RESEARCH OPPORTUNITIES ALERT!

Issue 21: Volume 2
PRIZES, SCHOLARSHIPS & FELLOWSHIPS

(QUARTER: APRIL – JUNE, 2015)

A Compilation by the

Research Services Unit
Office of Research, Innovation and Development (ORID)
March 2015

AST & PRESENT POSTDOCTORAL FELLOWSHIPS
Institute of Historical Research

Description:
The Institute of Historical Research and the Past & Present Society invite applications for their Past & Present fellowships. These enable postdoctoral students to undertake research in any area of social history at the institute. Preference is given to applicants who demonstrate a broad interest in processes of social, economic, political and cultural change. Fellows must undertake further historical research and writing, and are encouraged to submit their articles or books to the editors of Past & Present.
Application is open to postdoctoral candidates who have recently completed a doctoral degree in history, or who will have submitted their thesis for examination by 1 October in the academic year in which the fellowship is to be held. Applicants may be of any nationality and their PhD may have been awarded in any country. Fellows are not required to reside in London, but should participate in the activities of the institute.
Up to four one-year postdoctoral research fellowships, worth approximately £20,000 each, are available.

Closing date: 11 Apr 15
Deadline information: Applications accepted between 23 January and 11 April 2015. This call is repeated once a year.

Posted date: 04 Nov 14
Award type: Early-Career fellowships, Directed grants for individual investigators

PEARSALL FELLOWSHIP IN NAVAL AND MARITIME HISTORY
Institute of Historical Research

Description:
The Institute of Historical Research invites applications for the Pearsall fellowship in naval and maritime history. This supports a one-year postdoctoral research fellowship in naval and maritime history in the broadest sense, anywhere in the world, from the fall of the Roman Empire in the west up to the present day.
This fellowship is intended as a first academic post for recent doctoral graduates. Applicants must already have submitted their doctoral thesis for examination, or be prepared to do so by 1 October of the academic year in which the award is to be held. Applicants who already hold doctorates must have been awarded them in the five years prior to October 2014. Applicants may be of any nationality, and their PhD may have been awarded in any country.

Closing date: 11 Apr 15
Deadline information: Applications accepted between 23 January and 11 April 2015. This call is repeated once a year.

YOUNG ENDOCRINOLOGISTS’ PRIZE LECTURES
Society for Endocrinology

Description:
The Society for Endocrinology invites abstracts for its young endocrinologists’ prize lectures. These enable young endocrinologists to gain recognition for their work, present a lecture at the society’s annual conference and publish a review article on the subject of their lecture in one of the society’s journals.
Applicants must be members of the society, either a scientist-in-training or clinician-in-training. The society awards one basic science and one clinical prize lecture. Each prize is worth £750.

Closing date: 11 Apr 15
Deadline information: This call is repeated once a year.
Posted date: 17 Dec 14
Award type: Prizes
Award amount max: £750

RADIATION SCIENCE AND TECHNOLOGY AWARD
American Nuclear Society

Description:
The American Nuclear Society invites applications for its radiation science and technology award. This award recognizes outstanding creative applications of radiation sciences and engineering principles. Qualification is based on meritorious scientific and engineering achievement that has important implications for radiation science and technology. The work may have been performed at any time in the past, but the findings must have been reported in peer-reviewed scientific journals. Also the feasibility of industrial application must have been established although the work need not be in widespread use at the time of the award. Any member of the ANS can nominate a candidate, who does not have to be an ANS member. The recipient will receive an engraved plaque and a US$2,000 monetary award.

Closing date: 15 Apr 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated once a year.
Posted date: 23 Oct 07

SHORT-TERM FELLOWSHIPS
Smithsonian Institution

Description:
The Smithsonian Tropical Research Institute invites applications for its short-term fellowships. These provide graduate students with support to carry out short-term research projects in the topic areas of the STRI research under the supervision of staff scientists, research associates, postdoctoral fellows and lab managers. Smaller projects that are part of a larger thesis or dissertation are encouraged and exceptional exploratory projects or pilot studies with well-defined goals and methods may also be considered. Projects may have a maximum duration of three months. Proposals without the support of named advisors who are members of the STRI scientific staff will not be considered. Fellowships may provide a stipend to cover living expenses, worth US$800 per month, a research allowance worth up to US$2,000 and round-trip coach airfare. Proposals may be submitted in English or Spanish.

Closing date: 15 Apr 15
Posted date: 19 Mar 14
Award type: Financial aid for postgraduate students, Travel for research purposes, Directed grants for individual investigators, Predoctoral fellowships, Thesis/Dissertation funding

FELLOWSHIPS FOR NON-DUTCH SCHOLARS
Netherlands Institute for Advanced Study in the Humanities and Social Sciences

Description:
The Netherlands Institute for Advanced Study in the Humanities and Social Sciences (NIAS) invites applications for its fellowships for non-Dutch scholars. These enable prominent researchers and senior scholars in the humanities and social sciences to undertake research at the institute. Applicants should have at least three years of postdoctoral academic experience and they should already have made a contribution to their field. The applicants' achievements and the added value of the proposed project for the Dutch scientific community are given special consideration in the evaluation process. Applications by former NIAS fellows and scholars at the end of their career are given low priority.

Fellows receive an office at the institute and a studio or family apartment at a subsidised rate. Travel costs for relocating to the NIAS may be reimbursed, and a stipend may be available if the fellow’s home institution cannot cover the fellow’s salary for the duration of the stay at NIAS.

Stipends range from €2,600 to €3,800 per month for a full academic year, from 1 September to 30 June, or for one semester only.

Closing date: 15 Apr 15
Deadline information: This call is repeated once a year.

FELLOWSHIPS
Harvard University

Description:
Harvard University’s Aga Khan programme for Islamic architecture invites applications for its fellowships. These support advanced historical research in Islamic art, architectural history and archaeology.

Applications are welcome from both established scholars and recent graduates. Grants are primarily intended for overseas scholars, preferably from Muslim countries. Research projects that are publishable in Aga Khan programme annual publication are preferred. Applicants must have a doctoral degree and a solid command of English. Fellowships range between three and nine months and fellows are expected to remain in residence in the Harvard area. Fellows have an affiliation with Harvard University’s Department of History of Art and Architecture. They are free to pursue their own research, audit Harvard seminars and are given access to Harvard’s extensive library system as well as the university’s museums. Stipends are worth up to US$27,000.

Closing date: 15 Apr 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated once a year.

INTERNATIONAL SCHOLARS PROGRAMME
Society for the History of Technology

Description:
The Society for the History of Technology invites nominations under its international scholars programme. The purpose is to support the careers of scholars from countries outside the US and Western Europe but also to support local networks and activities for and by scholars working on the history of technology. International scholars shall act as ambassadors for the society in their countries and regions, both by informing the society about the state and developments of the history of technology in their regions, and by helping to disseminate information about the society and its activities.
Applicants must reside and work in underrepresented countries at the time of selection. The program is open to individuals at any rank. Nominations may be made by
any member of the society, including self-nomination. The society designates up to four scholars for a two-year term.

**Closing date:** 15 Apr 15  
**Deadline information:** This call is repeated once a year.

**MELVIN KRANZBERG DISSERTATION FELLOWSHIP**

*Society for the History of Technology*

**Description:**

The Society for the History of Technology invites applications for the Melvin Kranzberg dissertation fellowship. This is presented to a doctoral student engaged in the preparation of a dissertation on the history of technology. Funding is available to support dissertation-related research and writing expenses, including travel to archival collections, photocopying or microfilming, and translation of documents. Students from institutes of higher learning anywhere in the world who are working on projects relating to the history of technology may apply, and candidates from outside the US are particularly encouraged. Applicants must have completed all requirements for their doctorate except for the dissertation by 1 September of the year the award is made. The fellowship award is worth US$4,000.
CO PRIZE
International Commission for Optics

Description:
The International Commission for Optics invites nominations for its ICO prize. The prize is given to an individual who has made a noteworthy contribution to optics, opening a subfield or significantly expanding an established subfield in research or technology. The character of the work of successive prize recipients should preferably alternate between predominantly experimental or technological and predominantly theoretical. The applicant’s contribution must have been published or submitted for publication before they have reached the age of 40, and they must be no older than 40 before 31 December of the year in which the prize is awarded. The prize is preferably given to an individual, but it can be shared by two persons. The prize includes a US$2,000 award and US$1,000 for travel expenses.

SAMUEL ELEAZAR AND ROSE TARTAKOW LEVINSON PRIZE
Society for the History of Technology

Description:
The Society for the History of Technology invites nominations for the Samuel Eleazar and Rose Tartakow Levinson prize. This is awarded for a single-authored, unpublished essay in the history of technology that explicitly examines, in some detail, a technology or technological device or process within the framework of social or intellectual history. The prize is intended for younger scholars and new entrants to the profession. Manuscripts already published or accepted for publication are not eligible. Manuscripts must be written in English and approximately 7,500 words in length, not including notes. The winning manuscript will be considered for publication in Technology and Culture. The prize consists of a cash award and a certificate.

BERNARD S FINN INSTITUTE OF ELECTRICAL AND ELECTRONICS ENGINEERS HISTORY PRIZE
Society for the History of Technology

Description:
The Society for the History of Technology invites nominations for the Bernard S Finn Institute of Electrical and Electronics Engineers history prize. This is awarded to the best paper in the history of electrotechnology published during the preceding year. Papers may focus on the history of power, electronics, telecommunications or computer science; however, any article published in a learned periodical is eligible if it treats the art or engineering aspects of electrotechnology and its practitioners. The article must be written in English, although the journal or periodical in which it appears may be a foreign language publication. The prize consists of a certificate and US$500.

POSTDOCTORAL FELLOWSHIPS
Cystinosis Research Foundation

Description:
The Cystinosis Research Foundation invites applications for its postdoctoral fellowships. These aim to attract qualified, promising investigators to establish careers in cystinosis research.

First priority will be given to named postdoctoral trainees. However, investigators who are already studying cystinosis can apply for a fellowship position with the expectation of attracting a suitable postdoctoral fellow within a year. Predoctoral students, who are
already studying cystinosis, will be considered if funding is available. The fellow’s stipend should be the usual amount for such a trainee at that institution. The award is worth up to US$75,000 per year for one to three years.

Closing date: 15 Apr 15 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect. Applications due by 12 midnight PT. This call is repeated 2 times a year.

JONATHAN EBERHART PLANETARY SCIENCES JOURNALISM AWARD
American Astronomical Society

Description:
The American Astronomical Society invites nominations for the Jonathan Eberhart planetary sciences journalism award. The purpose is to recognize and stimulate distinguished popular writing on planetary sciences. Planetary science includes the multidisciplinary study of the solar system and its members, as well as other planetary systems and their members, excluding work dealing primarily with the sun or the Earth. Entries must:

- have been published at any time during the two years preceding the award;
- be written by journalists or feature writers;
- be newspaper, magazine or web articles;
- be submitted by the journalist or by a third party.

The award includes a US$1,000 cash prize and personal and travel expenses.

Closing date: 15 Apr 15 (Forecast)

Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated once a year.

Description:
The European investment bank invites nominations for two awards under the EIB prize theme.
The topic for this year is innovation, market structure and competitiveness. Prizes will be awarded for research which assesses the interaction between company size and market structure and the impact of investment decisions on innovation and productivity in different sectors. Special consideration will be given to work comparing the European experience with that of other large advanced or emerging economies.
The young economist award honours scholars under the age of 40 on 31 December in the year of the award.
Nominations are also welcome for the outstanding contribution award, which honours scholars for lifetime scientific contributions of specific relevance to the prize’s topic, including academic excellence and publication record and impact on public policy or society at large.
Nominees may be of any nationality.
The outstanding contribution award includes €40,000 and the young economist award €25,000.

Closing date: 15 Apr 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated once a year.

DAVID BIRENBAUM SCHOLARSHIPS
American Association of Bioanalysts

Description:
The American Association of Bioanalysts invites applications for the David Birenbaum scholarships. These provide funding to enable regular and associate AAB members, their spouses, children and grandchildren, to undertake further studies in bioanalytics. Each applicant must meet a minimum educational requirement of graduation from an accredited high school, or equivalent. Applicants do not need to be US-based or US citizens.

Closing date: 15 Apr 15
Deadline information: This call is repeated once a year.
Posted date: 18 Jun 14

ARNARD HEWITT AWARD
American Society for Theatre Research

Description:
The American Society for Theatre Research invites nominations for the Barnard Hewitt award. The purpose is to recognize the best book in theatre history or cognate disciplines published during the previous calendar year. Scholars residing in the Americas, or scholars located outside the Americas but writing on an American topic are eligible to apply. Plays, edited collections and anthologies are not eligible for this prize. Authors wishing to be considered for the award should Contact Details their publishers about nominating them. The award is worth US$2,000.

