PROGRAMME FOR SCIENTISTS FROM ECONOMICALLY DEVELOPING NATIONS *Society of Vertebrate Paleontology*

Description:

The Society of Vertebrate Paleontology invites applications for its programme for scientists from economically developing nations. The programme enables scientists from nations with developing economies to present research in any area of vertebrate palaeontology at the society's annual meeting. The award supports travel and conference costs. Eligible expenses include airfare, lodging, alimention, domestic transportation, registration costs, travel visa and poster printing costs.

To be eligible applicants must have citizenship in, and currently reside in, an economically disadvantaged nation, as defined by a ranking of less than 0.75 on the UN development index. Applicants must also be the first author on a submitted abstract for an oral or poster presentation.

Closing date: 10 Apr 15 (Forecast)

Deadline information: !! Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated once a year.

FINANCIAL SUPPORT FOR NEUROCHEMISTRY CONFERENCES AND SYMPOSIA *International Society for Neurochemistry*

Description:

The International Society for Neurochemistry's Conference Committee invites applications for its financial support. This supports organisation of small conferences on specialised neurochemical topics and sponsors neurochemistry symposia within meetings of other scientific societies or groups. A symposium is a session within a meeting that normally consists of three to five presentations.

Proposed conferences or symposiums should deal with an important and up-to-date topic of neurochemistry, and be international, preferably intercontinental, as reflected by the composition of the organising committee, the list of prospective invited speakers and the countries of origin of the expected attendees. Applications for local conferences, full short meetings or satellite meetings will not be considered. The committee strongly discourages applications to support a second consecutive conference or workshop in a series of meetings, or workshops that are organised by one society, one organiser or a group of organisers. Priority will be given to conferences that have not previously received ISN-CC support.

ISN provides funds of up to US\$20,000 for a small conference, at least 60 per cent of which is expected to be used as young neurochemistry awards to facilitate the attendance of young neurochemists. Symposium funding is worth up to US\$7,000, which may be used to cover travel,

registration and accommodation expenses of speakers. Expenses for honoraria, food and social events will not be funded.

Closing date: 30 Apr 15

Deadline information: Applications must be received at least four months before the conference. Deadlines on: 30 April 2015, 31 October 2015, 31 October 2015, and repeated annually.
