applicants should have between seven and 12 years’ research experience at postdoctoral level or veterinary equivalent, and a substantial publication record in their chosen area of research in leading international journals. Each applicant must be:

- a UK or EEA national;
- a non-EEA national who either has a relevant degree from a UK university, or has worked in the UK for at least a continuous three-year period;
• an exceptional biomedical scientist who does not fall within the categories above.

Applicants need an eligible sponsoring host institution in the UK or Ireland with the support of the relevant head of department or equivalent, who must have a contract of employment with the host institution or an honorary academic appointment. Applicants who wish to undertake fieldwork or research in a low- or middle-income country must identify an appropriate head of department at the overseas institution. Time spent outside the research environment is considered.

Fellowships are tenable for five years in the first instance, and provide a basic salary, normally of up to £65,000 per year, with an additional trust supplement of £12,500 per year, research programme costs, including equipment and collaborative travel, inflation allowance and public engagement costs.

Closing date: 19 Sep 16
Deadline information: First round preliminary applications due by 5pm, 24 May; invited full applications due by 5pm, 27 July; second round preliminary applications due by 5pm, 19 September; invited full applications for second round

Senior fellowships in public health and tropical medicine
Wellcome Trust

Description:
The Wellcome Trust invites applications for its senior fellowships in public health and tropical medicine. These enable researchers from low- or middle-income countries to establish themselves as leading investigators at an academic institution in the field of public health or tropical medicine, with the aim of building sustainable capacity in areas of research that increases health benefits for people and their livestock in these countries. Public health and tropical medicine cover a wide range of health problems, including communicable and non-communicable diseases.
Applicants must be nationals or legal residents of a low- or middle-income country, and either be graduates in a subject relevant to public health or tropical medicine with a PhD and at least five years' postdoctoral experience; or be medical graduates with a higher qualification equivalent to membership of the UK Royal College of Physicians; or be recognised specialists within a relevant research area and have at least five years' research experience.

Applicants who do not have a PhD but are educated to first degree or master’s level and have substantial research experience, may also apply. Priority is given to researchers working overseas who wish to return to their home country. In addition, applicants must be based at an eligible host institution in a low- and middle-income country, and have an appropriate sponsor who is a head of department or equivalent and holds an established post for the duration of the fellowship.

Fellowships are tenable for up to five years and cover salary, research expenses, course fees, research management and support costs, inflation allowance and public engagement costs. An overseas allowance may be provided for periods of training or collaborative research spent outside the host institution. Research-dedicated costs may not exceed £100,000 per year.

Closing date: 19 Sep 16
Deadline information: First round preliminary applications due by 5pm, 24 May; invited full applications due by 5pm, 27 July; second round preliminary applications due by 5pm, 19 September; invited full applications for second round due by 5pm, 21 November 2016. Deadlines on: 24 May 2016, 19 September 2016.

YOUNG INVESTIGATOR AWARD
American Society of Clinical Oncology

Description:
The American Society of Clinical Oncology invites applications for its young investigator award. This award provides funding to promising investigators to encourage and promote quality research in clinical oncology. The purpose of the award is to fund physicians during the transition from a fellowship programme to a faculty appointment. Proposals with a clinical research focus are supported; preclinical in vitro and animal studies are acceptable as long as the outcome of these studies would ultimately lead to patient-orientated clinical research.

Applicants must be physicians (MD, DO or international equivalent with explanation) who are currently in the last two years of their subspecialty training at an academic medical institution at the time of grant submission. The applicant must also be a member of ASCO, or submit a membership application with the grant application. The amount of the award is US$50,000 for one year. Applicants must have a mentor in the proposed research field from a sponsoring institution.

Closing date: 20 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. Deadline time: 11:59pm EDT. This call is repeated once a year.

CAREER DEVELOPMENT AWARD
American Society of Clinical Oncology

Description:
The American Society of Clinical Oncology invites applications for its career development award. This award provides funding to clinical investigators who have received their initial faculty appointment to establish an independent clinical cancer research program. ASCO supports application submissions in all oncology subspecialties that have a clinical research focus. Proposals must have a patient-orientated focus including a clinical research study including humans.

Eligible applicants must be physicians (MD, DO, or international equivalent with explanation) and be in the first, second or third year of a full-time, primary faculty appointment in a clinical department at an academic medical institution. Applicants should have a mentor from a sponsoring institution and be able to commit more than 50 per cent of full-time effort in research during the award period. Applicants must be a member of ASCO or submit a membership application with the grant application.