Closing date: 16 Apr 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated once a year.
**WH PIERCE PRIZE**

*Society for Applied Microbiology*

**Description:**
The Society for Applied Microbiology invites nominations for the WH Pierce memorial prize. The prize rewards an outstanding young microbiologist under the age of 40 who has made a substantial contribution to the science. Nominations may be submitted by full members only. The prize is worth £3,000.

**Closing date:** 17 Apr 15 (Forecast)

Research Career Development Fellowships in Basic Biomedical Science

Wellcome Trust

Description:
The Wellcome Trust, Science Foundation Ireland and the Health Research Board invite applications for their research career development fellowships in basic biomedical science. These enable postdoctoral scientists to become independent research scientists and undertake research at an institution in the Republic of Ireland. Scientists must work across the remits of the following funding streams:

- cellular, developmental and physiological sciences;
- genetic and molecular sciences;
- infection and immunobiology;
- neuroscience and mental health;
- population health.

Applicants should be UK or European Economic Area nationals; non-EEA nationals with a relevant degree from a university in the UK or the Republic of Ireland; or non-EEA nationals who have worked in a UK or Republic of Ireland university, hospital or institution for at least a continuous three-year period. Applicants should have a science or mathematical qualification and be no more than seven years from the date of the PhD viva. A host institution in the Republic of Ireland must also be identified, as well as a sponsor who can guarantee space and resources for the tenure of the awards. Fellowships are tenable for five years and provide a basic salary, research expenses,
overseas allowances, travel and subsistence costs, and provision for public engagement costs.

Closing date: 17 Apr 15
Deadline information: Preliminary applications due by 5pm, 17 April; invited full applications due by 5pm, 19 June 2015. This call is repeated 2 times a year.
Posted date: 22 Dec 14

IR HENRY DALE FELLOWSHIPS
Wellcome Trust

Description:
The Wellcome Trust, in collaboration with the Royal Society, invites applications for the Sir Henry Dale fellowships. These enable postdoctoral scientists who wish to build their own UK-based independent research career to address an important biomedical question. Research can range from the molecules and cells vital to life and their role in the global spread of disease, to clinical and public-health research seeking to improve the quality of healthcare. It can be based in the laboratory, clinic or field, and may involve experimental or theoretical approaches.
Applicants are expected to have relevant scientific or mathematical qualifications and be no more than seven years from the date of receiving their PhD. Applicants must be:
• a UK or EEA national;
• a non-EEA national who either has a relevant degree from a UK university, or has worked in the UK for at least a continuous three-year period;
• an exceptional biomedical scientist who does not fall within the categories above and whose recruitment to the host organization would be advantageous to both the applicant and the organization.
In addition, candidates must have made intellectual contributions to research that have been published in leading journals, and be
Applicants must also have an eligible sponsoring host organization in the UK that can guarantee support and adequate space and resources for the duration of the award. Fellowships are tenable for five years in the first instance, with the potential to apply for competitive renewal for an additional three years. Funding covers a basic salary plus an enhancement of £7,500 per year, research expenses, travel and subsistence, and overseas allowances. In addition, the funders will provide an inflation and flexible funding allowance, as well as a contribution towards indirect and estate costs of £11,000 per year.

Closing date: 17 Apr 15  
Deadline information: Preliminary applications due by 5pm, 17 April; invited full applications due by 5pm, 19 June 2015. This call is repeated 2 times a year.

SCHOLARSHIPS  
Environmental Research and Education Foundation

Description:  
The Environmental Research and Education Foundation invites applications for its scholarships. These are awarded to recognize excellence in master’s, doctoral and postdoctoral waste management research and education. The following scholarships are available:  
• the Fiessinger doctoral scholarship recognizes excellence in PhD or postdoctoral environmental research and education;  
• the EREF doctoral scholarship recognizes the furthering of education in the solid waste management industry and is available for PhD or postdoctoral candidates;  
• the Robert P Stearns/SCS engineers master’s scholarship expands the EREF
doctoral scholarship programme at master’s level;
• the Robert J Riethmiller/PTR Baler and Compactor master’s scholarship for work relating to the waste industry.

Applications are welcomed from individuals who are or will be during the ongoing year, full-time graduate students and who have a clearly demonstrated interest in solid waste management research. Applications are considered equally from applicants throughout the world.

Doctoral and postdoctoral scholarships are worth up to US$12,000 per year for up to three years. Master’s scholarships are worth up to US$5,000 per year for up to two years.

Closing date: 18 Apr 15 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

Research Fellowship Programme for Foreign Citizens

Scientific and Technological Research Council of Turkey

Description:
The Scientific and Technological Research Council of Turkey invites applications for its research fellowship programme for foreign citizens. This supports PhD students and young postdoctoral researchers to pursue their research in Turkey in the fields of natural sciences, agricultural sciences, engineering and technological sciences, medical sciences, agricultural sciences, social sciences and humanities. The aim is to promote Turkey’s scientific and technological collaboration with countries of the prospective researchers.

Applicants must be non-Turkish citizens, and may not hold a dual citizenship with Turkey either. Applicants should have an invitation from a university or research institute in Turkey. Postdoctoral researchers must be 35 years old or younger, while PhD students must be enrolled in a programme outside Turkey. Applicants who hold a PhD degree from Turkey must have a GPA of at least 3.50/4.00.

Fellowships are available for a maximum of 12 months. Funding includes a monthly living allowance of up to TL2,250, travel costs up to US$1,000, health insurance up to US$1,200 as well as the possibility of a research grant, worth up to TL5,000.

**TEMASEK RESEARCH FELLOWSHIP**
National University of Singapore

**Description:**
The National University of Singapore invites applications for the Temasek research fellowship. This is available to young researchers with a doctoral degree in science or technology wishing to undertake research relevant to defense in the following subjects:
- beamless RF generator;
- high power laser diodes;
- cognitive science for machine technology;
- cyber security;
- machine intelligence - software architecture as autonomy enabler.

Applicants must have postdoctoral work experience as well as hold a PhD in a relevant discipline.

Applicants will have the potential to qualify for a normal academic staff position at the end of the fellowship. They will receive independence to pursue a research career in Singapore, a tenure track academic appointment, a three year flexible research grant of up to SG$1 million with the option to extend for a further three years and attractive and competitive remuneration.

DEVELOPING NATION INSTITUTIONAL MEMBERSHIP
Society of Vertebrate Paleontology

Description:
The Society of Vertebrate Paleontology invites applications for its developing nation institutional membership. This scheme aims to increase access to electronic-based publications and news of the society for institutions based in areas with developing economies. The programme is particularly intended for those who are based at institutions with limited funds. Nominations must be made by current members. Eligibility is limited to institutions established in economically disadvantaged nations, as defined by a ranking of <0.75 UN development index.

Up to five institutions may be selected per year.

Closing date: 22 Apr 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated once a year.

ENIOR NON-CLINICAL FELLOWSHIP
Medical Research Council

Description:
The Medical Research Council invites applications for its senior non-clinical fellowship. This provides non-clinical researchers with a track record of excellence in their scientific field the opportunity to develop themselves into research leaders. Proposals are encouraged across all areas of the research council’s remit from basic studies with relevance to mechanisms of disease to translational and developmental clinical research.
Applicants should hold a PhD or equivalent and have at least six years’ postdoctoral research experience at the time of the application closing date. There are no residence eligibility restrictions for this fellowship. Candidates from outside the UK must establish with their proposed host organization that they may reside and work in the UK prior to applying, and it is the responsibility of the host organization to ensure that all necessary permits are in place for the fellow. The award is not available to individuals who hold a tenured academic position at the time of application. Applicants are encouraged to consider the opportunities to establish collaborative networks and for cross-sector development as the award will support a period of research overseas, at a second UK institution or within industry if appropriate.
The fellowship comprises salary costs, support for research staff, consumables expenses, capital equipment for the research project and travel costs under full economic costs. The fellowship may be awarded for up to seven years.

Closing date: 28 Apr 15
Deadline information: Applications accepted between 17 March and 4pm, 28 April and between 13 August and 4pm, 24 September 2015; applications in 2015 will be accepted between 16 March and 4pm, 27 April and between 12 August and 4pm, 22 September 2016. Deadlines on: 28 April 2015, 24 September 2015, 27 April 2016, 22 September 2016.

INTERMEDIATE FELLOWSHIPS IN PUBLIC HEALTH AND TROPICAL MEDICINE

Wellcome Trust

Description:
The Wellcome Trust invites applications for its intermediate fellowships in public health and tropical medicine. These enable mid-career researchers from low- and middle-income countries to establish an independent research programme. Projects must be in public health or tropical medicine aimed at understanding and controlling human and animal diseases of local, national or global health importance. This may include laboratory-based molecular analysis of field or clinical samples, but projects focused solely on in vitro or animal model studies are not normally considered under this scheme.

Each applicant must be a national or legal resident of a low- or middle-income country and should be a graduate in a subject relevant to public health or tropical medicines with a PhD, or a medical graduate with a higher qualification equivalent to membership of the UK Royal Colleges of Physicians or recognized as a specialist within a relevant research area. Three to six years' postdoctoral or research experience is required. Applicants who do not have a PhD but who are educated to first degree or master's level and have extensive research experience may be considered.

Fellows must be based at an eligible sponsoring institution that will administer the fellowship, and must have a sponsor who holds an established post for the duration of the award and who can guarantee that space and facilities will be available.

Fellowships last for up to five years and include basic salary, research expenses, training costs, funding allowance, travel to meetings and public engagement costs. Research-dedicated costs should not exceed £60,000 per year. Course fees and overseas allowances may also be considered.

Closing date: 29 Apr 15
Deadline information: Preliminary applications due by 5pm, 29 April; invited full applications due by 5pm, 8 July 2015. This call is repeated 2 times a year.
PAUL MARKS PRIZES
Memorial Sloan-Kettering Cancer Center

Description:
The Memorial Sloan-Kettering Cancer Center invites nominations for the Paul Marks prize. The prize recognizes outstanding young investigators who have made significant contributions to increase the understanding of cancer or improve the treatment of the disease through basic or clinical research. The prizes are awarded to up to three investigators, who are 45 or younger on the submission deadline. Up to three winners will present their work at the MSKCC scientific symposium on December 2, 2011 and will share a cash award of $150,000.

Closing date: 29 Apr 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated every 2 years.

BEST PAPER CONTEST
Minerals, Metals and Materials Society

Description:
The Minerals, Metals and Materials Society invites submissions for its annual best paper contest. Papers must be of a technical research nature and may deal with any of the following disciplines: physical and mechanical metallurgy; extractive and process metallurgy; materials science. Graduate students are encouraged to apply. A first prize of $1,000 and a second prize of $500 will be awarded. All applicants must be student members of the society. Applications must be submitted in English.

Closing date: 30 Apr 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated once a year.
Post date: 04 Oct 10
Award type: Student awards, Prizes
Award amount max: $1,000

FOUNDERS AWARD
Biophysical Society

Description:
The Biophysical Society invites nominations for the founders award. The award was established by the society to recognize outstanding achievement in any area of biophysics. These achievements are often reflected in the acceptance of and use by others in the field, either promptly or over a period of years. The award of $1,000 is made annually. Nominees must be members of the society in good standing.

Closing date: 30 Apr 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated once a year.

Fraenkel Prizes in Contemporary History
Wiener Library

Description:
The Wiener Library invites submissions for the Fraenkel prizes in contemporary history. These recognize outstanding unpublished work in the field of 20th century history in one of the library's fields of interest, which include the history of Europe, Jewish history, the two world wars, anti-Semitism, comparative genocide and political extremism.
The library will award prizes in the following two categories:
• category A, which provides US$6,000 for a completed but unpublished book;
• category B, which provides US$4,000 for a completed but unpublished PhD thesis or equivalent. MA theses are not admissible.
The work must be written in English, French or German. Translations and previous submissions are not eligible.

Closing date: 30 Apr 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect.
Submissions due by 5.30pm. This call is repeated once a year.

KURT WEILL PRIZE
Kurt Weill Foundation for Music

Description:
The Kurt Weill Foundation for Music invites applications for the Kurt Weill prize. The purpose of the prize is to encourage distinguished scholarship in the disciplines of music, theater, dance, literary criticism and history addressing 20th century Music Theater including opera. Media may include not only print, but also audio-recording, video-recording, multimedia projects, and online publications, provided there is a tangible scholarly component. Works must have been published in the 2009 and 2010 calendar years. Edited multi-author collections of essays are not eligible in the book category, although single essays from such collections may be nominated in the article category. Works addressing the American music theater are particularly encouraged. Authors of nominated entries need not be members of the sponsoring organizations, nor are there citizenship or language restrictions. Nominations are solicited from individuals, publishers, scholarly societies, and institutions, but self-nominations are encouraged as well. There will be two awards: the author of the winning book entry will receive a cash award of $5,000; and the author of the winning article entry will receive $2,000.

Closing date: 30 Apr 15 (Forecast)

Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated every 2 years.

