# **R** **E-INVITATION PROGRAMME** *Deutscher Akademischer Austauschdienst – German Academic Exchange Service*

## **Description**

The German Academic Exchange Service invites applications for its re-invitation programme.

This enables former research grant or scholarship holders to maintain contact with Germany by spending one to three months conducting research at a university or research institute in Germany.

Applications are welcomed from former DAAD grant or scholarship holders who have been back in their home country for at least three years. They must hold a degree and have an agreement with a host in Germany before applying. Their original funding period must have been at least six months, one year in the case of students from the former East Germany. Applicants working outside the science sector can also apply for funding to cover a work stay at an institution in business, industry, administration, culture or media.

Grants are worth €2,000 per month for assistant professors and lecturers and €2,150 per month for professors for a duration of one to three months. A flat rate travel allowance is also available for some countries.

**Closing date: 01 Oct 14**

**Deadline information: Applicants should check information regarding deadlines for their home country because they may vary from the general deadlines. Deadlines on: 1 October 2014, 1 April 2015, and repeated annually.**

**Posted date: 14 Apr 14**

**Award type: Personal development, Travel for research purposes, Directed grants for individual investigators, Networking/collaboration**

**Award amount max: €6,450**

**Award amount min: €2,000**

## **C**OMPARATIVE PSYCHOLOGY SUBSIDIES

*Royal Netherlands Academy of Arts and Sciences – KoninklijkeNederlandseAkademie van Wetenschappen*

### **Description**

The Royal Netherlands Academy of Arts and Sciences (KNAW) invites applications for funding through the Dobberke Foundation for comparative psychology. This supports scientific research in the fields of behavioural biology and comparative psychology, where animal behaviour is the main focus. Research focusing on human neurobiology or human psychology will not be eligible.

University graduates or PhD holders who are Dutch nationals or who work for a Dutch research institution are welcome to apply.

The total budget available amounts to approximately €38,000. Grants are generally worth between €2,000 and €6,000. In exceptional cases, a project may be funded with up to €10,000. Funding may be used to support research, travel for research purposes

or the organisation of symposia or publications.

**Closing date:** 13 Oct 14 (Forecast)

### **ASCRS TRAVEL SCHOLARSHIP**

*American Society of Colon and Rectal Surgeons*

### Description

The International Council of Coloproctology at the American Society of Colon and Rectal Surgeons invites applications for its ASCRS travel scholarships. The purpose is to assist those currently training in colorectal surgery in countries outside the US and Canada to attend the society's annual scientific meeting.

Applicants must have completed general surgical training and be currently involved in a program of specialized colorectal surgical training in a country in which the speciality is still in development but in which there is a national society or specialist grouping for the purposes of supervision and support. Applicants must also be available to undertake the scholarship at the next ASCRS meeting.

Awards will be funded up to \$3,000 on a matching arrangement which will consist of up to \$2,000 provided by ASCRS, provided the amount is matched by \$1,000 derived through the applicant's national colorectal society or similar organization.

## **I**NTERNATIONAL WORKSHOPS SCHEME

*Biotechnology and Biological Sciences Research Council*

### **Description**

The Biotechnology and Biological Sciences Research Council invites applications for its international workshops scheme. This aims to stimulate joint working in topics important to BBSRC's strategy and to match numbers of scientists from the UK with other countries to identify areas of commonality and explore the potential for international collaboration. The council seeks applications involving collaborations with any other country, although the US, Canada, Brazil, EU member states, Japan, China, India, Australia and New Zealand are particularly encouraged. Workshops can be held overseas or in the UK. The scheme is open to current BBSRC research grant holders and researchers employed at BBSRC-sponsored institutes who are in receipt of BBSRC funding. Consortia of academics may also apply, with one person acting as the lead.

Around eight awards are available, worth approximately £10,000 each.

## **O** OTHER COUNTRIES PARTNERING AWARDS *Biotechnology and Biological Sciences Research Council*

### **Description**

The Biotechnology and Biological Sciences Research Council invites applications for its other countries partnering awards. This supports the development of long-term collaborations with overseas scientists in countries not currently offered through the council's country-specific partnering award schemes. The scheme's aims are:

- to establish partnerships between UK and overseas laboratories;
- to promote the exchange of scientists, particularly early-career scientists;
- to promote access to facilities;
- to enhance collaborative activities with the Consultative Group on International Agricultural Research's centres and programmes.

BBSRC particularly welcomes applications that seek to partner with researchers in South Africa, South Korea, Australia, Mexico, Vietnam, Argentina, Canada, New Zealand and Russia.

Application is open to current BBSRC research grant holders and researchers employed at the National Institutes of Bioscience who are in receipt of BBSRC funding. UK consortia of academics may apply, with one person acting as the lead.

Typically, up to £30,000 is available over a four-year period. Funds can only be used for travel, subsistence and other activities, such as workshops or exchanges.

# **S** **CIENTIFIC PROGRAMMES** *Nordita - Nordic Institute for Theoretical Physics*

## **Description**

The Nordic Institute for Theoretical Physics invites proposals for scientific programmes. A Nordita scientific programme is an extended workshop where a limited number of scientists work together on specific topics for a period of four to six weeks. Programme topics can range beyond the traditional borders of theoretical physics. Scientists in related areas of the natural sciences are encouraged to submit proposals.

Up to 25 participants can be accommodated at any given time. This typically includes a core of eight to 12 internationally recognised leaders in the subject area of the program, five to eight invited Nordic scientists, and a limited number of other applicants including accompanying postdoctoral fellows and PhD students.

Scientific programmes can include focus events, such as conferences, workshops or schools with a higher number of participants for shorter periods.

Members of the international scientific community are invited to propose future programmes.

A maximum of SEK500,000 can be granted per month of programme in support from Nordita. Of this amount a minimum of SEK300,000 should go towards accommodation costs for programme participants. Programmeorganisers are encouraged to seek supplementary funding from other sources.

### **Description**

The Archives and Records Association UK and Ireland invites applications for its international engagement bursaries. These aim to support the association's strategic propositions through the allocation of bursaries for international activities to archivists, records managers and conservators. Bursaries may support the following activities:

- attendance at international conferences;
- training which will assist members in establishing international networks and enable them to take advantage of the global workplace;
- members carrying out international roles;
- international projects.

Applications for activities that will benefit association members as a whole are particularly encouraged. Full, registered, accredited, affiliated and student members of the association who have not received a bursary in the last three years are eligible to apply. Bursaries are worth up to £1,000.

## OPPORTUNITIES FOR DECEMBER 2014

### **C**ONFERENCE AND WORKSHOP GRANTS

Wenner-Gren Foundation for Anthropological Research

#### **Description**

The Wenner-Gren Foundation for Anthropological Research invites applications under its conferences and workshops grant program. Funding of up to US\$20,000 per award is available to fund the following events to foster the creation of an international community of research scholars and advance significant and innovative anthropological research:

- conferences, defined as public events that are comprised primarily of oral and poster presentations to a larger audience of anthropologists. Priority is given to major conferences sponsored by large international anthropological organisations that serve as their annual or periodic meetings. The majority of the funds granted to such conferences are expected to be used towards expenses for international scholars who are making presentations at the conference and would not otherwise be able to attend;
- workshops, are defined as working meetings which focus on developing and debating topical issues in theoretical anthropology. Workshops involve a small group of scholars who meet for a sufficient period of time to deal intensively with the topic. Priority is given to those workshops that devote the majority of time to discussion and debate rather than to the presentation of papers. It is expected that workshops will result in a publication.

Applications must be made by a professional anthropologist who is the primary organiser of the proposed conference or workshop.