The grant is worth $200,000 over three years.

Closing date: 20 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. Deadline time: 11:59pm EDT. This call is repeated once a year.

EADLINE BROUGHT FORWARD: SENIOR NON-CLINICAL FELLOWSHIP - TRANSITION TO LEADERSHIP
Medical Research Council

Description:
The Medical Research Council has brought forward the deadline for applications for its senior non-clinical fellowship. The previous deadline of 22 September has been brought forward to 21 September 2016. All other information remains unchanged. ***

This fellowship provides non-clinical researchers with a track record of excellence in their scientific field with the opportunity to transition into research leaders. Proposals are encouraged across all areas of the research council’s remit, from basic studies with relevance to mechanisms of disease to translational and developmental clinical research.

Applicants should hold a PhD or equivalent; however, there are no rules based on years of postdoctoral experience. There are also no residence eligibility restrictions for this fellowship. The award is not available to individuals who hold a tenured academic position at the time of application. Applicants are encouraged to consider the opportunities to establish collaborative networks and for cross-sector development as the award will support a period of research overseas, at a second UK institution or within industry if appropriate.

In addition, applicants should demonstrate that their skills and experience match those of the transition to leadership career stage at the time of their application.

The fellowship comprises salary costs, support for research staff, consumables expenses, capital equipment for the research project and travel costs for a period of up to seven years. There is no limit for funding.

Closing date: 21 Sep 16
Deadline information: Applications are accepted between 12 August and 12 midnight, 21 September 2016.

DEADLINE BROUGHT FORWARD: CAREER DEVELOPMENT AWARD
Medical Research Council

Description:
The Medical Research Council has brought forward the deadline for proposals for its career development award. The previous deadline of 22 September has been brought forward to 21 September 2016. All other information remains unchanged.

This award enables postdoctoral researchers to lead their own research plans and establish their own research team to make the transition from postdoctoral researcher to independent investigator. Proposals are encouraged across all areas of the research council’s remit, and they may range from basic studies with relevance to mechanisms of disease, to translational and developmental clinical research.

Applicants are normally expected to have a PhD; however, in some cases applicants without a PhD may be considered. Applicants who hold a tenured academic position are not eligible. There are no eligibility rules based on postdoctoral experience. Applicants must be able to demonstrate that their skills and experience match those of the transition to independence career stage.

Funding provides salary, support for research staff, consumables, travel costs and capital equipment appropriate for the research project. The maximum duration of an award is five years. There is no limit for funding.

MRC encourages applicants to consider the funding for research outside the UK, at a second UK institution or within industry in order to establish collaborative networks or cross-sector development.

Closing date: 21 Sep 16
Deadline information: Proposals are accepted between 12 August and 12 midnight, 21 September 2016.

Description:
The Center for Advanced Study in the Visual Arts, a part of the National Gallery of Art, announces its program for the Paul Mellon and Ailsa Mellon Bruce visiting senior fellowships. Fellowships are for full time research, and scholars are expected to reside in Washington and to participate in the activities of the center throughout the fellowship period. Lectures, colloquia, and informal discussions complement the fellowship program.

Applications will be considered for study in the history, theory and criticism of the visual arts, including painting, sculpture, architecture, landscape architecture, urbanism, prints and drawings, film, photography, decorative arts, industrial design, and other arts, of any geographical area and of any period. Applications are also solicited from scholars in other disciplines whose work examines artifacts or has implications for the analysis and criticism of physical form.

Fellowships are intended for those who have held a PhD for five years or more or who possess an equivalent record of professional accomplishment at the time of application. Fellowships are awarded without regard to the age or nationality of applicants.

There are up to 12 short-term fellowships lasting up to 60 days. Fellows receive a stipend that includes round-trip travel and local expenses. Stipends for a two-month fellowship range from $6,000 to $8,000, depending on relocation requirements. Fellows also receive allowances for photography.

BANTING POSTDOCTORAL FELLOWSHIPS
Government of Canada – Gouvernement du Canada

Description:
The Government of Canada invites applications for the Banting postdoctoral fellowships. These support postdoctoral applicants who will contribute to Canada’s economic, social and research-based growth. They aim to attract and retain top-tier postdoctoral talent both nationally and internationally, develop fellows’ leadership potential and position them for success as research leaders. Fellowships are distributed among the Natural Sciences and Engineering Research Council, the Social Sciences and Humanities Research Council and the Canadian Institutes of Health Research. Therefore, the areas of research supported are health, natural sciences and engineering, and social sciences and humanities.