VANTI AWARD IN LIPIDS
Biophysical Society

Description:
The Biophysical Society invites nominations for the Avanti award in lipids. This award will be given to an investigator for outstanding contributions to the understanding of lipid biophysics. Nominees must have made important and well-recognized contributions to the understanding of lipid biophysics, including the metabolism, enzymology, structure, or function of lipids or lipid membranes. Nominations must be made by a member in good standing of the society. Nominees may be of any nationality or academic rank, and may be affiliated with nonacademic institutions provided that the work for which they are to be recognized has been published in recognized scholarly journals. The winner receives $3,000.

ROYAL COLLEGE OF PHYSICIANS ESSAY PRIZE
Institute of Physics and Engineering in Medicine

Description:
The Institute of Physics and Engineering in Medicine and the Royal College of Physicians invite applications for their essay prize. This recognizes novel work in the form of a jointly written essay which has exploited or developed any aspects of the physics and engineering in medicine and biology. The essay should aim at increasing public awareness of the contribution of physics and engineering in healthcare. It may be either a published article or written with a view to publication.
Applicants must either be members of the society or institute.
The prize is worth £1,000, and winners are invited to IPEM’s conference dinner to receive the award.

GERALD R FORD SCHOLAR AWARD
National Archives and Records Administration

Description:
The National Archives and Records Administration’s Gerald R Ford Presidential Library and Museum invites applications for its scholar award. This annual award of $5,000 is given to a doctoral student to support dissertation research on an aspect of the United States political process and public policy during the last half of the 20th century.
Of special interest is the role and analysis of public opinion in that process. Doctoral students in political science, history, journalism, communications, public policy, foreign relations, or American studies are encouraged to apply. Applicants must have completed all requirements for the PhD program except for the dissertation, by the application deadline. The successful scholar will be required to conduct at least some of the research at the Gerald R Ford library.

Closing date: 30 Apr 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated once a year.

GRAWEMEYER AWARD IN EDUCATION  
University of Louisville

Description:
The University of Louisville invites nominations for the Grawemeyer award in education. This aims to stimulate the dissemination, public scrutiny and implementation of ideas that have potential to bring about significant improvement in educational practice and advances in educational attainment. The award is intended not only to reward the individuals responsible, but also to draw attention to their ideas, proposals or achievements. The award is designed to recognize a specific recent achievement rather than a lifetime of accomplishment.

The award is open to individuals and non-profit organizations. Nominations may be made by professional educators, educational institutions and organizations, or publishers and editors of educational books and journals. Entries must be submitted in English. The award is worth US$100,000, payable in five annual instalments. The winner will be expected to come to Louisville during the second week in April to make a formal presentation based on the winning idea, participate in informal meetings with faculty and students as requested, and to receive the award.

Closing date: 30 Apr 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated once a year.

ILEY HOUSEWRIGHT DISSERTATION AWARD
Society for American Music

Description:
The Society for American Music invites applications for the Wiley Housewright dissertation award. This award is designed to recognize a single dissertation on American music for its exceptional depth, clarity, significance and overall contribution to the field. American is understood here to embrace all of North America, including Central America and the Caribbean, and aspects of its cultures elsewhere in the world. Dissertations from American studies, American history, and other fields beyond theory, musicology, and ethnomusicology are welcome as long as the primary focus of the work is a musical topic. The dissertation must be in English and must have been completed in calendar year 2010. The award consists of a plaque and a cash award.

Closing date: 30 Apr 15 (Forecast)

The International Society for Heart Research invites nominations for its outstanding investigator award. This recognizes a scientist who is making major and independent contributions to the advancement of cardiovascular science and leading a growing research programme likely to play a major role in the future. This award is targeted at established investigators in the intermediate phase of their academic career, of at least assistant or associate professor status or equivalent and normally under the age of 45. Nominees must be active members of the society. Nominations are sought from members of the society. Self-nominations will not be considered.

The winner will present a major lecture, and receive US$3,000, a plaque and free registration and expenses up to a maximum of US$1,500 for continental and US$3,000 for intercontinental travel for the meeting at which he or she will lecture.

Closing date: 30 Apr 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated once a year.

DOCTORAL SCHOLARSHIP PROGRAMME
Institute of Ismaili Studies

Description:
The Institute of Ismaili Studies invites applications for its doctoral scholarship programme. This supports candidates who are interested in pursuing careers in Islamic studies in order to encourage the study of certain neglected areas of Islamic and related studies, and foster a community of scholars in the areas of interest to the institute. Priority is given to proposals that relate to Ismaili history and thought, Shi‘i Islam, Qur’anic studies and Hadith, Fiqh and philosophy. Attention will be given to research proposals that reflect various disciplines such as anthropology, arts and material culture, curriculum and education, literature, musicology, political science and sociology. In addition, proposals that focus on historical studies and contemporary studies will be considered. Research may be focused on any region of the Muslim world. Candidates must have an excellent academic record, and have linguistic competence in languages used by Muslims, ideally Arabic or Persian and at least one other language, as well as in European languages, such as English and ideally at least one other. Preference is given to applicants who have completed the institute’s graduate programme in Islamic studies and history and secondary teacher education programme. The scholarship covers university and college fees for up to three years and provides a living stipend of £12,900 per year. The scholarship is granted on the basis of a 50 per cent grants and 50 per cent loan.

Closing date: 30 Apr 15

**MLA PRIZE FOR A SCHOLARLY EDITION**

*Modern Language Association*

**Description:**
The Modern Language Association invites applications for its prize for a scholarly edition. The association solicits submissions of editions published in 2013 or 2014. A multivolume edition is eligible if at least one volume was published during that period. The prize will be given without regard to the field or language either of the editor or of the text presented in the edition. Applications are welcome from editor’s members and non-members of the association. Publishers may enter more than one title, but no book or edition may compete for more than one MLA prize. The prize, which consists of a cash award and a certificate, will be presented to the winning editor at the association's annual convention.

**Closing date:** 01 May 15  
**Deadline information:** This call is repeated once a year.  
**Posted date:** 09 Sep 13

LDO AND JEANNE SCAGLIONE PRIZE FOR ITALIAN STUDIES
Modern Language Association

Description:
The Modern Language Association invites applications for the Aldo and Jeanne Scaglione prize for Italian studies. The prize is awarded each odd-numbered year to the author of an outstanding scholarly book on any phase of Italian literature or culture or comparative literature involving Italian. This shall include works that study any aspect of Italian literature and culture including literary or cultural theory, science, history, art, music, society, politics, cinema and linguistics, preferably but not necessarily relating other disciplines to literature. The association solicits submission of works published in 2014 by current members of the association. The award, which consists of a cash prize and a certificate, will be presented to the winning author at the association's annual convention in January 2016.

Applications are welcome from MLA members.

POWELL LAWTON AWARD
Gerontological Society of America

Description:
The Gerontological Society of America invites nominations for the M Powell Lawton award. The award recognizes outstanding contributions from applied gerontological research that have benefitted older people and their care. The prize is awarded for a significant contribution in gerontology that has led to an innovation in gerontological treatment, practice or service, prevention, amelioration of symptoms or barriers, or a public policy change that has led to some practical application that improves the lives of older persons.

Nominations must be made or endorsed by a member of the society. Nominees need not be members but should be in the early or mid-stages of their career.
The award includes a US$2,500 cash prize and up to US$1,000 can be made available for the awardee’s travel and per diem expenses.

STOCKHOLM PRIZE IN CRIMINOLOGY
Stockholms Universitet – Stockholm University

Description:
The Swedish National Council for Crime Prevention, in conjunction with the Swedish Ministry of Justice, invites nominations for the Stockholm prize in criminology. This is awarded for outstanding achievements in criminological research or for the application of research results by practitioners for the reduction of crime and the advancement of human rights. Moreover, the objectives of the prize are to promote the development of:
• improved knowledge on causes of crime on an individual and structural level;
• more effective and humane public policies for dealing with criminal offenders;
• greater knowledge of alternative crime prevention strategies inside and outside the judicial system;
• policies for helping the victims of crime;
• better ways to reduce the global problem of illegal or abusive practices that may occur in the administration of justice.

Nominations may be made by any three individual criminologists, any society of criminology or other organization applying or producing criminology. Nominees must be living physical persons.

One prize, worth at least SEK1 million, will be awarded.

Closing date: 01 May 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated once a year.

HUNT POSTDOCTORAL FELLOWSHIPS
Wenner-Gren Foundation for Anthropological Research

Description:
The Wenner-Gren Foundation for Anthropological Research invites applications for the Hunt postdoctoral fellowships. These support early-career investigators with the writing-up of already completed research in anthropology.
The research should demonstrate a clear link to anthropological theory and debates and promise to make a solid contribution to advancing these ideas. Proposals that employ a comparative perspective, generate innovative approaches or ideas, or integrate two or more subfields are particularly welcomed.
Applicants should be scholars who have held their PhD for no longer than 10 years. There are no restrictions on institutional affiliation, country of residence or nationality.

Up to eight fellowships, each of which provides up to US$40,000, are awarded to support periods of up to 12 months.

ELLOWSHIPS
Shuttleworth Foundation

Description:
The Shuttleworth Foundation invites applications for its fellowships. Fellowships are aimed at those who have a plan for social change through innovation in the areas of education and technology, and for those who have a clear vision of a changed world and of their contribution to bringing about this change. This fellowship offers the freedom and financial ability to bring about social change through innovation, as well as an enabling support structure and an existing network of social change agents. The fellowship is not an academic fellowship aimed at research, although research is not
excluded. Preference will be given to action based research or practical implementations of innovative ideas. The fellowship is not limited to any specific geographic location but applicants must be fluent in English. Fellowship applicants must have attained the age of majority by the date of application. Fellowships are for one year, with the possibility of a renewal. The foundation will provide technological, financial and legal support. Grants consist of the equivalent of a year’s salary, a contribution towards expenses and a travel allowance.

Closing date: 01 May 15
Deadline information: Deadlines on: 1 May 2015, 1 November 2015, and repeated annually.
Posted date: 13 Nov 13
Award type: Development (Africa/Caribbean), Directed grants for individual investigators, Innovation grants, Networking/collaboration, Travel to conferences, meetings etc.

CHOLARSHIP AWARD
OPEC Fund for International Development

Description:
The OPEC Fund for International Development invites applications for its scholarship award. This scholarship enables students from developing countries to pursue a master’s degree in a field relating to development or energy studies at any recognized university or college in the world. Studies should pertain to OFID’s core mission, addressing topics such as:
• the economics of development (poverty reduction, energy and sustainable development);
• the environment (desertification);
• other related science and technology fields.

Developing-country nationals aged between 23 and 32 are eligible to apply. Applicants must have obtained or be about to obtain an undergraduate degree or its equivalent from an accredited university or college and have a minimum cumulative grade point average of 3.0 on a 4.0 rating system or equivalent. Applicants must be matriculated at an accredited university for the upcoming academic year prior to application, and must maintain full-time status for the duration of their studies. The scholarship is worth up to US$50,000, to be allocated over a maximum one year, towards the completion of a master’s degree.
Closing date: 01 May 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated once a year.

IRA AND HARRIET REISS THEORY AWARD
Society for the Scientific Study of Sexuality

Description:
The Society for the Scientific Study of Sexuality invites nominations for the Ira and Harriet Reiss theory award. The purpose of the award is to support theoretical advances in social science theories concerning human sexuality. The award is made to the author(s) of the best social science article, chapter, or book published in the previous year in which theoretical explanations of human sexual attitudes and behaviors are developed. In addition to careful theoretical development, stress will be placed on the use of relevant empirical evidence to examine the validity of the theoretical explanations. The publication must have appeared in 2012.
The award consists of US$500 and a plaque. The author(s) will be expected to present a plenary address based on the winning publication at the November annual meeting of the Society for the Scientific Study of Sexuality the next year. To defray expenses associated with the presentation, an additional US$500 will be made available.

Closing date: 01 May 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated once a year.

ALBERT HOURANI BOOK AWARD
University of Arizona

Description:
The University of Arizona's Middle East Studies Association invites nominations for the Albert Hourani book award. The aim of the award is to recognize outstanding publishing in Middle East studies. Areas primarily of interest include Iran, Turkey, Afghanistan, Israel, Pakistan, and the countries of the Arab world from the seventh century to modern times. Spain, southeastern Europe, the Soviet Union and other regions are also included for the periods on which their territories were part of the Middle Eastern empires or were under the influence of Middle Eastern civilization.
To be eligible, books must be non-fiction scholarly monographs based on original research published in English between 1 May 2011 and 30 April 2012. Works not eligible include edited collections and compilations, proceedings of symposia, new editions of previously published books, bibliographies, dictionaries, textbooks and surveys.
The prize consists of a certificate and US$1,000.

**King Faisal International Prize in Arabic Language and Literature**

King Faisal Foundation

**Description:**
The King Faisal Foundation invites nominations for the King Faisal international prize in Arabic language and literature. The 2015 prize will be awarded for a publication relating ventures towards arabisation of scientific and medical matters. Nominations are welcomed from Islamic institutions, universities, research centers and other learned circles. Previous winners may also submit nominations, while nominations from individuals or political parties will not be considered. The award includes a cash prize worth SR750,000 (US$200,000), a certificate and a gold medallion. Should the foundation select more than one winner, the prize money shall be divided among the winners.

**Closing date:** 01 May 15 (Forecast)

**Deadline information:** Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated once a year.

**Posted date:** 14 Apr 14

RITISH CARBON GROUP ROGER TAYLOR MEMORIAL AWARD

Institute of Physics

Description:
The Institute of Physics’ British Carbon Group invites applications for the Roger Taylor memorial award. This enables students and early-career researchers with up to 10 years’ postdoctoral experience to attend an important international meeting for the advancement of fullerene and related science, such as the functionalization of carbon materials such as CNT and graphene. The award is open to scientists of any nationality, living and working in any country. Preference is given to scientists wishing to attend and present at the advanced carbon nanostructures series of biennial conferences organized by Professor Vul in St Petersburg, or a meeting of the Electrochemical Society. The bursary is worth £750.

Closing date: 01 May 15
Deadline information: Applications due by 4pm BST. This call is repeated once a year.
Posted date: 28 Nov 14

Award type: Travel to conferences, meetings etc., Student awards
Award amount max: £750

WORLD FOOD PRIZE

World Food Prize Foundation

Description:
The World Food Prize Foundation invites nominations for its world food prize. This is awarded for a specific, exceptionally significant, individual achievement at any point along the full range of food production and distribution chain. Fields of achievement include:

- soil and land;
- plant and animal science;
- food science and technology;
- nutrition;
- rural development;
- marketing;
• food processing and packaging;
• water and the environment;
• natural resource conservation;
• physical infrastructure;
• transportation and distribution;
• special or extraordinary feeding programmes;
• social organization and poverty elimination;
• economics and finance;
• policy analysis;
• public advocacy.

The prize is intended for one person. Any academic institution, private or public organization, or governmental unit may nominate. The prize is worth US$250,000.

Closing date: 01 May 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated once a year.

EARLY CAREER ELECTROCHEMISTRY PRIZE OF ISE DIVISION 1
International Society of Electrochemistry

Description:
The International Society of Electrochemistry, with support from OrigaLys ElectroChem SAS, invites nominations for its early career analytical electrochemistry prize. This
A compilation of the Research Services of the Office of Research, Innovation & Development (ORID)

recognizes research achievements in the field of analytical electrochemistry made by a scientist under 35 years of age on 1 January of the year of the award. The prize includes €750 and registration and banquet fees for the ISE annual meeting in the following year, where the prize will be awarded.

Closing date: 01 May 15
Deadline information: Applications are invited between 1 February and 1 May 2015. This call is repeated once a year.
Posted date: 01 Sep 14
Award type: Young investigator awards, Prizes
Award amount max: €750

AROSLAV HEYROVSKY PRIZE FOR MOLECULAR ELECTROCHEMISTRY
International Society of Electrochemistry

Description:
The International Society of Electrochemistry invites nominations for the Jaroslav Heyrovsky prize for molecular electrochemistry. This recognizes a scientist who has made an important contribution to the field of molecular electrochemistry in the past five years. Nominations may be made by individuals or institutions, not by candidates themselves. The prize includes €750 and registration and banquet fees for the ISE annual meeting where the prize will be awarded.

Closing date: 01 May 15
Deadline information: Applications are invited between 1 February and 1 May 2015. This call is repeated once a year.

COMING SOON: UNHCR AWARD FOR STATELESSNESS RESEARCH
Tilburg University

Description:
Tilburg University will shortly be inviting applications for its UNHCR award for statelessness research. More information about the 2015 round will be made available in early 2015. The following information is subject to change.
This awards outstanding student research in the field of statelessness. The nominated work must contribute to increasing understanding of the nature and scope of the problem of statelessness, identifying stateless populations and understanding the reasons which have led to statelessness, in particular in regions or within disciplines where little research has been done.
There are three nomination categories:
- undergraduate dissertation, or non-dissertation work of a comparable level by an advanced undergraduate or graduate student;
- master’s dissertation, or work of a comparable level by a doctoral student;
- doctoral thesis.
The nominated work must have been completed between 1 May 2014 and 1 May 2015 and must be written in English.
Three awards from a total prize pool of €3,000 will be granted to the best research at undergraduate, graduate and doctoral levels.
Closing date: 01 May 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. Nominations due by 5pm GMT. This call is repeated once a year.

SCIENCE AND TECHNOLOGY AWARD
Human Proteome Organization

Description:
The Human Proteome Organization invites nominations for its science and technology award. This recognizes an individual or a team who has played a key role in commercialisation of a proteomics technology, product or procedure. The emphasis is on making the technology, product or procedure widely available, which is different from the basic scientific invention. Nominations are open to individuals or teams of up to three people in private industry. Self-nominations will not be accepted.
The award, worth US$3,000, will be presented at the HUPO World Congress, at which the winner must present a talk. Congress registration fees will be waived, but no travel support will be provided.

Closing date: 03 May 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated once a year.

EARLY-CAREER EXCELLENCE IN TEACHING AWARD
American Society for Bone and Mineral Research

Description:
American Society for Bone and Mineral Research invites nominations for its early-career excellence in teaching award. The award recognizes an individual who displays strong commitment to teaching and learning in the classroom, the clinic or research laboratory. Candidates for this award should have made a significant impact on students' intellectual development by providing them with opportunities to develop their interests in bone and mineral-related research. The nominee must be an assistant or early associate professor, or equivalent level at a non-US institution, and be in the early stages of their career. Nominations are available only to members. The award includes a US$1,500 honorarium.

**UDOLF CIMDINS STUDENT SCHOLARSHIPS**

*European Society for Biomaterials*

**Description:**
The European Society for Biomaterials invites applications for the Rudolf Cimdins student scholarships. These support student participation in the ESB annual conference, to be held in Kraków, Poland from 30 August to 3 September 2015. The leading topic of the conference is balancing the needs for research and translation in a time of limited resources, and topics include:

- smart biomaterials;
- surface modification and functionalization;
- advanced manufacturing;
- antimicrobial surfaces and materials;
- bio interfaces;
- bio imaging and bio sensing;
- tissue engineering and regenerative medicine;
- angiogenesis and vascularization;
- drug and gene delivery;
- cell encapsulation and delivery;
- stem cells;
- cancer therapy;
• bone and cartilage;
• neural regeneration;
• cardiovascular applications;
• wound healing;
• clinical trials;
• translation and commercialization.
Applications are open to students from academic or research centers based in a new EU country, other east European country or third world country. Applicants must have an accepted abstract and be the presenting author.
Winners receive free congress registration.

INDUSTRIAL PHD PROGRAMME

InnovationsFonden

Description:
Innovations Fonden invites applications for its industrial PhD programme. This aims to educate researchers with special knowledge about industrially focused research, create knowledge in the Danish business community and facilitate knowledge transfer between companies and universities in Denmark and abroad. The projects are conducted jointly by a private company, a PhD candidate and a university. The university is not required to be located in Denmark, but a Danish university must then be affiliated with the project as a third party.
The official applicant is the private company, which must have a division located in Denmark, Greenland or the Faroe Islands. The company supervisor must at a minimum hold a bachelor degree. Several companies can jointly apply for a project. The PhD candidate must have a master’s degree or equivalent with a grade average of at least 8.2 after the Danish scale. Candidates with a degree from a...
university outside Denmark must have a grade average similar to this. In exceptional cases this requirement can be dispensed with if the candidate has shown particular aptitude for research.

The candidate will be employed by the company and they will receive salary subsidies of DKK14,500 per month for three years. They will also receive funding for travel expenses, worth up to DKK137,000 over the duration of the project. If the host university is located abroad there is extra funding available to finance the stays there. Funding awarded to the company may cover a maximum of 50 per cent of the total eligible project expenses. The host university will also receive funding to cover supervision, infrastructure and relevant PhD courses.

TECH AWARDS
Tech Museum of Innovation

Description:
The Tech Museum of Innovation invites nominations for the Tech Awards. These are awarded for projects addressing well-defined and globally significant problems with innovative technology. Awards are given in the five categories of environment, education, young innovator, health or economic development. The technology and application should be ground-breaking and stand out from existing solutions and should be used in the field with measurable impact. The awards honor individuals, non-profit organizations and for-profit companies. Unrestricted cash prizes of US$25,000 and US£75,000 will be awarded in each category.

Closing date: 06 May 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect.
Applications due by 2pm PST. This call is repeated once a year.

JOINT DOCTORAL GRANTS
Ghent University

Description:
Ghent University invites applications, under its special research fund, for its joint doctoral grants. These support PhD students who wish to take a doctorate under joint supervision of Ghent University and a non-Flemish partner university or institution for higher education. The duration is a minimum of six months and a maximum of 24 months at Ghent University. The stay may be divided into several periods within the span of four years. Two types of funding are available, covering only the stay at Ghent University:
- PhD scholarship, for which the student receives a minimum of €1,823 per month and the Ghent University promoter a bench-fee of €310 a month;
- Top-up funding, for which the student receives €1,000 per month and the Ghent University promoter a bench-fee of €310 a month.
Candidates must be enrolled at a non-Flemish university or institute of higher education.

Closing date: 06 May 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. Applications due by 5pm. This call is repeated once a year.

SHORT-TERM INVITATION FELLOWSHIP PROGRAMME FOR RESEARCH IN JAPAN
Japan Society for the Promotion of Science

Description:
The Japan Society for the Promotion of Science invites applications for its short-term invitation fellowship programme for research in Japan. This enables researchers employed at Japanese research institutions to invite fellow researchers from other countries to Japan to participate in cooperative activities at their research institutions. All fields of the humanities, social sciences and natural sciences are eligible. There are two types of fellowships:
- short-term invitation fellowships;
Short-term S fellowships for Nobel laureates or recipients of other similarly high-level international prizes who are in a leading position in their subject field.

For short-term invitation fellowships, invited researchers must be university professors, associate or assistant professors, research associates or of equivalent status. Other researchers may be eligible if they have held a doctoral degree for a period of more than six years. They must be citizens of a country that has diplomatic relations with Japan. Applications must be submitted to JSPS by a host scientist in Japan through the head of their university or institution or by an overseas nominating authority. Foreign scientists wishing to participate in this programme are advised to establish Contact Details with a Japanese researcher in their field and to ask them to submit an application.

Fellowships are awarded for a period of 14 to 60 days and will include round-trip air travel, a daily maintenance allowance of ¥18,000, domestic research travel allowance of ¥150,000, and overseas travel insurance.

Short-term S fellowships for Nobel laureates or recipients of other similarly high-level international prizes are awarded for a period between seven and 30 days, and include air travel, an allowance of ¥42,000 per day, domestic research travel allowance of ¥150,000, and overseas travel insurance.

Closing date: 08 May 15
Deadline information: Applications are accepted between 1 September and 5pm, 5 September 2014, and 28 April and 5pm, 8 May 2015. Deadlines on: 5 September 2014, 8 May 2015.
Posted date: 28 May 14

POSTDOCTORAL FELLOW AWARD
American Association of Pharmaceutical Scientists

Description:
The American Association of Pharmaceutical Scientists invites applications for its postdoctoral fellow award. This award is given to an individual who has demonstrated excellence in their research work during a postdoctoral period and shows exceptional promise in future contributions to pharmaceutical sciences.
The award is based on the scientific merits of an abstract submission to the annual AAPS meeting and recommendations of mentoring scientists. The award is open to both members and non-members of AAPS. The award recipient will receive US$1,000 for travel expenses and a complimentary AAPS annual meeting registration.

OUTSTANDING GRADUATE STUDENT RESEARCH AWARD IN PHARMACEUTICAL TECHNOLOGIES
American Association of Pharmaceutical Scientists

Description:
The American Association of Pharmaceutical Scientists invites applications for its outstanding graduate student research award in pharmaceutical technologies. This award stimulates and encourages graduate students to prepare their research for publication in AAPS Pharm SciTech. It also encourages graduate students to present their research at the AAPS annual meeting and exposition. Graduate students submitting their dissertation research who will have defended their research and completed requirements for the PhD degree at their respective university within the academic year of the award are eligible to participate.
Each selected student will receive a cash award of US$500, complimentary registration to the AAPS annual meeting and up to US$1,000 for domestic or up to US$1,500 for international travel expenses.