Candidates may be of any nationality. They must have fulfilled all requirements for a PhD, a PhD-equivalent or health professional degree on a date between 21 September 2013 and 30 September 2017. However, a two-year extension to this window for degree completion is available for candidates who are health professionals previously engaged in post-degree non-research related clinical training or candidates whose career has been interrupted or delayed due to parental leave, illness, health-related family responsibilities or mandatory military service.

Eligible institutions are universities, affiliated research hospitals, and colleges or non-profit organisations with a strong research mandate and capacity. Canadian citizens or permanent residents who have obtained their degree from a Canadian university may hold their fellowship at a Canadian or foreign institution. Non-Canadian applicants or Canadian citizens and permanent residents who obtained their qualifications from a foreign university must hold their award at a Canadian institution.

Fellowships are worth CA$70,000 per year for two years and 70 awards are available every year.

Closing date: 21 Sep 16
Deadline information: Applications due by 8pm EDT. This call is repeated once a year.

COMING SOON: ERNEST RUTHERFORD FELLOWSHIPS
Science and Technology Facilities Council

Description:
The Science and Technology Facilities Council will shortly be inviting applications for the Ernest Rutherford fellowships. Proposals will be invited between 1 July and 22 September 2016. The following information is taken from the previous call and is subject to change.

These studentships enable early-career researchers from the UK and overseas to establish an independent research programme in the fields of astronomy, solar and planetary science, particle physics, particle astrophysics, cosmology and nuclear physics.

Applicants may be of any nationality and must have a PhD and at least five years’
research experience from the start of the programme leading to the award of the PhD and a minimum of two years’ postdoctoral experience. They must not yet hold a permanent academic position. Fellowships may be held at any eligible UK research organisation. Outstanding candidates returning from a career break or from working outside academic research may apply for a returner fellowship.

Funding is provided at 80 percent of the full economic costs requested. Fellowships are tenable for five years and provide funds to cover salaries, travel for collaborative visits and fieldwork, attendance at one conference workshop or symposium, relocation, and minor equipment and consumables. Up to 12 fellowships are available per year.

Closing date: 22 Sep 16
Deadline information: Proposals are invited between 1 July and 22 September 2016. This call is repeated once a year.

STUDENT PRIZE
Musicological Society of Australia

Description:
The Musicological Society of Australia invites applications for its student prize. This is awarded for the best piece of scholarly work in musicological research presented by a student member at the annual conference.

Applicants must be student members at the time their scholarly work is considered and the prize awarded. Applications are open to candidates enrolled in a programme of supervised research at a recognised Australian or New Zealand institution of higher education, or Australian or New Zealand citizens studying overseas in non-Australian institutions of higher education. Foreign citizens studying at a non-Australian or non-New Zealand institutions of higher education are ineligible, as are past recipients. Only the version of the scholarly work that is actually presented at the conference is eligible for consideration. The submission shall not have already been published, nor have already been presented at another national or international conference.

The prize is worth AU$500.
Closing date: 23 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect.
Applications due at midnight AEDST. This call is repeated once a year.

**MERIT SCHOLARSHIP PROGRAMME FOR FOREIGN STUDENTS**
Québec Social and Cultural Research Fund – Fonds de Recherche du Québec, Société et Culture

Description:
The Quebec Social and Cultural Research Fund invites applications for its merit scholarship programme for foreign students. This supports the internationalisation of research activities in Quebec’s institutions of higher education, to attract the best foreign researchers and students, and to promote Quebec universities and college centres for the transfer of technologies abroad. The programme has three components:

- doctoral research scholarships, worth CA$25,000 per year for a maximum of four years;
- postdoctoral scholarships, worth CA$35,000 for one year;
- short-term research or professional development scholarships, worth CA$3,000 per month for a period of up to four months.

Scholarships are available to applicants worldwide who are not Canadian citizens and do not have permanent residency in Canada.

Recipients are also offered an exemption from paying the higher tuition fees required of foreign students and the medical insurance coverage offered by the Régie de l’assurance maladie du Québec.

Closing date: 23 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. University submissions to FRQNT due by 23 September; full applications due by 12 midnight UTC-5 Est, 1 November 2015. This call is repeated once a year.

TOCKHOLM WATER PRIZE
Stockholm International Water Institute

Description:
Stockholm International Water Institute invites nominations for the Stockholm water prize. This honours individuals, institutions or organisations whose work contributes broadly to the conservation and protection of water resources and to the improved health of the planet’s inhabitants and ecosystems. Nominations are accepted in three categories, one of which is research. The research category includes both basic and applied research and regards the development of, and leadership in, new knowledge of:

- natural or physical or technological processes;
- the functioning of complex systems;
- development of new ecological, economical, legislative, institutional or administrative principles applicable to sustainable water management. Self nominations are not allowed. The prize includes an award of US$150,000

Closing date: 25 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

ARY NEIL PRIZE FOR INNOVATION IN DRUG DEVELOPMENT
American Society for Clinical Pharmacology and Therapeutics

Description:
The American Society for Clinical Pharmacology and Therapeutics is soliciting nominations for the Gary Neil prize for innovation in drug development. The goal of this award is to stimulate the application of innovative science to clinical drug development by recognizing individuals or teams who have been leaders in this area.

Individuals, as well as teams, who have demonstrated leadership in the application of significant, innovative science to clinical drug development, are eligible to apply. The award is open to individuals from all clinical pharmacology employment sectors. Any individual may submit a nomination for an ASCPT award. The award includes a $2,500 honorarium, a plaque and expenses.

Closing date: 25 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. Deadline time: 4pm ET. This call is repeated once a year.

AWLS-PALMER PROGRESS IN MEDICINE LECTURE AND AWARD
American Society for Clinical Pharmacology and Therapeutics

Description:
The American Society for Clinical Pharmacology and Therapeutics is soliciting nominations for the Rawls-Palmer progress in medicine lecture and award. This award aims to incorporate the efforts of modern research in patient care and to help bridge the gap between the results of research and its application in patient care.

The candidate must be an investigator who is actively engaged in high-quality clinical pharmacologic research. The award is presented at the ASCPT annual meeting.
where the recipient will present a lecture focusing on recent developments in clinical pharmacology. Any individual may submit a nomination for an ASCPT award. The award includes a US$1,000 honorarium, a plaque and expenses.

Closing date: 25 Sep 16 (Forecast)

NITSCHKOW PRIZE
European Atherosclerosis Society

Description:
The European Atherosclerosis Society invites nominations for the Anitschkow prize. This recognises outstanding research in the field of atherosclerosis and linked metabolic disturbances.

All candidates must be nominated by a member of the society. The candidate is required to be an active researcher with an excellent track record of publications in the atherosclerosis area.

The winner receives a medal, a prize worth €10,000 and will be invited to present the Anitschkow lecture at the EAS congress.

Closing date: 25 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. Nominations are invited between 25 August and 25 September 2015. This call is repeated once a year.

AID INNOVATION CHALLENGE
AidEx

Description:
AidEx invites applications for its aid innovation challenge. This challenge aims to find new ideas for products and services for the humanitarian and development sector.

Design agencies, engineering companies and budding young designers and engineers who are not currently working for a company or organisation may apply.

Shortlisted entrants will be required to attend AidEx 2015 held in Brussels on 18 and 19 November, where they will pitch their concept to a panel of judges. Prizes will be awarded in two categories: the best individual entry will receive a grant of £3,960 to develop their idea, while the best business entry will win a free exhibition stand at AidEx 2016.

Closing date: 25 Sep 16 (Forecast)

HD STUDENTS RESEARCH GRANTS
International Olympic Committee

Description:
The International Olympic Committee invites proposals for its PhD students research grants. These support doctoral research with a humanities or social sciences perspective on the Olympic movement, and facilitate access to IOC historical archives, library collections and image archives. Applicants may apply for one of the following categories:

- category A – open subject, on any aspect of the Olympic movement;
- category B – national Olympic committees’ policy priority, on topics
of interest to the National Olympic Committees of their country.

All current postgraduate students enrolled on a PhD degree programme may apply. Applicants must be fluent in French or English.

Grants are worth up to US$8,000 each.

Closing date: 25 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.
Posted date: 31 Jul 15
Award type: Access to libraries, Travel for research purposes, Financial aid for postgraduate students, Thesis/Dissertation funding, Directed grants for individual investigators
Award amount max: $8,000

MEGA PHD SCHOLARSHIP PROGRAMME
Microsoft Corporation

Description:
Microsoft Research invites applications for its EMEA PhD scholarship programme. This supports collaborative research projects jointly carried out by Microsoft Research Cambridge and PhD supervisors from academic institutions in Europe, the Middle East and Africa. Proposals must address one of the following research areas:

- computational science;
- computer-mediated living;
- constraint reasoning;
- machine learning and perception;
- online services and advertising;
- programming principles and tools;
- Cambridge systems and networking.