Closing date: 08 May 15 (Forecast)

ENID A HAUPT FELLOWSHIP IN HORTICULTURE
Smithsonian Institution

Description:
The Smithsonian Gardens of the Smithsonian Institution invites applications for the Enid A Haupt fellowship in horticulture. This enables graduate students to conduct in-residence, independent thesis and dissertation research with access to the Smithsonian’s Archives of American Gardens, the Garden Furnishings and Horticultural Artifacts Collection, and the expertise of horticulturists and landscape architects who manage the Smithsonian gardens in Washington, DC.
Proposals may address, but are not limited to, the following topics:

- the cultural significance of public gardens in urban society;
- the environmental effects of urban settings on horticultural endeavors;
- art in the garden;
- vernacular gardens;
- regional garden types;
- the business of horticulture or floriculture;
- historic garden trends and design features;
- historic garden preservation;
- public garden administration.

Applicants must be enrolled in a graduate programme seeking, or having received, their master’s or PhD in horticulture, landscape architecture, cultural studies or a related discipline with concentrations in garden history or landscape studies. Fluency in written and spoken English is required. The fellowship is full-time and tenable for six to 12 months.

Closing date: 15 May 15
Deadline information: This call is repeated once a year.

GRADUATE STUDENT AWARD IN QUALITY BY DESIGN AND PRODUCT PERFORMANCE
American Association of Pharmaceutical Scientists

Description:
The American Association of Pharmaceutical Scientists invites applications for its graduate student award in quality by design and product performance. This award is presented annually to promote the group's goals of fostering multidisciplinary collaborations, advancing science and risk-based approaches and technologies, and developing strategies that link critical quality attributes throughout the product life cycle.

Selection will be made on the basis of the student judged by the committee to have provided the most outstanding contributions through their graduate research.

Students must be in their final year of graduate studies leading to a doctorate degree or be awarded their doctorate in 2013. The award is worth US$1,000.

**FOUNDATION SCHOLARSHIP**

Mineralogical Association of Canada – Association Minéralogique du Canada

**Description:**
The Mineralogical Association of Canada invites applications for its foundation scholarship. This supports one MSc student and one PhD student in the fields of mineralogy, crystallography, geochemistry, mineral deposits and petrology each year. Applicants must be students entering the second year of an MSc programme or the second or third year of a PhD programme at a Canadian university in September 2015. Canadian citizens enrolled in equivalent programmes at any university may also apply. Each scholarship is worth CA$5,000.

Closing date: 08 May 15
Deadline information: This call is repeated once a year.
Posted date: 16 Dec 14

**Award type:** Directed grants for individual investigators, financial aid for postgraduate students

**Award amount max:** $5,000

**Award budget total:** $10,000

**Application form:** [http://www.mineralogicalassociation.ca/doc/ScholarshipForm.doc](http://www.mineralogicalassociation.ca/doc/ScholarshipForm.doc)

FRANCIS FONTAN PRIZE
European Association for Cardio-Thoracic Surgery

Description:
The European Association for Cardio-Thoracic Surgery invites applications for the Francis Fontan prize. The prize is awarded to a medical doctor in specialty training in cardiac or cardio-thoracic surgery. The competition is open to all nationalities. The award should cover the costs of one year's stay at a major European department or any other European research facility. The activities during this year are left to the discretion of the prize-winner and the head of the department visited, but should primarily involve fields such as research training, research activities, advanced clinical education and departmental management. The prize is worth €30,000.
Closing date: 10 May 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated once a year.

RAVEL AWARDS
European Society of Biomechanics

Description:
The European Society of Biomechanics and the Taylor & Francis Group, invite applications for its travel awards. These enable young researchers to participate at the European Society of Biomechanics congress. Any ESB member who is undertaking a PhD or has less than five years postdoctoral experience and has an accepted paper at the congress is eligible. The applicant must be first author of the abstract. The awards are worth €400 and are expected to cover travel, accommodation and living expenses during the ESB meeting.

Closing date: 10 May 15
Deadline information: Abstract deadline for the ESB congress is 30 January 2015. This call is repeated once a year.

HD SCHOLARSHIPS
Capital Markets Cooperative Research Center

Description:
The Capital Markets Cooperative Research Center invites applications for its PhD scholarships. These support doctoral students who wish to undertake a research project in a subject related to capital markets. Possible disciplines include:
• market design and market behavior, including market surveillance and compliance;
• health and accident compensation insurance;
• algorithmic and high frequency trading;
• investment management;
• data and text mining and natural language processing.
Applicants must have a first class honors degree or a master’s degree with a major research component and a track record of academic research. Students can be enrolled at

TEMPLETON FREEDOM AWARDS PROGRAM
Atlas Economic Research Foundation

Description:
Atlas Economic Research Foundation invites applications for the Templeton freedom awards program. The program recognizes the achievements and future promise of independent think tanks. Prizes are awarded in each of the following categories:

- **solutions of poverty.** Recognizing outstanding research and innovative projects addressing how economic and legal institutions can solve problems of poverty;
- **ethics and values.** Recognizing outstanding research and innovative projects concerning the relationship between free enterprise and the ethics, values, and character that sustain it;
- **student outreach.** Recognizing outstanding work by think tanks to improve education about freedom;
- **social entrepreneurship.** Recognizing outstanding research and innovative projects on social entrepreneurship to benefit the poor, increased cooperation among think tanks, the private sector organizations for the free society, and general building of a sound, strong, civil society;
- **initiative in public relations.** Recognizing nonprofit research institutes that have
demonstrated outstanding success in effectively communicating the ideas of a free society;
• innovative media award. Recognizing outstanding think tank projects that use film or multimedia technologies to promote the principles of a free society;
• award for special achievement by a university-based center. Recognizing outstanding projects and achievement by university based centers in promoting liberty;
• award for special achievement by a young institute. Recognizing outstanding performance by an institute that is less than five years old. One winner will be chosen from a developed country, and another one from a more difficult part of the world.
Two winners will be announced in each category. Both established and emerging non-profit institutes are encouraged to apply. Each winner will receive $10,000.

Closing date: 11 May 15 (Forecast)

DISTINGUISHED PHARMACEUTICAL SCIENTIST AWARD
American Association of Pharmaceutical Scientists

Description:
The American Association of Pharmaceutical Scientists invites nominations for its distinguished pharmaceutical scientist award.

The award is intended to recognize an individual’s accomplishments that have been outstanding because of the impact of their
work in the pharmaceutical sciences, regulatory and technology. The work must have moved significantly the frontier of the field. It must be demonstrated by a continued effort that involves the testing and establishment of basic concepts that have important scientific significance and have stimulated research investigations by others. The award recipient may receive a US$10,000 honorarium.

Closing date: 13 May 15 (Forecast)
Deadline information: Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated once a year.

**NEW INVESTIGATOR GRANT IN PHARMACEUTICS AND PHARMACEUTICAL TECHNOLOGIES**

*American Association of Pharmaceutical Scientists*

**Description:**

The American Association of Pharmaceutical Scientists invites nominations for its new investigator grant in pharmaceutics and pharmaceutical technologies. The award is a one-time grant to be used to support new academic researchers during the early stages of their careers. Nominees must demonstrate a commitment to conduct research in basic pharmaceutics, dosage form design or the pharmaceutical technologies and have the potential for outstanding achievement in teaching and research in these areas as well as the potential to be future leaders in pharmaceutical education and research.

The applicant must be actively engaged in training graduate students and carry out basic research in pharmaceutics, drug delivery or the pharmaceutical technologies. Nominees must have less than four years of academic experience and less than seven years of total postdoctoral experience. The award is worth US$10,000.

**Closing date: 13 May 15 (Forecast)**

**Deadline information:** Call has not yet been announced by funder but this is the approximate deadline we expect. This call is repeated once a year.

ENID A HAUPT FELLOWSHIP IN HORTICULTURE
Smithsonian Institution

Description:
The Smithsonian Gardens of the Smithsonian Institution invites applications for the Enid A Haupt fellowship in horticulture. This enables graduate students to conduct in-residence, independent thesis and dissertation research with access to the Smithsonian’s Archives of American Gardens, the Garden Furnishings and Horticultural Artifacts Collection, and the expertise of horticulturists and landscape architects who manage the Smithsonian gardens in Washington, DC. Proposals may address, but are not limited to, the following topics:
• the cultural significance of public gardens in urban society;
• the environmental effects of urban settings on horticultural endeavors;
• art in the garden;
• vernacular gardens;
• regional garden types;
• the business of horticulture or floriculture;
• historic garden trends and design features;
• historic garden preservation;
• public garden administration.

Applicants must be enrolled in a graduate programme seeking, or having received, their master’s or PhD in horticulture, landscape architecture, cultural studies or a related discipline with concentrations in garden history or landscape studies. Fluency in written and spoken English is required. The fellowship is full-time and tenable for six to 12 months.

Closing date: 15 May 15
Deadline information: This call is repeated once a year.

JOAN KELLY MEMORIAL PRIZE IN WOMEN’S HISTORY
American Historical Association

Description:
The American Historical Association invites applications for the Joan Kelly memorial prize in women’s history. The prize is awarded annually for the book in women's history or feminist theory that best reflects the high intellectual and scholarly ideals exemplified by the life and work of Joan Kelly. Submissions must be books in any chronological period, any geographical location or in an area of feminist theory that incorporates an historical perspective. Books should demonstrate originality of research, creativity of insight, graceful stylistic presentation, analytical skills and a recognition of the important role of sex and gender in the historical process. The inter-relationship between women and the historical process should be addressed. Books with an imprint of 2013 are eligible for the 2014 award. The award is worth between US$1,000 and US$1,500.

NEW RESEARCH WORKERS’ AWARDS
Quaternary Research Association

Description:
The Quaternary Research Association invites applications for its new research workers’ awards. These are aimed at younger researchers studying for higher degrees in quaternary science and typically support such activities as field expeditions, geological surveys, coring activities, laboratory visits, purchase of field equipment and laboratory analyses.
Postgraduates who have been members of the association for at least six months are eligible to apply. Applicants must not hold a doctoral degree or tenured academic position. Preference will be given to those who have no source of fieldwork funding or whose access to such funds is limited.
Awards are normally worth up to £1,000.

Closing date: 15 May 15
POSTGRADUATE MEETINGS AWARDS
Quaternary Research Association

Description:
The Quaternary Research Association invites applications for its postgraduate meetings awards. These enable postgraduates to attend association meetings, namely field meetings and annual discussion meetings. Registered postgraduates who are current members of the association may apply. Applications are particularly encouraged from students in their first year of postgraduate study. The main criteria for the distribution of awards will be relevance to research topic and financial need. Awards normally cover 50 per cent of the costs of the meeting, excluding travel to the venue.

GRADUATE STUDIES GRANTS
Audio Engineering Society Educational Foundation

Description:
The Audio Engineering Society Educational Foundation invites applications for its graduate study grants. Grants for graduate studies in audio engineering and related fields are awarded annually. Applicants must meet the following criteria:

* demonstrated commitment to audio engineering;
* acceptance or a pending application for graduate studies leading to a master’s or higher degree.

Recipients are selected on the basis of demonstrated talent and achievement, and on faculty recommendation. A recipient may apply for one-time renewal after the...
successful completion of at least one year of graduate studies. Payment will be sent directly to the graduate school on behalf of the student's tuition account.

Closing date: 15 May 15 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect. Deadline: applications accepted between March 15 and May 15, annually.

OSCAR G BROCKETT ESSAY PRIZE
American Society for Theatre Research

Description:
The American Society for Theatre Research, in association with the Oscar G Brockett Center for Theatre History and Criticism at the University of Texas at Austin, invites nominations for the Oscar G Brockett essay prize. This recognizes the best essay relating to any subject in theatre research written and published in English in a referred scholarly journal or volume published by a scholarly press.
The author must have been a member of ASTR for at least three years and must be at least seven years beyond the PhD. Essays must have been published in the calendar year preceding the year in which the award is given. Essays in edited anthologies may not have appeared elsewhere previously. Nominations may come from the author of an essay, any member of ASTR or the editor of a journal or volume in which the essay has appeared.
The prize is worth US$1,500.

ARTHA T MUSE PRIZE FOR SCIENCE AND POLICY IN ANTARCTICA
Tinker Foundation

Description:
The Tinker Foundation and the Scientific Committee on Antarctic Research of the International Council for Science invites nominations for the Martha T Muse prize for science and policy in Antarctica. This is awarded to an individual who has demonstrated excellence in Antarctic science or policy, and who shows clear potential for sustained major and significant contributions that will enhance the understanding of Antarctica.

Applicants should be less than 50 years of age on the closing date of nomination. Individuals throughout the world are eligible, although nominations from South America, Asia, and Russia are particularly encouraged.

The prize is worth US$100,000.

Closing date: 22 May 15 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

Posted date: 13 Feb 14

Award type: Prizes, Young investigator awards
Award amount max: $100,000

**TWAS-LENOVO SCIENCE PRIZE**

**TWAS**

**Description:**
TWAS and PC-maker Lenovo invite nominations for their science prize. This recognizes an outstanding scientist in the developing world. The prize will focus on the basic sciences, with the specific subject area changing each year. In 2014, the prize will be awarded in the field of biological sciences. Nominations are welcome from TWAS members, selected individuals, as well as science academies, national research councils, universities and scientific institutions. Nominations of women scientists are particularly encouraged. Self-nominations are not accepted. Eligible candidates must be nationals of a developing country who have lived and worked there for the last ten years. The prize is worth US$100,000, and includes a medal and a certificate.