If selected, supervisors will have up to one year to find the best possible student to undertake the chosen research project.

Each Microsoft scholarship consists of an annual bursary for a period up to a maximum of three years. The amount varies in different countries and may depend on specific arrangement with public research funding agencies.

Closing date: 26 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. Applications due by 5pm GMT. This call is repeated once a year.

ACR/AMERICAN CANCER SOCIETY AWARD FOR RESEARCH EXCELLENCE IN CANCER EPIDEMIOLOGY AND PREVENTION
American Association for Cancer Research

Description:
The American Association for Cancer Research and the American Cancer Society invite nominations for their award for research excellence in cancer epidemiology and prevention. This honours an individual investigator for outstanding research accomplishments in the fields of cancer epidemiology, biomarkers and prevention.

Candidacy is open to all cancer researchers who are affiliated with any institution involved in cancer research, cancer medicine or cancer-related biomedical science anywhere in the world. Self-nominations are not accepted.

The award includes a cash prize of US$5,000, and support for the winner and a guest to attend the AACR annual meeting, where the winner will give a 50-minute lecture.

Closing date: 29 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

ACR PRINCESS TAKAMATSU MEMORIAL LECTURESHP
American Association for Cancer Research

Description:
The American Association for Cancer Research invites nominations for the Princess Takamatsu memorial lectureship. This recognizes an individual scientist whose novel and significant work has had or may have a far-reaching impact on the detection, diagnosis, treatment or prevention of cancer, and who embodies the dedication of the princess to multinational collaborations.

Candidacy is open to all cancer researchers who are affiliated with any institution involved in cancer research, cancer medicine, or cancer-related biomedical science anywhere in the world. Self-nominations are not accepted.

The award includes a cash prize of US$10,000 and support for the winner and a guest to attend the AACR annual meeting, where the winner will give a 50-minute lecture.

H
2020-MSCA-COFUND-2016 MARIE SKLODOWSKA-CURIE CO-FUNDING OF REGIONAL, NATIONAL AND INTERNATIONAL PROGRAMMES
Horizon 2020: Excellent Science

Description:
The European Commission Horizon 2020: Excellent Science invites proposals for its H2020-MSCA-COFUND-2016 Marie Sklodowska-Curie co-funding of regional, national and international programmes call. This aims to stimulate regional, national or international programmes to foster excellence in researchers’ training, mobility and career development. This will be achieved by co-funding new or existing regional, national and international programmes to open up to and provide for international, intersectoral and interdisciplinary research training, as well as transnational and cross-sectoral mobility of researchers at all stages of their career. Applications may be submitted for:

- MSCA-COFUND-DP doctoral programmes;
- MSCA-COFUND-FP fellowship programmes.

Beneficiaries in these programmes must be legal entities established in an EU member state or associated country, including Switzerland, that fund or manage doctoral or fellowship programmes for researchers. All H2020 funding calls allow third country partners who secure their own funding to participate in consortia.

The remuneration costs provided for researchers recruited under an employment contract will not be lower than €2,597 for early-stage researchers and €3,675 for experienced researchers. The remuneration costs provided for researchers recruited under a status equivalent to a fixed-amount fellowship will be at least €1,298 for early-stage researchers and €1,837 for experienced researchers. Funding will support eligible researchers for a minimum of three months. The indicative budget for this call is €80 million.

Ref: OJ C 6776.

Closing date: 29 Sep 16
Deadline information: Proposals invited between 14 April and 5pm Brussels time, 29 September 2016.

AILLET LATOUR HEALTH PRIZE
Baillet Latour Fund - Fonds Baillet Latour

Description:
The Baillet Latour Fund, in collaboration with the National Fund for Scientific Research, invites nominations for the Baillet Latour health prize. This recognises achievements in biomedical research for the benefit of human health and encourages the laureate in the pursuit of his or her career. The theme for 2017 is neurological diseases.

Scientists of any nationality who have not previously received an equivalent prize for their personal use may be nominated. Exceptionally, the prize may be shared by two people who have collaborated closely over a long period.

The prize is worth €250,000.

Closing date: 30 Sep 16

**LAIN BENSOUSSAN FELLOWSHIPS**
*European Research Consortium for Informatics and Mathematics*

**Description:**
The European Research Consortium for Informatics and Mathematics invites applications for the Alain Bensoussan fellowship programme. This enables early-career scientists to conduct research at leading European centres outside their own country. Research must align with the following topics: computer applications, computer systems organisation, computing methodologies, computing milieux, data, hardware, information systems, mathematics, mathematics of computing, software, theory of computation and other related disciplines.

Applicants must have obtained a PhD degree during the last eight years, or be in the last year of their thesis work, although the PhD degree must be completed before the start of the fellowship programme. Applicants must be fluent in English. Member institutes may not host a candidate of the same nationality.

Fellowships last for 12 months and each fellow receives a monthly allowance worth between €1,230 and €3,550, depending on the host country, and is reimbursed for travel expenses. Fellows must spend at least one week visiting another ERCIM member institute.

**Closing date:** 30 Sep 16  
**Deadline information:**  
**Posted date:** 16 May 16  
**Award type:** Networking/collaboration, Travel for research purposes, Early-Career fellowships, Travel to conferences, meetings etc., Young investigator awards

**BIOMEDICAL PRIZE**
*Wiley Foundation*

**Description:**
The Wiley Foundation invites nominations for its prize in biomedical sciences. This recognises breakthrough research in the pure or applied life sciences that is distinguished by its excellence, originality and impact on the understanding of biological systems and processes.
The award may recognise a specific contribution or series of contributions by scientists or research teams that demonstrate significant leadership in the development of research concepts or their clinical application. Preference will be given to research that champions novel approaches and challenges accepted thinking in the biomedical sciences. Self-nominations are not accepted.

This prize is worth US$35,000.

NAS AWARD FOR THE INDUSTRIAL APPLICATION OF SCIENCE
National Academies

Description:
The National Academies invites nominations for its NAS award for the industrial application of science. This award recognises original scientific work of intrinsic scientific importance which has significant beneficial applications in industry, with specific focus on the field of bio-energy. There are no age or nationality restrictions, nor condition of NAS membership. The prize is worth US$25,000.

Closing date: 30 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder but this is the approximate deadline we expect. Submissions are due by 11.59 pm EDT.
Posted date: 31 Jul 13
Award type: Prizes
Award amount max: $25,000
Award amount min: -
Award budget total: -
International Council of Ophthalmology

Description:
The International Council of Ophthalmology invites applications for its international fellowships. This enables young ophthalmologists below 40 years of age from developing countries to improve their practical skills and broaden their perspectives of ophthalmology.

Fellows are expected to return to their home countries and take part in programs to preserve and restore vision. Fellowships generally last for three months. The grant covers the fellow’s travel expenses and three-month living expenses in the host country.

Closing date: 30 Sep 16
Deadline information: Deadlines on: 30 September 2016, 31 March 2017, and repeated annually.
Posted date: 04 Feb 11
Award type: Postdoctoral training fellowships, Travel for research purposes

**ERNAND BRAUDEL SENIOR FELLOWSHIPS**

*European University Institute*

**Description:**
The European University Institute invites applications for the Fernand Braudel senior fellowships. These enable established academics with an international reputation to pursue their research at the EUI. Fellowships are offered at the following departments: economics, law, history and civilisation, and political and social sciences.

Established academics of any nationality may apply. They must have an international reputation and a good knowledge of English.

Fellowships last between three and 10 months and the monthly stipend is worth up to €3,000.

**Closing date:** 30 Sep 16

**Deadline information:** Applications due by 12 midnight CEST. Some departments may consider applications for only one of the annual deadlines. Deadlines on: 30 September 2016, 30 March 2017, and repeated annually.

**Posted date:** 28 Jan 16

**Award type:** Senior fellowships

**Award amount max:** €30,000

Description:
The Society of Automotive Engineers invites nominations for the SAE/Timken-Howard Simpson automotive transmission and driveline innovation award. This award recognizes an engineer from the automotive industry for outstanding contributions to the technology progress and dissemination in the area of automotive transmission and driveline. The award recognizes new ideas, concepts, innovations or applications that will assist in improving this technology.

The recipient will be recognized as an individual and not as an organization or company. The award consists of an engraved crystal award and a $2,000 honorarium.

Nominees must be SAE members or be involved with SAE activities.