**Closing date:** 22 May 15 (Forecast)
**Deadline information:** Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

ITULAR FELLOWSHIPS
Association of Commonwealth Universities

Description:
The Association of Commonwealth Universities invites applications for its titular fellowships. These provide opportunities for staff from member universities and employees working in industry, commerce or public service in a Commonwealth country to spend periods of time at other member universities or relevant institutions outside their own country. Preference will be given to applicants in the following areas:

- agriculture, forestry and food sciences;
- biotechnology;
- development strategies;
- earth and marine sciences;
- engineering;
- health and related social sciences;
- IT;
- management for change;
- professional education and training;
- social and cultural development;
- university development and management.

Applications must be approved by the executive head of a university in ACU membership, or the head of the candidate’s company. The association will also consider applications approved by the chief executive officer of a Commonwealth inter-university organization. Fellowships are worth up to £5,000 to cover travel, insurance, subsistence and fees.

Closing date: 01 Jun 15 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

ZMT BREMEN FELLOWSHIPS IN TROPICAL COASTAL MARINE ECOLOGY AND BIOGEOCHEMISTRY

Center for Science and Technology of the Non-Aligned and Other Developing Countries

Description:
The Center for Science and Technology of the Non-Aligned and Other Developing Countries invites applications for the ZMT Bremen fellowships in tropical coastal marine ecology and biogeochemistry. These enable scientists from developing countries to spend up to three months at the Leibniz Center for Tropical Marine Ecology in Germany in order to upgrade their research skills and undertake short-term joint research projects in fields related to ecology and biogeochemistry of tropical coastal marine systems. Applicants must be from a developing country, hold at least an MSc or equivalent and be actively engaged in research and development. There is no upper age limit, although preference will be given to younger scientists.
Up to five fellows will receive a monthly subsistence allowance of €1,250 to cover accommodation and other expenses for a stay of no longer than three months. The center
will cover the international airfare of fellows from its member countries. Applicants from countries that are not members of the NAM S&T Center are subject to certain conditions.

Closing date: 01 Jun 15 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

RITZKER DISTINGUISHED LECTURESHIP
Biomedical Engineering Society

Description:
The Biomedical Engineering Society invites nominations for its distinguished lecturer award. This award is intended to recognize an individual’s outstanding achievements and leadership in the science and practice of biomedical engineering. The awardee is expected to deliver a plenary lecture at the Society’s annual fall meeting and publish the text of the lecture in the Annals of Biomedical Engineering. The lecture should critically review a field of biomedical engineering and offer a vision for its future. The award consists of a plaque, a cash prize of $1,500, complimentary registration for the annual meeting and travel expenses of up to $1,000. Nominees may have achieved excellence in biomedical engineering by contributions within the setting of the university, industry or government. All nominees should be BMES members.

Closing date: 30 May 15 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

Description:
The Royal Aeronautical Society invites applications for its centennial scholarships. The scheme supports the future of aeronautics by making financial awards that assist individuals or organizations in activities that will benefit and encourage careers or research, including historical research, in the field of aeronautics, astronautics, aerospace and aviation management. Awards are made in the following two categories:

- individual awards, which usually take the form of bursaries towards postgraduate tuition fees for students who have completed at least two years of study in an aerospace-related field;
- team awards, which support projects of national reach that aim to encourage and increase the numbers of young people in the fields of aviation or aerospace engineering.
- All applicants must be society members. Awards are worth up to £5,000 per year, with the average amount being £1,000 to £3,000.

Closing date: 30 May 15

CURT RICHTER AWARD
International Society of Psychoneuroendocrinology

Description:
The International Society of Psychoneuroendocrinology invites applications for the Curt Richter award. This honors distinguished young investigators in the field of psychoneuroendocrinology. Applicants must be 45 years of age or younger by the start of the calendar year. The manuscript must be a report of original, never-published research in basic or clinical psychoneuroendocrinology. It may also be an
integrative comprehensive new discussion of the author’s previously published findings. The award consists of an honorarium, an award certificate, a plaque, a travel grant of up to US$1,000 to attend the meeting, exemption from membership dues to the society for three years, and access to Science Direct and Scopus for one year.

Closing date: 30 May 15

INTERNATIONAL PRIZE FOR PIONEERING HUMAN DEVELOPMENT PROJECTS
Arab Gulf Programme for Development

Description:
The Arab Gulf Programme for Development invites nominations for its international prize for pioneering human development projects. This prize recognizes and rewards success in the implementation of pioneering and innovative projects in the field of sustainable human development and encourages their dissemination and publicity. The prize, for projects in the field of food security, will be awarded in four categories:

- the role of international organizations in supporting developing countries’ national policies to fight the phenomenon of street children and tramps. The prize will be awarded for a project implemented by UN, international or regional organizations and is worth US$200,000;
- governmental agencies’ role in designing and implementing pioneering programmes reflecting the legislation aiming at curtailing the phenomenon of street children. The prize will be awarded for a project by government ministries and public institutions and is worth US$100,000;
- NGO-led efforts for street children and tramps rehabilitation and social integration. The prize will be awarded for a project initiated, sponsored or implemented by individuals and is worth US$50,000.

Nominations may be made by UN organizations, regional, national and international NGOs active in the field of human development, government agencies, public institutions, universities and research centers and syndicates. Self-nominations are not allowed.

AUL BARAN YOUNG SCHOLARS AWARD
Marconi Society

Description:
The Marconi Society invites nominations for the Paul Baran young scholars award. The purpose of this award is to recognize outstanding young scientists and engineers who have demonstrated exceptional capabilities and potential in information and communication sciences.

Candidates must:
- be nominated by a faculty member, department chair or manager with whom they are closely associated and who can verify relevant accomplishments and potential for future achievement;
- be a student or recent graduate at the time the nomination is submitted;
- have been born in 1986 or later;
- be actively engaged in research in a field related to information and communications science, and have already made a significant contribution to one or more projects. Awardees will receive a US$4,000 cash prize and an additional US$1,000 in expenses to attend the annual award ceremony.

ACR DISTINGUISHED LECTURESHIP IN BREAST CANCER RESEARCH
American Association for Cancer Research

Description:
The American Association for Cancer Research, in co-operation with Bristol-Myers Squibb, invites nominations for its distinguished lectureship in breast cancer research. This award has been established to recognize outstanding science that has inspired or has the potential to inspire new perspectives on the aetiology, diagnosis, treatment or prevention of breast cancer. The recipient of the award will receive a US$10,000 honourarium and present a 25 minute lecture at the 35th Annual San Antonio Breast Cancer Symposium. All cancer researchers who are affiliated with any institution involved in cancer research, cancer medicine, or cancer-related biomedical science anywhere in the world may be nominated. Such institutions include those in academia, industry, or government. Nominations may be made by any scientist, whether an AACR member or non-member, who is now or has been affiliated with any institution involved in cancer research, cancer medicine, or cancer-related biomedical science. Candidates may not nominate themselves.

GRANT IN AID OF TRAVEL FELLOWSHIPS FOR YOUNG INVESTIGATORS
International Society of Addiction Medicine

**Description:**
The National Institute of Drug Abuse and the International Society of Addiction Medicine invite applications for their grant in aid of travel fellowships for young investigators. This enables young investigators to attend and present their accepted abstracts at the society’s annual scientific meeting, to be held in Dundee, Scotland from 5 to 8 October 2015. Applicants must be affiliated with an organization that has the capability and history of conducting addiction research. They should be involved in addiction research, be 45 years old or younger, and have sufficient skills to present their work in English. Preference is given to applicants from neighboring low and low-middle income countries. The fellowships are worth up to US$2,500 each, and cover travel, accommodation and registration fees.

**Closing date:** 30 May 15

CLINICAL FELLOWSHIP
European Society for Paediatric Endocrinology
Description:
The European Society for Paediatric Endocrinology invites applications for its clinical fellowship. This aims to promote the development of patient care, clinical management and clinical research in paediatric endocrinology through a training programme in a European clinical center. Applicants must be trained in paediatrics or have started training in paediatric endocrinology. Host centers will be located in Europe. Applicants should be able to understand and speak the language of the host center country fluently. The duration of the fellowship will be decided case by case with respect to the candidate’s training needs, preferences and possibilities, the availability of appropriate host centers, the evaluation of the applications and the financial resources available.

MARK MILLS AWARD
American Nuclear Society

Description:
The American Nuclear Society invites applications for its Mark Mills award. This is awarded to the graduate student author who submits the best original technical paper contributing to the advancement of science and engineering related to the atomic nucleus. The paper should demonstrate originality and ingenuity and should be in a form suitable for publication. A thesis is not acceptable. A paper already published or submitted for publication is eligible if nominated by the faculty advisor.
To be eligible for the award, the student must have been registered in a graduate degree program in a recognized institution of higher learning for one year prior to the award, and the student's faculty advisor must make a certification of this fact on the nomination form. Thus, this competition is open to a graduate student completing the work on which his or her paper is based from a minimum of four months prior to the award to a maximum of 16 months prior to the award. An engraved plaque and a monetary award are given.

Closing date: 31 May 15 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

**JOHN VON NEUMANN THEORY PRIZE**
Institute for Operations Research and the Management Sciences

**Description:**
The Institute for Operations Research and the Management Sciences invites nominations for the John von Neumann theory prize. This prize is awarded to a scholar, or scholars, who have made fundamental, sustained contributions to theory in operations research and the management sciences. Although the award is normally given to a single individual, in the case of accumulated joint work, the recipients can be multiple individuals. The award consists of $5,000, a medallion and a citation.

**Closing date:** 31 May 15 (Forecast)
**Deadline information:** Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

BERNARD AND JOAN MARSHALL RESEARCH PRIZES
British Society for Cardiovascular Research

Description:
The British Cardiovascular Society, through the British Society for Cardiovascular Research, invites applications for the Bernard and Joan Marshall research prizes. These recognize outstanding research in any area of cardiovascular biology or medicine. Two prizes are available:
• the Bernard and Joan Marshall young investigator prize, worth £2,500, for nominees training for a higher degree or those who have received their higher degree in the past three years;
• the Bernard and Joan Marshall research excellence prize, £4,000, for nominees who have received their higher degree no more than 15 years ago.
Nominations are welcomed from BSCR members in academia and the pharmaceutical industry.

Closing date: 31 May 15
Deadline information: This call is repeated once a year.

ACR OUTSTANDING INVESTIGATOR AWARD FOR BREAST CANCER RESEARCH
American Association for Cancer Research
Description:
The American Association for Cancer Research invites nominations for its outstanding investigator award for breast cancer research. This award recognizes an investigator whose novel and significant work has had or may have a far-reaching impact on the etiology, detection, diagnosis, treatment or prevention of breast cancer. Such biomedical research include basic, translational, clinical and epidemiological studies. Applicants must be no more than 50 years of age at the time the award is received and affiliated with any academia, industry or government institution involved in cancer research, cancer medicine or cancer-related biomedical science. The recipient of the award will receive US$10,000.

ID CLINICAL RESEARCH FELLOWSHIP PROGRAMME FOR SURGEONS
AO Foundation

Description:
The AO Foundation invites applications for the CID clinical research fellowship programme for surgeons. This aims to provide surgeons with training and experience in all phases of clinical research, including study planning, monitoring, data analysis and publication.
The selected fellow will spend three months full time at the AO Clinical Investigation and Documentation branch office in Switzerland. Applicants must hold a medical doctor with minimum surgical training, have published at least one clinical investigation, dedicate at least 10 to 20 per cent of time to clinical research and be supported by an AOTrauma, AOSpine or AOCMF member at their home clinic.
Fellowships include mentoring and support, accommodation and travel to and from Switzerland. A maximum of two fellows can be enrolled at CID each year.

Closing date: 31 May 15
Deadline information: This call is repeated once a year.

LONGITUDE PRIZE
Nesta

Description:
Nesta, in collaboration with Innovate UK, invites proposals for the Longitude prize. This rewards the development of a transformative point-of-care diagnostic test to revolutionise the delivery of global healthcare and conserve antibiotics for future generations. The test must be accurate, rapid, affordable, easy to use and available to anyone, anywhere in the world. It should be able to identify when antibiotics are needed and, if they are, which ones to use. Anyone and any organization may enter. Teams must include a member who has a presence in the UK. The competition is only open to those who have developed a new diagnostic test. The winner is awarded £8 million. £2m is awarded to support promising entries along the way.

Closing date: 31 May 15
Deadline information: Deadlines for judging are every four months. The prize will remain open until it is won, or if there is no winner, until 31 December 2019. This call is repeated 3 times a year.