Closing date: 30 Sep 16 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

YASUO SAKAKIBARA PRIZE
American Studies Association

Description:
The American Studies Association invites applications for the Yasuo Sakakibara prize. This prize is awarded to international scholars who have had papers accepted for the association's annual meeting. Papers may focus on any aspect of American history, culture or society.

Scholars or practitioners whose institutional affiliation is outside the US are eligible. The winning author must be a member of the American Studies Association or an affiliated international American studies association.

The prize consists of a certificate and $500.

Closing date: 30 Sep 16 (Forecast)
SACKS PRIZE  
Association for Symbolic Logic

Description:
The Association for Symbolic Logic invites nominations for the Sacks prize. This is awarded for the most outstanding doctoral dissertation in mathematical logic.

The thesis must have been defended by 30 September in the year of nomination. Nominations should be made by the thesis advisor. There are no restrictions on the nationality of the candidate or the university where the doctorate is granted. Theses may be submitted in any language, provided that the candidate also supplies a summary of the thesis in English.

The prize consists of a cash award and five years’ membership in the association.

Closing date: 30 Sep 16 (Forecast)

HD INTERNSHIPS
World Institute for Development Economics Research of the United Nations University

Description:
The World Institute for Development Economics Research of the United Nations University invites applications for its PhD internships. These offer registered doctoral students an opportunity to utilise the resources and facilities at UNU-WIDER for their PhD dissertation or thesis research, and to work with researchers in areas related to developing economies. Internships typically last from two to three months and take place in UNU-WIDER’s facilities in Helsinki, Finland. PhD interns prepare one or more research papers and present a seminar on their research findings. They may also have the opportunity to publish their research in UNU-WIDER’s working paper series.

Applicants must be enrolled in a PhD programme and have shown ability to conduct research on developing economies. Candidates working in other social sciences may apply, but should keep in mind that UNU-WIDER is an economics-focused institute. Fluent oral and written English skills are required. Preference is given to applicants who are living or working in developing countries, and who are at later stages of their PhD.

Internships include a travel grant, medical insurance and a monthly stipend of €1,600 to cover living expenses in Helsinki.

Closing date: 30 Sep 16
Deadline information: Applications are invited between 1 March and 11.59pm EET, 31 March, and 1 September and 11.59pm EET, 30 September annually. Deadlines on: 30 September 2016, 31 March 2017, and repeated annually.

CEA EUROTALENTS FELLOWSHIPS
Commissariat à l’Énergie Atomique et aux Énergies Alternatives - French Atomic Energy Commission

Description:
The French Atomic Energy Commission invites applications for its Eurotalents fellowships. These aim to give researchers international experience and widen their scientific skills. Proposals must address one of the following research fields: Energy, environment and climate change; key enabling technologies; life sciences and biotechnology; high energy physics, high energy density physics, and physics of the universe.

Two types of fellowships are available:

- incoming fellowships to financially support international scientists to initiate and carry out an innovative research project in one of the CEA laboratories;
- outgoing fellowships to financially support scientists with a research project in a partner laboratory established outside France and that identifies a CEA laboratory as a return host laboratory after the training period to be funded.

To be eligible for an incoming fellowship, applicants must not have lived in France for more than 12 months in the three years prior to the submission of their research proposal.
To be eligible for an outgoing fellowship, applicants must not have lived in their potential outgoing country for more than 12 months in the two years prior to the submission of their research proposal. Only researchers with at least four years experience after their master’s degree, or in possession of a PhD, may apply.

Around 150 one to three-year fellowships are available. Monthly grants vary from €3,450 to €5,350, including mobility allowance. 20 per cent of the grant will go to towards pension funds and insurance.

Closing date: 30 Sep 16

DOCTORAL GRANTS
Institut Pasteur

Description:
The Institut Pasteur International Network invites applications for its doctoral grants. These support the completion of doctoral theses within the network’s Calmette and Yersin programme. The research topic can be related to any theme developed in laboratories within the International Network Institutes. The goal is to promote mobility opportunities for young scientists and for that reason should the internships be completed outside the applicants’ home country or the country where they attended university.

Applicants must hold a master’s degree or equivalent diploma and be enrolled at the doctoral school to which the host laboratory is affiliated. Candidates who have already

OCTGRADUATE GRANT SCHEME
International Association of Sedimentologists
started their thesis cannot apply. The program is open to all nationalities.

Funding is available for three years and covers living and insurance expenses worth €1,400 per month, and one return air fare.