INTERNATIONAL FELLOWSHIP PROGRAMME
American Association for Respiratory Care

Description:
The American Association for Respiratory Care invites applications for its international fellowship programme. Fellowships enable healthcare professionals from outside the United States to visit US counterparts to observe the practice of respiratory care as it is performed in a variety of settings, and visit the educational programmes that teach it. The fellowship lasts for 18 days and includes visits to two cities in the United States and attendance at the AARC international respiratory congress. Expenses incurred within the US, including food, lodging, the conference registration and local ground transportation, are included. Healthcare professionals from outside the United States who have expressed a long-term commitment to the advancement of respiratory care or indicated a genuine interest in establishing respiratory care as an allied health profession are eligible.

Closing date: 01 Jun 15 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect. Applications are accepted between 1 January and 1 June annually. This call is repeated once a year.
Posted date: 05 Aug 13

Gerda Henkel Foundation

Description:
The Gerda Henkel Foundation invites proposals for its research scholarships. These support research conducted by individual scholars over one to two years in the historical humanities, particularly within the fields of archaeology, art History, historical Islamic Studies, history, history of Law, history of Science, prehistory and Early History. Applications are generally open to universities and other research institutes or comparable institutions, as well as those made by one or several PhDs or scholars with postdoctoral lecture qualification. Grants are worth €2,000 per month for PhD scholars and €2,700 per month for scholars after postdoctoral lecture qualification. An additional family grant is available, worth €300 for one child, €400 for two children and €500 for three or more children. Funding is also available for scholarships abroad.

Closing date: 01 Jun 15 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect. Applications may be submitted at any time, but will be reviewed by the foundation committee twice per year. This call is repeated 2 times a year.
Posted date: 22 Aug 14

POSTDOCTORAL BURSARIES
University of Edinburgh

Description:
The University of Edinburgh's Institute for Advanced Studies in the Humanities invites applications for its postdoctoral bursaries. Applications are invited from candidates in any area of the humanities and social sciences, whose work falls within the scope of one of the Institute for Advanced Studies' current research themes or across disciplinary boundaries in the humanities.
Applicants must have been awarded a doctorate, normally within the last three years, and should not have held a permanent position at a university, or a previous fellowship at the Institute for Advanced Studies. Candidates who have held temporary or short-term appointments are eligible to apply.
The bursaries are tenable for fellowships of three to nine months, in the period 1 September 2014 to 31 August 2015. Awards are each worth up to £10,000. The bursary may be used to top up an existing postdoctoral fellowship or as a contribution towards living expenses.

Closing date: 02 Jun 15 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

FELLOWSHIPS
Network of European Institutes for Advanced Study

Description:
The Network of European Institutes for Advanced Study invites applications for its fellowships. These enable junior and senior scholars to undertake 10 month residencies in one of the participating EURIAS institutes in Germany, Italy, Belgium, Hungary, UK, Finland, Israel, France, Sweden, Austria, the Netherlands and Switzerland. The programme is open to all disciplines in the fields of humanities and social sciences. It also
welcomes applications from the arts, life and exact sciences provided that the research project interfaces with humanities and social sciences. At the time of the application, researchers must hold a doctoral degree plus two years of full-time research experience after the degree. Exception is made for law scholars who are eligible with a master’s degree plus six years of full-time research experience after the degree.

Researchers from all countries are eligible to the programme but one cannot apply to an institute located in his or her country of residence. Exception is made for applicants who have spent no more than 12 months in their country of residence during the last three years prior to the application.

42 fellowship positions will be available for the academic year 2015-2016. Each institute offers a living allowance of approximately €26,000 for a junior fellowship and approximately €38,000 for a senior fellowship as well as accommodation, a research budget and coverage of travel expenses.

Closing date: 05 Jun 15 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect.
Applications are invited between 15 April and noon 12pm GMT, 5 June. This call is repeated once a year.

GRADUATE STUDENT AWARD IN QUALITY-BY-DESIGN AND PRODUCT PERFORMANCE
American Association of Pharmaceutical Scientists

Description:
The American Association of Pharmaceutical Scientists invites nominations for its graduate student award in quality-by-design and product performance. This recognizes a graduate student for contributions to quality-by-design and product performance in the field of pharmaceutical sciences. The aim is to provide a scientific forum that creates and fosters multidisciplinary collaborations leading to enhanced product performance consistent with predefined objectives for greater patient benefit, and to leverage, advance and accelerate science- and risk-based approaches and technologies and develop strategies that link the critical quality attributes, product, process and patient throughout the product life cycle.
Applicants must be in the final year of graduate studies leading to a doctoral degree. The award includes US$1,000.
Closing date: 11 Jun 15 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

**ANIEL H EFRON RESEARCH AWARD**
American College of Neuropsychopharmacology

**Description:**
The American College of Neuropsychopharmacology invites nominations for the Daniel H Efron research award. The award will be presented to an individual on the basis of outstanding basic research contributions to neuropsychopharmacology. The contributions may be preclinical or work that emphasises the interface between basic and clinical research.
Recipient must be 50 years of age or younger as of 31 December 2013. Any scientist worldwide may nominate an individual for this award. Nomination of women and minorities is highly encouraged.
The award consists of a monetary award. Recipients who are not members may also be reimbursed for their expenses to attend the annual meeting.

**Closing date:** 12 Jun 15 (Forecast)
**Deadline information:** Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

ANDELA RHODES SCHOLARSHIPS
Mandela Rhodes Foundation

Description:
The Mandela Rhodes Foundation invites applications for its scholarship programme. This offers young Africans, who exhibit academic prowess as well as broader leadership potential, the opportunity to pursue their postgraduate degree at a recognized South-African university or tertiary institution. The foundation is looking for individuals that reflect in their character a commitment to the principles of education, reconciliation, leadership and entrepreneurship. African honors and master’s students under the age of 30 may apply. The scholarship provides full funding for up to two years. This includes funds for tuition, accommodation, meals, a book allowance, and a travel allowance. Other than financial assistance, the scholarship also provides a series of leaderships workshops, access to peer-monitoring and access to the community of Mandela Rhodes scholars.

Closing date: 12 Jun 15 (Forecast)

PROQUEST DOCTORAL DISSERTATION AWARD
American Society for Information Science and Technology

Description:
The American Society for Information Science and Technology invites applications for the ProQuest doctoral dissertation award. This recognizes outstanding recent doctoral candidates whose research contributes significantly to an understanding of some aspect of information science. The award is intended to encourage participation of new PhDs in the activities of a professional association by providing a forum for presentation of their research and assisting them with travel support. Participation is limited to those who have completed their doctorates since May of the year preceding that in which the award will be made. The award is worth US$1,000 and an additional US$500 will be awarded to contribute to travel and other expenses to attend the ASIS&T annual meeting.

Description:
The International Society of Nephrology invites applications for its global outreach fellowship programme. This provides nephrological training to physicians from emerging countries. Fellows receive training in advanced host institutions, allowing them to acquire knowledge in basic and clinical nephrology, dialysis, transplantation, and epidemiology. The training focuses on providing the exact skills and knowledge specifically required by the home institution; the guiding principle of the programme is that fellows are required to return to their home countries after their training to convey knowledge and experience that they acquired during their fellowship.

Two types of fellowships are offered: long-term awards lasting seven to 12 months and short-term awards lasting two to six months. Individuals at least 30 years of age who are living and working in developing countries and who have received basic training in nephrology may apply. Applicants must be able to guarantee a return to their home countries within three months of completing the training. Candidates are encouraged to seek out relationships of their own accord and to benefit from relationships that their institution may already have with other well-established renal centers.

Closing date: 15 Jun 15

HOLBERG PRIZE
Ludvig Holberg’s Minnefon – Ludvig Holberg Memorial Fund
Description:
The Ludvig Holberg Memorial invites nominations for the Holberg prize. This recognizes contributions to research in the arts and humanities, social science, law or theology, either within these fields or through interdisciplinary work.
The prize winner must have had a decisive influence on international research. Scholars holding positions at universities and other research institutions, including academies, may submit nominations.
The prize is worth NOK4.5 million.

RESEARCH FELLOWSHIPS

International Research Center for Cultural Studies – Internationales Forschungszentrum Kulturwissenschaften

Description:
The International Research Center for Cultural Studies invites applications for its research fellowships. These support postdoctoral scholars early in their careers, who wish to carry out projects in Vienna that combine empirical investigation with thoughtful theoretical work. A thematic link to the IFK’s current research focus on imaginations of disorders is desired but not a prerequisite for application. The IFK will also accept independent projects within the realm of humanities and social sciences unrelated to the present research focus. Applicants must have a doctorate or a PhD at the time of application. Qualified scholars are eligible without regard to nationality, institutional, or departmental affiliation; although preference is given to qualified Austrian applicants. Research fellowships will be granted for one academic semester and consist of a monthly allowance of up to €2,325, a workspace with electronic facilities at the IFK, as well as a return ticket to and from Vienna and free accommodation in a studio apartment.

Closing date: 01 Jul 15 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

Houshang Pourshariati Iranian Studies Book Award

University of Arizona

Description:
The University of Arizona’s Middle East Studies Association invites nominations for the Houshang Pourshariati Iranian studies book award. The aim of the award is to recognize outstanding publishing in Iranian studies. The subject matter must deal with Iran and the work must seek to advance knowledge and scholarship on Iranian society, culture and history from ancient times to the present, and as expressed by literature, philosophy, social studies, art, science and other disciplines.

Books must be non-fiction scholarly monographs based on original research published in, or translated into, English between 1 May 2011 and 30 April 2012. Works not eligible include edited collections and compilations, proceedings of symposia, new editions of previously published books, bibliographies, dictionaries and textbooks. The award consists of a certificate and US$2,000.

Closing date: 15 Jun 15 (Forecast)

Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

Dissertation Fellowships
Deutsche Bundesstiftung Umwelt

Description:
The Deutsche Bundesstiftung Umwelt invites applications for its dissertation fellowships. These recognize 60 young scientists for advanced research in the field of environmental protection. Applicants must not have started their doctoral thesis before applying. The work has to be done mainly in Germany, with a clear reference to the German environmental situation. In addition to the natural sciences and engineering, applications from the social sciences, humanities, economics and law are welcome. Interdisciplinary topics that support a sustainable development are especially welcome.
Applicants must be written in German and the applicant should have a good command of the German language. Work should be completed within three years.

Closing date: 15 Jun 15

FELLOWSHIP PROGRAMME
International Society of Nephrology

Description:
The International Society of Nephrology invites applications for its global outreach fellowship programme. This provides nephrological training to physicians from emerging countries. Fellows receive training in advanced host institutions, allowing them to acquire knowledge in basic and clinical nephrology, dialysis, transplantation, and epidemiology. The training focuses on providing the exact skills and knowledge specifically required by the home institution; the guiding principle of the programme is that fellows are required to return to their home countries after their training to convey knowledge and experience that they acquired during their fellowship. Two types of fellowships are offered: long-term awards lasting seven to 12 months and short-term awards lasting two to six months. Individuals at least 30 years of age who are living and working in developing countries and who have received basic training in nephrology may apply. Applicants must be able to guarantee a return to their home countries within three months of completing the training. Candidates are encouraged to seek out relationships of their own accord and to benefit from relationships that their institution may already have with other well-established renal centers.

Closing date: 15 Jun 15
Posted date: 16 Dec 13
Award type: Predoctoral fellowships, Postdoctoral training fellowships, Directed grants for individual investigators, Predoctoral training fellowships, Young investigator awards, Early-Career fellowships

RAYMOND AND BEVERLY SACKLER INTERNATIONAL PRIZE IN BIOPHYSICS
Tel Aviv University

Description:
Tel Aviv University invites nominations for the Raymond and Beverly Sackler international prize in biophysics. This aims to promote originality and excellence of research in the field of biophysics. In 2014, the prize subject is the physical principles of biological systems. Nominations are accepted from:
- members of the Tel Aviv University Senate and members of the Israel Academy of Sciences and Humanities;
- presidents, rectors, vice-presidents, provosts and deans in natural sciences, medicine and engineering;
- professors of physics, chemistry, biology, medicine and engineering in recognized institutions of higher learning and research in Israel and abroad;
- Sackler prize laureates.
Self-nominations are not accepted. The prize is worth US$100,000.

Closing date: 15 Jun 15 (Forecast)

DOCTORAL AND POSTDOCTORAL SCHOLARSHIPS (BALKAN, EASTERN EUROPE, ASIA, AFRICA AND LATIN AMERICA)
State Scholarships Foundation

Description:
The State Scholarships Foundation invites applications for its doctoral and postdoctoral scholarships. These enable students from Balkan, Eastern Europe, Asia, Africa and Latin America to undertake doctoral studies and research at Greek universities. The following categories are available:

- doctoral studies for a duration of one to three years, in exceptional cases an additional year may be granted;
- postdoctoral research for a duration of six months to two years.

Applicants may apply to study any subject area currently available at Greek universities. Applicants must hold a postgraduate degree and be no older than 35 of age for PhD studies, while applicants for postdoctoral research must hold a PhD. 20 scholarships are available. All awards provide €600, free medical care and tuition fees. The scholarships for doctoral studies include a monthly allowance of €600, whereas the award for postdoctoral and further education studies is worth €800 per month. Doctoral studies will also include €300 for printing costs and up to €300 for research costs.

Closing date: 16 Jun 15 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

GREEN TALENTS COMPETITION
Bundesministerium für Bildung und Forschung - German Federal Ministry of Education and Research

Description:
The Federal Ministry of Education and Research invites applications for its green talents competition. This aims to recognize and support young scientists working to make our societies more sustainable. The winners will be able to visit Germany’s leading universities, research institutions and companies, in order to gather information and learn about the options for cooperation with German partners. Each winner will present their own research as part of an international forum and, in the following year, be invited to return to Germany for up to three months, to conduct research and establish partnerships.

Applicants must be non-German citizens or reside outside Germany, be currently enrolled in a master or PhD programme or already hold a degree in the field of sustainable development, have a strong command of English and be no more than 32 years of age.

Both visits to Germany are fully financed by the BMBF. 25 awards are available.

Closing date: 16 Jun 15 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect.
Applications due by 12 noon CET. This call is repeated once a year.

ACR/PREVENT CANCER FOUNDATION AWARD FOR EXCELLENCE IN CANCER PREVENTION RESEARCH
American Association for Cancer Research

Description:
The American Association for Cancer Research and Prevent Cancer Foundation invite nominations for the award for excellence in cancer prevention research. This is given to a scientist for their seminal contributions to the field of cancer prevention. Such investigations must have been conducted in basic, translational, clinical, epidemiological or Behavioral science in cancer prevention research.

All cancer researchers who are affiliated with any institution involved in cancer research, cancer medicine, or cancer-related biomedical science anywhere in the world are eligible. Such institutions include those in academia, industry or government. Candidates must currently maintain an active research programme and have a record of recent publications.

Nominations may be made by any scientist, whether an AACR member or non-member, who is now or has been affiliated with any institution involved in cancer research, cancer medicine, or cancer-related biomedical science. Candidates may not nominate themselves.

The recipient of the award will receive a US$5,000 honorarium and present a 50-minute lecture at the AACR Frontiers in Cancer Prevention Research conference.

Closing date: 20 Jun 15 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

ACR DISTINGUISHED LECTURE ON THE SCIENCE OF CANCER HEALTH DISPARITIES
American Association for Cancer Research

Description:
The American Association for Cancer Research invites nominations for its distinguished lecture on the science of cancer health disparities, funded by Susan G Komen for the Cure. This award recognizes an investigator whose novel and significant work has had or may have a far-reaching impact on the aetiology, detection, diagnosis treatment or prevention of cancer health disparities. All cancer researchers who are affiliated with any institution involved in cancer research, cancer medicine or cancer-related biomedical science anywhere in the world may be nominated. Such institutions include those in academia, industry or government. Nominations may be made by any scientist, whether an AACR member or non-member, who is now or has been affiliated with any institution involved in cancer research, cancer medicine or cancer-related biomedical science. Candidates may not nominate themselves. The recipient of the award will receive a US$5,000 honourarium and present a 45-minute lecture at the AACR Science of Cancer Health Disparities in Racial and Ethnic Minorities and the Medically Underserved conference.

UNESCO INTERNATIONAL LITERACY PRIZES
UNESCO

Fax: +1 202 785 4248
Email: nagc@nagc.org
Description:
UNESCO invites nominations for its international literacy prizes. These support outstanding and innovative efforts to promote literacy and non-formal education. Two prizes are available:
King Sejong literacy prize gives special consideration to the promotion of mother tongue languages in developing countries; Confucius prize for literacy supports efforts in rural areas, working with adults and out-of-school youth, particularly women and girls.
Nominations can be submitted by member states or by non-governmental organizations which maintains official partnership with UNESCO. Each government or non-government organization may nominate a maximum of three candidates for the Confucius prize and a maximum of two candidates for the King Sejong prize per year. Both prizes are worth US$20,000 and the Confucius prize furthermore offers a study visit to literacy projects in China. Each prize is awarded to two institutions, organizations or individuals in 2014.

MAX BENTELE AWARD FOR ENGINE TECHNOLOGY INNOVATION
Society of Automotive Engineers

Description:
The Society of Automotive Engineers invites nominations for the Max Bentele award for technology innovation. This award annually recognizes an SAE member whose work has furthered innovation in the manufacture, design and improvement of engine technology for ground, air or space vehicles. The award is designated for engineers under the age of 35 who have made a major contribution through a new idea, concept, innovation or application which provides a recognized improvement in engine technology and which has been verified through proof of concept demonstrations.

The award includes a medal and a $2,000 honorarium, which is presented at the awards ceremony during the SAE world congress.

MCDONALD FELLOWSHIPS
Multiple Sclerosis International Federation

Description:
The Multiple Sclerosis International Federation invites nominations for its McDonald fellowships. These enable young researchers from emerging countries to travel to an established research institution to work with leading researchers in multiple sclerosis, with a view to returning to their own country to establish a programme of MS research involving the application of the newly learned techniques. Applications in the areas of symptom relief, rehabilitation and palliative care are encouraged.
Nominees must be a citizen of an emerging country and under the age of 35 years at the time of application.
The fellowship consists of a two-year grant of around £30,000 per year to cover travel and living costs, and an additional contribution of £2,000 per year to the host institution.

Closing date: 30 Jun 15

Deadline information: This call is repeated once a year.

GRADUATE STUDENT SCHOLARSHIPS
Society for Industrial and Organizational Psychology

Description:
The Society for Industrial and Organizational Psychology invites applications for its graduate student scholarships programme. This scholarship programme recognizes achievement in a graduate career and is intended to assist doctoral students in the field of industrial and organizational psychology with the cost of carrying out their dissertation work.
Applicants must be student affiliates of SIOP and be enrolled on a full-time doctoral programme in industrial-organizational psychology or a closely related field, at a regionally accredited university or college. Applicants who have defended their dissertations are ineligible.
The highest ranking student will receive the Lee Hakel graduate student scholarship, which awards US$3,500. The second highest ranked student will receive the Mary L Tenopyr scholarship, which awards US$3,000. In addition, two scholarships of US$3,000 each will be awarded.

Association for Library and Information Science Education

Description:
The Association for Library and Information Science Education invites proposals for the Eugene Garfield doctoral dissertation competition. This recognizes outstanding dissertations completed between 1 June 2013 and 30 May 2014 which deal with substantive issues related to library and information science. Applicants must be doctoral students who have recently graduated in any field of study, or who will have completed their dissertations by the deadline. Winners will receive US$500, plus 2015 conference
ACCI PHD FELLOWSHIPS
University of Ghana

Description:
The University of Ghana, through its West Africa Center for Crop Improvement, invites applications for its WACCI PhD fellowships. This scheme is designed to train plant breeders who will make their careers breeding new cultivars of food crops. Coursework and research will focus on the following West Africa food crops:

- cereals: maize, rice, sorghum and millet;
- roots and tubers: cassava and sweet potato;
- legumes: cowpea and groundnut;
- Vegetables: tomato and pepper.

The geographic focus of study will be West Africa, with initial emphasis on Ghana, Nigeria, Burkina Faso, Mali and Niger. Applicants from Cameroon and Senegal may also be considered. Applicants must hold a master’s degree in plant breeding, plant genetics, plant pathology, horticulture, crop science, applied entomology, applied nematology or an equivalent degree. Applicants should be under the age of 40 and must hold a position as an agricultural research scientist in a national research institute or university in their home country. A good knowledge of English is required.

The fellowships are tenable for four years, consisting of one year of academic study at the University of Ghana and three years of thesis research at the students’ research station or universities in their home countries. Students return in the last six months of the final year to complete and submit their theses. The fellowship will provide a stipend to cover reasonable personal living expenses, including return airfare.

Closing date: 30 Jun 15 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.
Award type: Predoctoral fellowships, financial aid for postgraduate students, Thesis/Dissertation funding, directed grants for individual investigators

FRONTIERS OF KNOWLEDGE AWARDS
BBVA Foundation

Description:
The BBVA Foundation invites nominations for its frontiers of knowledge awards. These recognize research and creative work that contributes to an improved understanding of the natural, social and artificial or technological worlds. Eight categories are available:

- basic sciences, including physics, chemistry, mathematics;
- biomedicine;
- ecology and conservation biology;
- information and communication technologies;
- economics, finance and management;
- contemporary music;
- climate change;
- development cooperation.

Candidates may be one or more persons of any nationality. Agencies and organizations in the public and not-for-profit private sector are also eligible for climate change and development cooperation awards. Organizations may nominate more than one candidate but each candidate may only be nominated for one category.

Awards are worth €400,000. In the event of an award being shared by more than one person, its monetary amount will be divided equally among all recipients.

Closing date: 30 Jun 15 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect. Nominations due by 11pm GMT. This call is repeated once a year.

OUTLEDGE RSA AWARD FOR EARLY-CAREER EXCELLENCE
Regional Studies Association

Description:
The Regional Studies Association invites nominations for the Routledge RSA award for early-career excellence. This recognizes an original and outstanding contribution to the field of regional studies. Nominations should include a fully referenced article in English relating to the research interests of the association, which include the following priority areas:
• regional theory;
• regional economic development;
• regional planning and policy;
• regional policy, public management and policy evaluation;
• territorial politics, governance, regionalism and federalism;
• regional impacts;
• data, methods and spatial econometrics;
• regional identities.
The award includes £500, a free place at the annual international conference, a certificate and up to £200 discretionary funding to support the costs of attending the association’s president’s event, where the award will be presented.

A U-TWAS YOUNG SCIENTISTS NATIONAL AWARDS

TWAS

Description:
The World Academy of Sciences, in collaboration with the Africa Union, invites applications for the AU-TWAS young scientists’ national awards. These offer support to African countries to institute awards for young African scientists in the fields of life and earth sciences and basic science, technology and innovation. National science academies, scientific research councils and high-level research organizations in Africa intending to award the young scientists national awards in their respective countries, may apply. Eligible candidate for the awards must not be older than 40 years of age at the time of winning the prize, hold at least a master’s degree, have a strong publication record and have lived and worked for the past three years in Benin, Burkina Faso, Cameroon, Egypt, Ghana, Guinea, Kenya, Lesotho, Malawi, Nigeria, Senegal, South Africa, Sudan or Zimbabwe. Women scientists are particularly encouraged to apply.

Each participating country may apply for two US$5,000 prizes, one for each of the above topics of study.

Closing date: 30 Jun 15 (Forecast)
Deadline information: Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.

NORMAN BORLAUG AWARD FOR FIELD RESEARCH AND APPLICATION

World Food Prize Foundation

Description:
The World Food Prize Foundation, with an endowment from the Rockefeller Foundation, invites nominations for the Norman Borlaug award for field research and application. This is awarded for an exceptional, science-based achievement in international agriculture and food production by an individual who has clearly demonstrated intellectual courage, stamina and determination in the fight to eliminate global hunger and poverty. The award honors an individual who is working closely and directly in the field or at the production or processing level with farmers, animal herders, fishers or others in rural communities, in any discipline or enterprise across the entire food production, processing and distribution chain.

Nominees must be under the age of 40 on 16 October of the year in which the award is presented. Nominations must be submitted in English.

The award is worth US$10,000.

Closing date: 30 Jun 15 (Forecast)

POSTGRADUATE SCHOLARSHIPS
Catholic Academic Exchange Service – Katholischer Akademischer Ausländer-Dienst

Description:
The Catholic Academic Exchange Service (KAAD) invites applications for its postgraduate scholarship programme to study at a German university. The following scholarships are available:
• S1 scholarships – for scholars applying from their home countries for studies in Germany;
• S2 scholarships – for scholars who have already started to study at a German university.

Students from a developing country in Africa, Asia, the Middle East or Latin America who already have a first degree and wish to pursue a master’s course or a PhD in Germany, may apply. In rare cases, KAAD also considers applications from students who already have a PhD and who would like to come to Germany for a short research period.

Preference is given to applicants from the following focus countries: Ghana, Ethiopia, Zimbabwe, Kenya, Uganda, Tanzania, Egypt, Jordan, Lebanon, Palestine, Israel, Syria, Bangladesh, Indonesia, Cambodia, Myanmar, the Philippines, Thailand, Vietnam, China, Mexico, Guatemala, Colombia, Ecuador, Peru, Bolivia, and Brazil. Applications from other countries are only considered in exceptional cases. Eligible candidates should possess German language skills and should not be older than 30 years for master’s scholarships or 35 for PhD scholarships. KAAD has a preference for Catholic applicants.

Closing date: 30 Jun 15
Deadline information: Applications for the September selection are due by the end of June; applications for the March selection
are due by the end of November the previous year. Deadlines on: 30 June 2015, 30 November 2015, and repeated annually.

Posted date: 12 Nov 14