Closing date: 30 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. Applications are invited between late March and 30 September. This call is repeated once a year.

ORLAUG COCOA FELLOWSHIPS FOR WESTERN AFRICA
US Department of Agriculture

Description:
The US Department of Agriculture, in cooperation with the World Cocoa Foundation, invites applications for the cocoa Borlaug fellowship programme. This initiative provides fellows with skills and knowledge to help their countries become more competitive in producing and exporting cocoa and cocoa products. Fellows will work one-on-one with a US mentor who will later visit the fellow’s home institution to continue the collaboration. Research priorities include:

- genomics, genetics and breeding;
- plant propagation methods;
- pests and diseases – plant pathology and control methods, particularly cocoa mirids, swollen shoot virus and black pod rot;
- soil fertility and plant nutrition;
- agroforestry;
- climate change – sustainable agriculture practices.

Applications are open to citizens of Cameroon, Cote d’Ivoire, Ghana, Liberia and Nigeria. Applicants must be fluent in English, have completed a master’s degree or higher, and be in the early or middle stage of their career, with at least two years of practical experience. Candidates must be employed by a university, government agency or research entity in their home country and demonstrate their intention to continue working in their home country.

Fellows are hosted at a US research institution for up to 12 weeks.
Closing date: 30 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

ETER JONES MEMORIAL AWARD
Estuarine Coastal Sciences Association

Description:
The Estuarine Coastal Sciences Association invites applications for the Peter Jones memorial award. This recognises a postgraduate student for a research publication that has made a major contribution to knowledge in estuarine science, technology and management.

Applicants must be members of the association, but may be from anywhere in the world. Current PhD or master’s research students, as well as those who have held a degree for a maximum of 12 months, may apply.

The award is worth £500.

Closing date: 30 Sep 16

Deadline information: This call is repeated once a year.

EUROPEAN PHD DISSERTATION AWARD
Freshwater Biological Association

Description:
The Freshwater Biological Association, sponsored by the European Federation for Freshwater Sciences, invites nominations for the European PhD dissertation award. This award recognises the best PhD dissertation in Europe within the field of freshwater science. The winner is required to give a lecture on their PhD dissertation topic at the association’s next meeting.

Candidates must have submitted their thesis in Europe, and must be members of the association in good standing at the time the dissertation is submitted through to the time of the award presentation. The association will accept nominations from the UK, and also consider submissions from members outside the UK who do not have their own national, federated association.

The prize consists of a diploma and a grant towards registration fees, travel and accommodation for the next European Freshwater Sciences symposium. In addition, two subsidiary prizes are awarded for attendance at the symposium.

Closing date: 30 Sep 16
Deadline information: Nominations due by 30 September 2016; final theses due by 5 January 2017. This call is repeated every 2 years.

COMING SOON: NUCLEAR PHYSICS GROUP PRIZE
Institute of Physics

Description:
*** The Institute of Physics’ nuclear physics group will shortly be inviting nominations for its prize. The closing date is expected to be 30 September 2015 and further call details will be announced in August or September 2015. The following information is subject to change. ***

This prize recognises outstanding early-career scientists for contributions to nuclear physics.

Each candidate should have no more than five years’ postgraduate and postdoctoral research experience, excluding career breaks, and should be working in the applications of nuclear physics or the nuclear and nuclear-related industries.

The prize is worth £250.

Closing date: 30 Sep 16 (Forecast)
Deadline information: !! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

LEXANDRIA SICOT FELLOWSHIP
International Society of Orthopaedic Surgery and Traumatology

Description:
The International Society of Orthopaedic Surgery invites applications for the Alexandria SICOT fellowship. This enables surgeons to receive training in different specialised departments at the Hadra Orthopaedic and Traumatology University Hospital in Alexandria, Egypt. The candidate may train in up to two departments, including arthroplasty, arthroscopic surgery, spinal surgery, paediatric surgery, microsurgery, hand surgery and orthopaedic surgery.

Applicants should be SICOT members of at least two years standing, who have at least four years of professional experience. Applicants must be 40 years or under at the beginning of the fellowship.
Two fellowships are available. They cover travel expenses up to €1,000 and accommodation for the six-month duration of the fellowship.

Closing date: 30 Sep 16
Deadline information: This call is repeated once a year.
Posted date: 26 Jan 16
Award type: Travel for research purposes, Early-Career fellowships, Predoctoral fellowships, Mid-Career fellowships, Personal development, Young investigator awards
